### At the King's Gate.

A beggar sat at the king's gate. And sang of summer in the rain A song with sounds reverberate Of wood and hill and plain, That rising bore a tender weight Of sweetness, strong and passionate; A song with sigh of mountain pass, Ripple and rustle of deep grass, The whispering of wind-smote sheaves Low lapping of long lily leaves Red morns and purple-mooned eves.

The king was Gred of his crown; He looked across the rainy land, Across the barren stretch of sand,

Out to the rainy sea; He heard the wind beat loud and free The gilded casement, sullenly Falling away with mist and rain. 'But oh! it is a weary thing To wear a crown and be a king,

Unending war with care and pain; Oh, for one golden hour and sweet, To serve the king with willing feet!" But he would sleep, and from his heart The jeweled silken girdle loose And give it room to turn and choose asure for its beat.

Intense excitement was created at Knox-ville, Tenn., by the killing in a shooting affray of three of the city's most prominent citizens—General Joseph A. Mabry, Major Thomas O'Connor and Joseph A. Mabry, Jr. The difficulty began in the afternoon at the fair grounds, by General Mabry attack-ing Major O'Connor and threatening to kill him. O'Connor replied that it was not the place to settle their differences, whereupon Mabry told him he should not live. It seems that Mabry was armed and O'Connor was not. The cause of the difficulty was an old feud about the transfer of some property from Mabry to O'Connor. Later in the afternoon Mabry sent word to O'Connor that he would kill him on sight. The next morn-ing Major O'Connor was standing in the door of the Mechanics' National bank, of which he was president. General Mabry and another gentleman walked, down Gay extect,
