"A stitch in time saves nine." If you feel faint twinges of rheumatism take a few doses of Smith's German Oil, and you may head off a prolonged attack of the dread disease. The following, which we clip from an exchange, contains as much truth as can well be compressed in the space it occupies. It says: "A newspaper is like a church; it wants fostering; then it can reflect credit on its location. Take your home paper. It gives you more news of immediate interest than the New York or other newspapers; it stands up for your rights; you always have a champion in your home paper, and those who stand up for you should certainly be well sustained. Your interests are kindred and equal, and you must rise or fall together. Therefore, it is your interest to support your home paper; not grudgingly, but in a liberal spirit; as a pleasure, not as a disagreeable duty, but as an investment that will amply repay the expenditure."

He was accompanied by that prince of amiable fellows, Abe Kerlin, manager of the Tyronese axe-works. The two put themselves in possession of the Reporter's double barrel shot gun and put in a day among the squirrels in the Loop woods. Says the Millinburg Telegraph, of last week: Theodore Danbergh, of New Berlin, after an unaccountable absence of some days from home, returned and soon after was discovered with a shot gun, attempting to take his life. He was prevented by timely interference, but not long after tried to drown himself in Penns Creek. Rescued from this, he made a third attempt with a razor, but was foiled again. A day or two afterwards, when spoken to on the subject, he said he knew nothing about it—his repeated attempts at suicide evidently being made while laboring under decided aberration.

Courage is a noble trait. With some it requires greater courage to live than it does to die. When disease racks the frame, when sores cover the person, when aches are in every joint, when muscles are soft and flabby, when the least exertion gives fatigue, when the mind is filled with gloom and despondency, what is there in life worth living, and yet many eke out just such a miserable existence, living only for those who love them. When it is generally known that Brown's Iron Bitters will cure the above disorders how many hearts will be made glad! How many homes made happy!

VITAL QUESTIONS. Ask the most eminent physician of any school, what is the best thing in the world for quieting and allaying all irritation of the nerves and curing all forms of nervous complaints, giving natural, childlike refreshing sleep.

And they will tell you unhesitatingly "Some form of Hope!"

CHAPTER I. Ask any or all of the most eminent physicians: "What is the best and only remedy that can be relied on to cure all diseases of the kidneys and urinary organs; such as Bright's disease, diabetes, retention or inability to retain urine, and all the diseases and ailments peculiar to women?"

"And they will tell you explicitly and emphatically, "Buchu."

Ask the same physicians "What is the most reliable and surest cure for all liver diseases or dyspepsia, constipation, indigestion, biliousness, malarial fever, ague, &c.?"

"And they will tell you, "Mandrake!"

Hence, when these remedies are combined with others equally valuable. And compounded into Hop Bitters, such a wonderful and mysterious curative power is developed which is so varied in its operations that no disease or ailment can possibly exist or resist its power, and yet it is harmless for the most frail woman, weakest invalid or smallest child to use.

CHAPTER II. "Almost dead or nearly dying" For years, and given up by physicians of Bright's and other kidney diseases, liver complaints, severe coughs called consumption, have been cured.

Women gone nearly crazy! From agony of neuralgia, nervousness, wakefulness and various diseases peculiar to women. People drawn out of shape from excruciating pains of rheumatism, inflammatory and chronic, or suffering from scrofula.

POWERS AND SON AGAIN HEARD FROM.

A few weeks ago, we notified the public, that we were busily engaged in making large improvements in our store, preparatory to receiving our large stock of Fall and Winter boots and shoes.

These improvements have been made and the stock received. We would say however, to describe in detail the goods we have on hand would take up too much space, and a visit to our establishment will repay anyone convincing them as it will that we have the most complete line of goods ever offered in Central Pennsylvania. It is always important for buyers to consult their own interests and purchase where they can get the best article.

For men, women, young men and children, we have the best goods ever offered in Bellefonte or vicinity. We have goods of all grades, and we believe we can suit all in our prices; but the best way is to find out for yourselves. Call and see us. Examine our goods and be convinced.
