health and avoid sickness Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of Brown' Iron Bir-TERS, and taking it regularly according to directions.

> Mansfield, Ohio, Nov. 26, 1881. Mansfield, Ohio, Nov. 26, 1851.

> Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters; I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the king of medicines.

GLEANINGS.

Among the German aristocracy there has suddenly arisen a rage for tours around the world.

In Russia there are railway cars with small saloons on each side of the aisle, so that privacy may be secured.

Of 140,000 known species of plants a man eats only 300 and some of these give him the headache in the stomach. A shopkeeper in Philadelphia has righteously been fined \$50 for selling a pistol to a boy.

On a bill of fare in a restaurant of Rio Janeiro is a dish called "Aristu. It is intended for Irish stew.

"The regeneration of feminine attire," says an English writer, "will never be compassed by the way of trouser-dom."

The mint officers note an almost unprecedented and persisted demand for silver dimes. Dimes are now made only from 3,5 and 20-cent coins and mutilated quarters and halves.

One day last summer Mr. A. Bronson Alcott said to an acquaintance: "I early determined in life not to be a slave to things; not to put my life as pledge for fine furniture, for luxuries, for the material surroundings. We lived a simple life, Mrs. Alcott and I, and I have never regretted it."

A company is being organized in Toronto, Canada, to build a railway along the edge of the Niagara River from Horseshoe Falls to Queenston, and also a railway from the edge of the river through a tunnel to the top of a high-bluff in the rear of the Museum, and to own a park at Niagara Falls and to own a park at Niagara Falls and Queenston

Henry Grady writes in the Atlanta Constitution, "Governor Colquitt wears puff-bosomed shirts, Senator Brown wears a mink skin overcoat from Maine, Captain Harry Jackson wears suspenders with solid silver buckles, Judge Lochrane wears spotted waistcoats, and Bob Toombs has his cuffs and collars sewed on his shirts."

The work of draining Russian marshes, actively carried on for several years past, has resulted in reclaiming more than 1,700,000 acres, of which 330,000 are crown lands. The canals which have been built to drain this great domain are likewise adapted for floating lumber from the forests which they penetate, to market.

The Grand Duke Vladimir of Russia, at present in Paris, possesses herculean strength. As an evidence of it, it is related that when he visits one of his intimate friends and does not find him at home he is accustomed, instead of leaving his card, to leave a piece of silver money, which he doubles with his fingers as easily as if it were but a bit of cardboard.

Robert Toombs, of Georgia, is thrifty and is one of the richest men in the South. Alexander-H. Stevens used to say that at school Toombs was looked PROVISIONS, upon as a big, dull awkward boy, who MARBLE AND GRANITE WORKS would never amount to much. "But," Mr. Stephens would add, "when Friday came and the school week was over, we always found that Bob Toombs had all the marbles, knives, etc., which had be-longed to the rest of the schoolboys."

An Oregon boy, who had no string to his kite, went into a drug store and bought a penny's worth of licorice. While the druggist was serving him he tied an end of the string from the druggist's ball of string to his dog's tail, and FISH, SYRUPS, ETC., then, kicking the dog, drove him out of the shop. After the dog had unreeled all that the boy thought that he needed, he cut the string, took his licorice and walked out of the apothecary's shop

Bitters relieved me.

This medicine was introduced to the medical profession and to the public at large by S. B. Hartman, M. D., in 1877, after he had prescribed it to over 40,000 patients in almost every disease to which flesh is heir.

It is wholly composed of numerous vegetable ingredients, each one of which is acknowledged by the medical profession to be the most potent of all the herbal remedies known to medical science.

THE SUN. More people read THE SUN during the year just now passed than ever before since it was first print ed. No other newspaper published on this side of the earth bas been bought and read by so many men and women.

We are credibly informed that people buy, read We are credibly informed that people buy, reas, and like THE Sux for the following reasons, among others:

Because its news columns present in attractive ferms and with the greatest possible accuracy whatever has interest for humankind; the events, the deeds and missdeeds, the wisdom, the philosophy, the notable folly, the solid sense, the improving non-sense-all the news of the busiest world at present revolving in space.

Because people have learned that in its remarks concerning persons and affairs THE SUN makes a practice of teiling them the exact truth to the best of its shilly three hundred and sixty five days in the year, before election as well as after, about the whales as well as about the small fish, in the face of dissent as plainly and fearlessly as when supported by general approval. THE SUN has absolutely no purpose to serve, save the information of its readers and the furtherance of the common good,

Beccuse it is everybody's new spaper. No man is so humble that the THE SUN is in different to his well-fare and his rights, No man is so rich that he can allow injustice to be done him. No man, no association of men, is poverfull enough to be exempt from the strict application of its principles of right and wrong.

Because in politics it has fought for a dozen years,

the strict application of its principles of right and wrong.

Because in politics it has fought for a dozen years, without intermission and sometimes a imost alone among newspapers, the fight has resulted in the recent overwheiming popular verdict against Robeson ism and for honest government. No matter what party is in power. The SUN stands and will continue to stand like a rock for the interests of the people against the ambition of bosses, the encroach ments of monopolists, and the diamonest schemes of public robbers.

All this is what we are told almost daily by our friends. One man holds that it is the best religious newspaper ever published, because its Christianity is undiluted with cant. Another holds that it is the best Republican newspaper printed because it has already whipped half of the races is out of that party, and is proceeding against the other half with undiminished vigor. A third bette wost to be the best magazine of general literature in existence, because its readers miss nothing worthy of notice shat is current in the world of thought. So every friend of The Sun discovers one of its many ideas that appeals with particular force to his individual liking.
