In other columns we print an article on political assessments, from that old and well-known republican organ, the Independent for which we ask the thoughtful reader to call.

When a party gets down to robbing almshouses and bribing jurors to clear thieves, it is time that honest men become alarmed.

It is said chairman Cooper claims 2 per cent on Phillips alms house stealings—it will make a nice addition to the corruption fund of the thieves. Why not assess just as fair to assess stealings as the salaries?

A meeting of colored republican independence, held in Philadelphia, on Sunday night, was broken up by a mob of stalwarts who are in favor of the fullest liberty for the negro to shirk for—Beaver. The rowdies who broke up the meeting belong to the Beaver committee and to the mint and custom house employes. The president of the meeting was Mr. Purvis, president of the Penn'a anti-slavery society since 1835.

The wrong these independent colored people were guilty of consisted in their cutting loose from the control of the bosses, who are only for the negro so long as they can vote and use him to keep in power the corrupt machine. Let the negro only declare himself ready no longer to be the slave of stalwart bosses, and the lash is applied more lustily than when under the southern slave owner.

Here we have another proof that all the republican love for the negro was a sham.

The World remarks, the offense of the colored men—it was admitted, was rank. They not only declared their sympathy with Stewart and their dislike of Cameron's pet, Beaver, but they welcomed the appearance of a member of the Committee of One Hundred that is making such a noble effort to overthrow the Philadelphia Tammany; they urged on the colored men the necessity of emancipating themselves from domination of the bosses who seek to buy them with money and detach them with rum, and they scorned the republican party machinery to their faces, and insisted that "so long as a man was a Republican because he was black his color would be a badge of serfdom." It is no wonder, therefore, that the agents of Cameron and Beaver fell upon the colored Republicans of Philadelphia to vex and bulldoze them. It must have seemed to Mr. Purvis very much like the good old times of '33, and it will not greatly surprise and it is one of the prospects of Beaver and the local ring go on getting worse and worse, to see Liberty Hall burned as Pennsylvania Hall was then, and "niggers" hunted out more through the streets of Quaker City.

Another radical villainy in this state to help the spotted Beaver is the attempt, exposed by the Phila. Times, to transfer the land league vote to Beaver, by a regular bargain and sale, as though the members of the league were so many smoked herring or boxes of cheese to be disposed of the bartering corner. The Times has the proof conclusive in the letters that fix the villainy upon the villains, a fair synopsis of which is printed in another column of the Reporter. If Gen. Beaver is the christian he professes to be, it is time he show his sincerity by repudiating the results that would thus corruptly and dishonestly bring about his election. Gen. Beaver, what say you about this new villainy exposed by Col. McClure? Can you remain silent in the face of the Times exposure, and show that you are indifferent as to what means are used to make votes for you, fair and foul? Now let's hear from Gen. Beaver.

The leading Free Thinkers at Watkin's Glen were stalwart Republicans and old Abolitionists of the Phillips school.

Robert C. Ingersoll, G. H. P. Kinney, D. C. Bennett, Mrs. Johnson and several others of note have denounced the Democratic alone of the number was a Democrat, every republican paper in the country would have called it a Democratic conclusion of infidels, communists and secessionists.

Bah! Several attempts were made to bribe the jury in the star-route prosecution. This alone is evidence sufficient that these stalwart lions are guilty of the greatest crime for which they were tried. In another column will be found the particulars.

These are the fellows who would choke honest independents, rob democrats of all rights they rob the treasury and mock justice and defy the courts, and accuse the scrub-women and other employees of the government in order to keep their corrupt gang in power. This is the element that wants to elect Beaver in preference to Patton, the fraud and tried reformer.

Phillips didn't die by fire by any means. He went to the almshouse for goods to eat and loaf, and is one of those who cheerfully paid his assessments to the campaign fund of the bosses, principally to help in the election of Beaver. Phillips was true to his political training.

One of the officials of the plundered Philadelphia almshouse, has made a statement that Phillips was constantly assisted by the politicians to make

up for he was led to stealing, and he went about the latter wholesale. Thus he must be with hundreds of other assessed office holders, they steal to make up their assessments and a thousand fold more, such ugly facts should compel a christian statesmanlike Beaver to resign his candidacy at once, and join the democrats or honest independents, he certainly can not rely to have his campaign run up on such funds.

Will Beaver decline?

ULCER MARKS.

The party of the bosses is making a desperate struggle to keep in power. If it were not hideous with political ruses, this would not be necessary. Here are some of the marks that disgrace the "grand old party" which seek salvation only in assessments:

- 1. The credit mobliler swindle. 2. The Freedmen's bank fraud. 3. The Emma mine swindle. 4. The Carpe-bank robberies. 5. The Indian ring fraud. 6. The Black Friday swindle of Grant & Co. 7. The stolen presidency. 8. The Belknap and Babcockery. 9. The pardon of the convicted reform thieves. 10. The star-route robberies. 11. The river and harbor steal of over ten millions. 12. The assessment of scrub-women, girls and boys in government employ for a corruption fund. 13. Creating 1000 new positions for political rascals. 14. These thirteen crimes of the republican party go to the credit of the party in our country. Then in our own state we find: 1. The \$150,000 extra pay legislature. 2. The \$300,000 Evans embezzlement—addition, division and silence. 3. The \$200,000 extra pay for office of \$300,000 a year for boss J. P. 4. Defeat of a free pipe bill. 5. Disregard of the provisions of the reform constitution. 6. Enormous increase of the expenditures of the state government over democratic rule. 7. Pardon of the riot bribers. 8. Almshouse robbery by Phillips & Co. 9. If any voter can swallow the republican party with all these ugly ulcers, he must have a digestive apparatus like an ostrich. We could add another hundred republican crimes in the state, but the above should be enough to disgust any honest man.

The liquor question is making trouble in Ind. Mr. Vernon, Indiana, has been threatened by a mob in consequence of an effort to close the saloons on Sunday and eleven o'clock every night. About one o'clock on Sunday morning the residence of John Paul, the city marshal, was fired by a mob and burned to the ground. The deputy city marshal was terribly beaten by a gang of ruffians. The telegraph and telephone were guarded by the mob to prevent communication with the neighboring towns.

Phillips, after all, was a fool for running away. He should have stood a trial, and then demanded his pardon, as the riot bribers, revenue thieves and others convicted recede no better than he.

The Washington correspondent of the Boston Herald has had some fun with an "ex-confederate Virginia reindenter" assessment papers served on him up to his eyes. The unfortunate employee's name is John P. Phipps. His salary as a checker was reduced \$30 by Jay Hubbell's little two per cent. Then came Mahone's No. 1, for three per cent. \$35. Next his congressional district committee modestly requested the trifling sum of \$250, or one and a half per cent, and this was shortly followed by an intimation from the county committee to the effect that a voluntary contribution of \$10—more would be acceptable. The lie was Mahone's No. 2, for \$100, to be paid on or before October 15. The total is about 14 per cent, the clerk's yearly salary—\$207.50 in all.

Phipps, the missing superintendent of the Philadelphia almshouse, was a master hand at voting papers. It has long been his custom to place some 200 papers on the pay roll of the institution, giving them nominal salaries of a few cents to week and nominal positions, solely to transfer papers into voters and then to vote them in obedience to machine orders. It was an atrocious fraud, a deliberate perversion of the law, and the bases of employment of helpless paupers to debauch the ballot.

The flight of Phipps, the Almshouse defaulter, is causing great excitement, and the facts developed show that Robert E. Patton is the man that unerringly directed the corrupt and compelled the guilty actors to shirk their duty. Although Mr. Patton was only acting as a worthy official should act, the relations he holds to the people warrants the publicity of such action convincing the people that he is all his friends claim, a competent, deserving and valuable public officer.

Mr. Berthe Marie de Rothschild daughter of the head of the Frankfurt branch of that family, will be married to Prince Alexandre de Wagram. As a necessary preliminary to the ceremony, Mr. Berthe received from the prince a signed and attested copy of the Jewish faith. A newspaper-Globe administered first communication to Mr. Berthe. No members of the family were present.

Mental depression, weakness of the muscular system, general ill health, benefited by using Brown's Iron Bitters.

Subscription and several others of note have denounced the Democratic alone of the number was a Democrat, every republican paper in the country would have called it a Democratic conclusion of infidels, communists and secessionists.

THE TARIFF COMMISSION A FRAUD.

Cincinnati, Sept. 3.—The Tariff Commission, at first a tame force, has now become a bold fraud. The work done here is a fair specimen of the work that has been done since the commission left Long Branch. It came here Saturday night. Yesterday morning a special session was held and more pot-boiling assessments were heard. Their requests were asked for high duty. Their requests took up about two hours and the rest of the day the Commissioners and clerks spent as pleasantly as they could. Some went to the theatre and others called on the wives of the Cincinnati officials. The newspapers from Boston to Detroit have laughed at the commission, ignored it or exposed it, and here the happy thought occurred to one of the Commissioners that the importance and pomp of the work ought to be explained to the editors, but the Cincinnati officials and their friends have appreciated the explanation. The information that has been obtained to-day is not worth telegraphing. Members of the Cincinnati Association of Officers asked for a continuation of the wise and liberal policy of protection of our tariff, malaise and the foolish owners of a line of steamships between Cincinnati and New Orleans emphasized the request. No Commissioner took the trouble, if any one understood such a thing, to point out the great increase of the tariff free trade would give these boats. The owners of rolling mills, a manufacturer of hemp and a drug store asked for heavy duties and praised the wise policy of protection. Mr. Samuel Thackeray, the only member of the republican party to go to the credit of the party in our country. Then in our own state we find: 1. The \$150,000 extra pay legislature. 2. Disregard of the provisions of the reform constitution. 6. Enormous increase of the expenditures of the state government over democratic rule. 7. Pardon of the riot bribers. 8. Almshouse robbery by Phillips & Co. 9. If any voter can swallow the republican party with all these ugly ulcers, he must have a digestive apparatus like an ostrich. We could add another hundred republican crimes in the state, but the above should be enough to disgust any honest man.

THE TARIFF COMMISSION A FRAUD.

Cincinnati, Sept. 3.—The Tariff Commission, at first a tame force, has now become a bold fraud. The work done here is a fair specimen of the work that has been done since the commission left Long Branch. It came here Saturday night. Yesterday morning a special session was held and more pot-boiling assessments were heard. Their requests were asked for high duty. Their requests took up about two hours and the rest of the day the Commissioners and clerks spent as pleasantly as they could. Some went to the theatre and others called on the wives of the Cincinnati officials. The newspapers from Boston to Detroit have laughed at the commission, ignored it or exposed it, and here the happy thought occurred to one of the Commissioners that the importance and pomp of the work ought to be explained to the editors, but the Cincinnati officials and their friends have appreciated the explanation. The information that has been obtained to-day is not worth telegraphing. Members of the Cincinnati Association of Officers asked for a continuation of the wise and liberal policy of protection of our tariff, malaise and the foolish owners of a line of steamships between Cincinnati and New Orleans emphasized the request. No Commissioner took the trouble, if any one understood such a thing, to point out the great increase of the tariff free trade would give these boats. The owners of rolling mills, a manufacturer of hemp and a drug store asked for heavy duties and praised the wise policy of protection. Mr. Samuel Thackeray, the only member of the republican party to go to the credit of the party in our country. Then in our own state we find: 1. The \$150,000 extra pay legislature. 2. The \$300,000 Evans embezzlement—addition, division and silence. 3. The \$200,000 extra pay for office of \$300,000 a year for boss J. P. 4. Defeat of a free pipe bill. 5. Disregard of the provisions of the reform constitution. 6. Enormous increase of the expenditures of the state government over democratic rule. 7. Pardon of the riot bribers. 8. Almshouse robbery by Phillips & Co. 9. If any voter can swallow the republican party with all these ugly ulcers, he must have a digestive apparatus like an ostrich.
