It was the Philadelphia vote that saved the Republicans by the skin of their teeth. That city gave Livsey, Radical for State Treasurer, a majority of 21,994, and Niles for Auditor General, 20,667, while the majority for the former in the State is only 19,886 and for the latter 16,-726. The State is therefore Democratic by from two to three thousand, but is swamped by the ballot box stuffers in the city of brotherly love." The same love the wolf in the fable had for the

As regards Mr. Tilden's candidacy for president, the N. Y. Sun says: There can be no question that if Mr. Tilden were in a situation to accept the nomination next year, he would be nominated by acclamation; and then the following election would be substantially on one side. No matter who the Republican candidate might be, Mr. Tilden's majority would even exceed that threefourths of the whole number of voters which he has repeatedly declared to be necessary in order to carry through the

election of any Democratic candidate. But those who indulge in this line of thought must be reminded, and very positively and earnestly reminded, that they are speculating upon an impossibility. Devoted as he is to the welfare of the Democracy, and still anxious to render every possible service to the people there are no circumstances under which Mr. Tilden can be induced to accept this nomination.

The Bellefonte Republican last week had up a gun and rooster to crow over the splendid Democratic victory in New York. Well, we are glad Tute takes the wholloping so good naturedly-reason

War between China and France is inevitable. It is a matter of regret that it could not be averted. War will retard lows: the progress of Chinese civilization, which has been proceeding rapidly under European influences during the last few years. It will renew the antipathy of the Chinese toward foreigners, and make it unpleasant, if not dangerous, for European and American residents there.

At Pittsburg, the other day, at the meeting of the Western Nail Association a general suspension of nail machines was ordered for a period of five weeks, beginning December 22 and ending February 4. This measure has been under consideration for many months, during which time there has been no improvement in the condition of the trade. Stocks are low and ill-assorted, and the demand is only fair. No change was made in the card rate.

The announcement has been made that all the manufacturers of barbed wire of Joliet, Illinois, will shortly remove their factories to Missouri and other western points within the jurisdiction of Judge Treat, whose recent decision in St. Louis declaring the Washburn patents invalid, will protect all manufacturers there from interference and payment of the royalty. This will result in thowing out of employment between 500 and 1,-000 workmen.

It is the opinion of the REPORTER that the "signs of the times" look to the nomination of the old ticket, Tilden and Hendricks-its wonderful how a Republican scares at the mention of this fact.

The resignation of Judge Orvis is generally regretted. He was an honor to the Pennsylvania judiciary and looked upon as the foremost of our legal minds. There are few, if any, his superior in legal ability. He is a most logical speaker and talks with remarkable readiness and ease, and logic flows from his tongue as water from the spring. In our criminal courts Judge Orvis was a terror to evil in this judicial district, for which alone he will deserve the gratitude of every good citizen.

THE STATES FOR 1884.

Twelve states voted in October and Democrats, viz: Ohio, Virginia, Mississippi, Maryland, New Jersey and New York. These states are entitled to 87 Electors. The other six states, viz: Massachusetts, Connecticut, Pennsylvania, Minnesota, Nebraska and Iowa are entitled to 75 electors, voted for the Radicals. But to give the reader a bird's eye view of the party result in 1883, we give the names of all the states, together with the number of electors to which each state is entitled under the new Electoral Col-

It will be observed from the foregoing that the Democrats have a majority of 99 in the Electoral College, but if Dorsey, Brady & Co. would steal Indiana and New York, as they did in 1880, the election would go against us, because that would give our opponents 202 Electors, one more than they would need. However we do not think they will purchase those states again. But President Arthur and the Post Masters and Revenue agents were pooling their interests with Gen. Mahone, to steal Virginia. And they had the scheme well under way but the people on the 6th instant "busted up" the scheme and "the government" must turn its attention to some other

The Middleburg Post has an idea the REPORTER'S rooster should not have been out the week of the election. We had him to crow over a republican majority in this state reduced from the old hone and the gain of a U. S. Senator in Virginia. We had him crow over splendid Victories in New York, New Jersey, Maryland, Mississippi and so on, The Republican rooster, you see, had nothing to crow over, and if he comes out, he's so miserable that the skunks will catch him and eat him.

The appointment of Mr. Hoy as President Judge of this district meets with November thus closing out the elections general approbation. He is a good lawfor 1883. Six of those states voted for the yer, with many years of experience, in all of which time Mr. Hoy has maintainel his integrity and never been guilty of pettyfogging or helping a client in fraud or rascality simply to get a case or fee, which is too often the case with lawyers of the third-rate caliber. He has been an honorable member of his profession, and we believe he will maintain his integrity as a judge. There is one thing in which the people generally express the wish that he may pattern after his predecessor, Judge Orvis, and that is in not being lenient with the rascals.

All the members of the bar, with the exception of two or three, favored Judge Hoy's appointment, a compliment of which he may well feel proud.

"Butler Buried Beyond Redemption," is the demoniscal head-line screech of one of our partially esteemed Republican contemporaries. It is (evident that some people are not acquainted with the wonderful recuperative powers of Ben Butler. Some 25 years ago, as Benjamin was passing along Washington street, in Boston, a large five-story granite front building fell on him. He arose from the debris, wiped his eyes with a silk handkerchief, and remarked to some of the bystanders: "The dust in these streets is perfectly awful; more attention should be paid to sprinkling." PIPERVILLE, Pa., Nov. 16.-Cyrus Piper, better known as "Stonewall" Piper, lived in this place for over eighty years. He was fa-mous the country round for his skill in laying stone wall. Piper had a son twenty years old, and it was his ambition that he should become as expert a wall layer as himself. He trained him to this end, and was so well satisfied with the results of his teachings that he accepted a wager of forty bushels of potatoes, made by a neigh-bor, that John could not lay a rod of stone wall as well nor as quickly as a young man named Joshua Quinn. The trial came off on Monday last on the "new lot" of a farmer named Springer. The man who bet against Piper's son selected Piper himself and Farmer Springer as the judges. Young Piper completed his wall fifteen secends ahead of Quinn. The judges then examined the merit of the work, and united in giving the palm to Quinn. This was a great blow to old man Piper. He brooded over it and talked about nothing else. On Tuesday afternoon he was found hanging from a beam in his barn, dead. A piece of paper was found in a feed box near by. On it, in the old man's handwriting. "John: Go hire out to somebody and tend

Trouble in a Normal College.

NASHVILLE, Tenn., Nov. 14.-Troubles of a very serious nature have sprung up between the management and pupils of the state normal college, and the state board of education has been appealed to to settle the difficulty. A majority of the male members of the junior and senior classes became dissatisfied with Chancellor Stearns' management of the college, declaring that certain studied are taught, and that they are charged too much for the use of books. The students prepared two memorials to the state board of education and asked to have them read be fore that body. They set forth the dissatis-isfaction of the students. The board heard the memorials and requested Dr. Stearns to answer the charges made. Dr. Stearns is at present absent from the city and it is thought he is now in consultation with the board of trustees of the Peabody fund at Baltimore.

## NICE YOUNG MAN.

With a Tendency to Acquire Other People's Property.

Representing Himself as a Medical Student and the Heir to Millions He Easily Finds Victims to Believe in Him.

NEW YORK, Nov. 3 .- Another picture has been added ro the rogue's gallery at the police central office. It represents an elegantly dressed young man named Frank Arborn, who is under arrest on a charge of grand larceny. For five years Arborn has mingled in good society in New Yark and other cities. By a remarkably good address and a wonderful assurance he managed to ingratiate himself into many wealthy families. He has boarded in aristocratic boarding houses, gaining admission by excellent references. He always represented himself as a college student. Five weeks ago he obtained admittance to Miss Helen McNeill's boarding house at 133 Fifth avenue. During spring he had visited a wealthy gentleman who stopped there, and then made a good impression by his pleasing manners. He said that he was studying at the college of Physicians and Surgeons. Not long after his arrival articles of jewelry and wearing apparel disappeared from the rooms of several of the boarders, and several articles of clothing were taken from Miss McNeill's wardrobe. On Thursday afternoon Capt. Williams' attention was called to the losses, and he sent Detective Price to investigate. Detective Price suspected Arborn, but the people in the house scouted the idea. The detective opened Arborn's trunk and found there a silk basque and a cloak belonging to Miss McNeill. In addition there was a bunch of skeleton keys. Arborn was not in the house, and nobody seemed to want him arrested. The detective got his description and watched the front door. At dusk Arborn came along and ran up the steps with a springy gait. Price was not sure of his man, so he approached and said: "Mr. Arborn, there is a gentleman waiting for you on the corner." Arborn asked which corner, and Price arrested him. The last time that Arborn was arrested in this city was in the fall of 1881, for complicity in obtaining goods in the preceding August under false pretences from Francis O'Neill, the shoe dealer of 1170 Broadway;

F. M. & W. Ward, men's furnishing goods,

of 862 Broadway, and Younsan, the New

York hotel hatter. His compartion was Man-son Pell Helmbold, the son of Hanry T. Helm-

bold, the druggist. Arborn made Helmbold a cat's paw. He met him in Long Branch, where Arborn, as usual, was visiting among wealthy people, and induced hims to start on a visit to Arborn's uncle, who, he said, lived on Long Island. Arborn in Long Branch said he had much money, and that he would some day be heir to his uncle's millions. When they reached this city Arborn said that he was short of money. They stop ped at three fashionable boarding houses, at each of which they had goods sent C. O. D. While the messengers were waiting they left the tacked with chills and symptoms of a bad houses. On August 19 Helmbold was arrested in a pawn shop, where Arborn sent him to raise money on the stolen goods. He was held to the grand jury, but the case never came to trial. Arborn, when arrested several months later, was taken to the district attorney's office. / He was not prosecuted, beisolated house, which is strictly guarded, but cause the case against young Helmbold had the greatest excitement prevails in the combened.
