CENTRE HALL, PA., Nov. 14, 1883.

According to the new baggage rule of the Pennsylvania railroad, now in force, no piece of baggage weighing over 250 pounds is received for transportation. The rule requiring a charge for the weight of all baggage in excess of 150 effect as before.

Strength to vigorously push a business, strength to study for a profession, strength to regulate a household, strength to do a day's labor without physical pain. Do you desire strength? If you are broken down have no energy, feel as if life was hardly worth living, you can be relieved and be restored to robust health and strength by taking Brown's Iron Bit'ers, a sure cure for dyspepsia, malaria, weakness and all diseases requiring a true, reliable, non-alcoholic tonic. It acts on the blood, nerves and muscles and regulates every part of office of commissioner of patents is, however,

A Clergyman's Too Zealous Sermon. CLEVELAND, Ohio, Nov. 2.-The trial of the suit of Frank E. Bronson against the Rev. James Brant for \$30,000 dan a ges, was commenced in the court of common pleas. Mr. Bronson, who was some time since the proprietor of a drug store in the village of Oberlin, where, on account of the numerous colleges located in the place, the sale of intoxicating liquors was strictly prohibited, was several times accused of selling whisky contrary to the wishes of the community, there by incurring their ill will, which finally culminated in the failing and destruction of his store. The present suit grows out of a sermon preached by the defendant February 24th, 1882, and which was afterwards published in The Oberlin News, of which the fol-lowing is a brief report: "Ghastly deeds of the past shall stretch out their skinny hands and haunt thee; good men shall breathe testimony that a plague is stayed, and as thy with such advantages of education as farmguilty spirit is borne on the blast towards the gates of hell, the hideous shrieks of those whom thou has ruined shall pursue thee." Bronson claims he only only sold liquors as medicine, and that on account of the sermon his character and business had been irretrievably ruined, therefore he prays for

A Peculiar Case.

MILWAUKEE, Nov. 2.—The physicians in this city are studying the case of a girl of thirteen years, whose legs below the knees are so sensitive they cannot be touched between daybreak and midnight, but at midnight they become so insensible to feeling that the strongest current of electricity has object she is thrown into paroxysms of agony. While the lower part of her limbs are in this condition her legs, from the knees up, are completely dead. The disease came one year ago. She is strong and healthy, except for cataleptic convulsions. Prominent physicians of other cities have examined the case, but fail to effect a cure.

How Watch Cases are Made.

The many great improvements introduced in the manufacture of the Jas. Boss' Gold Watch Case, have led to similar improvements in the making of silver cases.

Under the old methods, each part of a silver case was made of several pieces of metal soldered together, requiring a great amount of cutting and soldering, which softened the metal and gave it the pliability of lead rather than the elasticity of silver.

Under the improved methods, each part of the Keystone Silver Watch Case is made of one solid piece of metal hammered into shape. The advantages are readily apparent, for every one knows that hammering

hardens the metal while soldering softens it. To test the superiority of the Keystone Silver Watch Case, take one of 3 oz. weight, press it squarely in the center when closed, and it will not give, while a case of same weight of any other make will give enough to break the crystal. The Keystone Silver Watch Case is made only with silver cap

and gold joints. Send? cent stamp to Keystone Watch Case Factories, Philadelphia, Pa., for handsome Illustrated Pamphlet showing how James Boss' and Keystone Watch Cases are made, (To be continued.) .

BEN BUTTERWORTH.

General Satisfaction Felt Over His Recent Appointment.

His Great Popularity Among Politiclans and Statesmen of all Parties, Some of his Past Achievements Brief Sketch of His Life.

Washington, Nov. 3.—The appointment and confirmation of Hon. Benjamin Butterpounds for each passenger, remains in worth to the commissionership of patents is received with more general satisfaction than any nomination that President Arthur has lately made. Butterworth is not only unusually popular with all members of congress irrespective of party, and other officials with whom he h ; come in contact, but is person-ally much liked among the leading families here in the city, and the prospect of his continued residence in Washington is cordially

It is an open secret that President Arthur desired and intended to make Mr. Butterworth postmaster general after the death of Mr. Howe; but Indiana had a good man for the place as well as strong claims for recogone which should by right rank as high as the postmaster generalship, though it is not of a nature to bring it so much under public notice. There are nearly five hundred employes under the commissioner, and the pay roll foots up to nearly \$600,000 per annum. It has furthermore attached to it very grave responsibilities that require both sound judgment and the strictest integrity, and one rea son of the general satisfaction over Butterworth's appointment lies in the well known fact that he possesses these qualities to an exceptional degree. His good, clear common sense is proverbial, and his honor has never been questioned even by his strongest politi-

cal opponents. Mr. Butterworth is of Quaker parentage, John Linton, who was conspicuous among those who came to Pennsylvania with Willam Penn, being his ancestor on his mother's side. Butterworth's father came to Ohio from Virginia in 1841, and, until Ben was freer at thy death; thy monument shall be a eighteen years of age, he lived on the farm, ers' children usually had in those days. He studied law in Cincinnati with Durbin Ward and William M. Ramsey, remaining with them two years and graduating at the Cincinnati Law school. His public life began in 1869, when he was appointed assistant United States district attorney under Warner M. Bateman. In 1871 he was nominated for the state senate in a strong democratic district, and by his great personal popularity nearly overcame his opponent's majority. In 1873 he was nominated for the state senate by the republicans and elected by eighty-six votes. At the expiration of his term he moved to Hamilton county, and in 1879 was nominated for congres by acclamation by the republican convention of the no effect on them. She walks and runs about at play in the daytime, but if she strikes any heated contest, elected. He was renominated by acclamation in 1880 and re-elected, and again in 1882 was renominated, but, owing to the liquor question split among the republicans, was defeated in common with all the rest of the ticket. In March last Mr. Butterworth was appointed by Attorney General Brewster to assist in the trial of the election cases in South Carolina, and during the summer was selected by the president as one of the inspectors of the Northern Pacific

> KILLED BY CHOKE DAMP. Two Men Sacrifice their Lives to Save

a Comrade. PITTSBURG, Pa., Oct. S1.-Kiefert Stie felt's tannery, in the upper part of Allegheny or you have Bright's disease or Liver Complaint, City, was the scene of a terrible affair, two men sacrificing their lives in an unsuccessful attempt to save that of a fellow workman. The firm have been digging a well to be used as a vat, and C. Dickson, an employee, went down to measure the depth of the water, when he was overcome by foul air. Ferdinand Schrader and Charles Schultz, who were working near by, heard his cries, and Schrader descended into the well to assist him, but no sooner reached bottom than the fatal* choke-damp rendered him, insensible. Schultz then followed, but he was overcome Ropes - were then procured and fastened around the bodies. Solomon Bamberger and Rhinehart Remsen were lowered into the death trap. With difficulty they tied the in-sensible men to ropes, and all were hauled up. Dickson, Schrader and Schultz were dead, and Bamberger, and Remsen were unconscious, but with restoratives were revived and able to go home. " Dickson was a single man, and the other two were marwere medico

A Clever Forger Outwitted.

PRONIDENCE. R. I., Nov. 2.—A clever case of forgery was frustrated at the First national bank. A man claiming to be an employe of Messrs. Dupee and Manchester obtained a check book from the bank officials and presented a check for \$320, payable to J. Bourden. The bank officers having been previ ously notified to look out for a raised check or forgery, had an officer in readiness, wh after a chase of some minutes caught his man. . He gave his name as James Raymond, of New London. He bought a \$15 lamp of the above firm on Tuesday, giving the name of J. Russell, giving \$25 in payment, and asking for a check for the balance, which was sent to him with the lamp. As the forgery is well executed, the man is probably a professional in that line,

Gold Discovered in Ohio.

BATAVIANO., Nov. 11 .- On Monday a returned California miner, in passinp over the farm of Robert Woods, near Afton, some four miles from here, discovered traces of gold. Upon a careful search he found the gold washed along the gulch to be eighteen or twenty karots fine. Great excitement exists and the "diggings" were visited by hundreds of excited people from the surrounding country and towns. Several were from Cincinnati. The find is about three miles from the mines that were successfully worked by Captain Glass in 1869. A company is now being organised to prospect and work the

golden territory and drive off intruders.

England's Interests in Peril. LONDON, Nov. 2 .- A Paris despatch to the Exchange Telegraph company says that a war between France and China would so seriously imperil British interests that it is feared that England would intervene in the event of the outbreak of hostilities. France will not provoke a rupture with China, but negottations between the two governments will not be renewed until the French are firmly seated in Tonquin.

Failures During the Week.

NEW YORK, Nov. 3 .- The business failures throughout the United States and Canada in the last seven days, as reported to R. G. Dun & Co., of The Mcrcantile Agency, numbered 215, as compared with 218 last week and 248 the week before. The number of failures in Canada continues to be unusually large as also in the western states. In the southern, middle and New England states there is a marked decrease noted.
