FRED KURTZ, . . . Editor

CENTRE HALL, PA., Nov. 28, 1883.

A Debate on Mormonism. WILBUR, Neb., Nov. 14.-Intense interest is shown in a debate on the modern phases of Mormonism, as discussed here by two able representative men, Rev. Clark Braden, author of "Ingersoll Unmasked," and Bishop Kelly, a Mormon champion. A large number of ministers are present from abroad taking notes. The subject now under discussion is that the book of Mormon is a revelation from God, and entitled to the respect and belief of all religious people. The debate will continue an entire week. Kelly is a forcible, plausible speaker, and carries the audience with him, until Braden, who is a sound logician, shows up the absurd fallacies of his opponent's arguments.

Scientists in Session.

NEW HAVEN, Conn., Nov. 14.-The National Academy of Sciences, incorporated by act of congress in 1863, and which has for its objects the advancement of science, met here, about fifty members being present. Prof. O. C. Marsh, of Yale college, called the meeting to order at 11.30 A. M., and Prof. A. Graham Bell read a paper on the marriage of deaf mutes. The report of the committee on the eclipse of the sun at the Caroline Islands, May 6, was then read.

Fighting a Big Monopoly.

JOLIET, Ill., Nov. 14.-The announcement is made here that all the manufacturers of barbed wire in this city will shortly remove their factories to Missouri and other western points within the jurisdiction of Judge Treat, whose recent decision in St. Louis, declaring the Washburn patents invalid, protects all the manufacturers there from interference and the payment of a royalty. This will result in throwing out between 500 and 1,000 workmen.

The election for the rectorship or tue Glasgow University resulted as follows:-Postmaster General Fawcett 797, Marquis of Bute 670, John Ruskin 391,

Gov. Ludlow has ordered a special election for Dec. 18 in the second assembly district of Bergen county, N. J., to fill the vacancy caused by the death of Assemblyman elect

Saturday, November 17. There were 235 business failures in the

United States this week against 215 last John Smith, colored, was hung at Oakland, Md., for the murder of Josiah Harden, also

colored, on the 15th of last May. Garth Wilkinson James, a brother of Henry James, Jr., the novelist, died from Bright's disease at Milwaukee, aged 38 years.

Michael Hanson died in Lewiston, Me., aged 107 years. He was a native of Ireland and had been there over fifty years. At the session of the Garlington court of

inquiry the time was occupied in discussing the supplemental orders. Jay Gould arrived in Chicago yesterday

with R. S. Hays, A. L. Hopkins, and H. M. Hodge, over the Wabash system. The Madison, Wis., building commission

has decided to suspend work on the capitol and make a complete change in the architects The works of the Chicago rolling mill company were shut down last evening owing to

blood pure, and thy stomach from indigestion by using Hop Bitters. 13. All my pains and aches and disease go like

chaff before the wind when I use Hop Bitters. 14. Mark the man who was nearly dead and given up by the doctors after using Hop Bitters

15. Cease from worrying about nervousness, general debility, and uninary trouble, for Hop gitters will restore you.

and becometh well.

How Watch Cases are Made.

Most persons have an ambition to carry a gold watch case, and yet few people know how a watch case is made, or the vast difference in the quality of them. In a Solid GOLD WATCH CASE, aside from the necessary thickness for engraving and polishing, a large proportion of the metal is needed only to stiffen and hold the engraved portions in place, and supply strength. The surplus is not only needless, but undesirable, because gold is a soft metal and cannot furnish the stiffness, strength and elasticity necessary to make the case permanently strong and close-fitting. The perfect watch case must combine gold with some metal that will supply that in which the gold is deficient. This has been accomplished by the James Boss' Gold Watch Case which saves the WASTE of needless gold, and INCREASES the SOLIDITY and STRENGTH of the case, and at the same time reduces the cost ONE HALF.

Bend B cent stamp to Keystone Watch Cass Factories, Philadelphia, Pa., for handsome lilustrated Pamphlet showing bow James Boss' and Kaystone Watch Cases are made.

(To be continued.)

THE PATENT OFFICE.

Hon. Ben Butterworth gives some

Information in Regard to It. WASHINGTON, Nov. 17 .- Hon. Ben Butterworth, the new commissioner of patents, is quietly learning the duties and making himself familiar with the regulations of his office. He says that he does not contemplate any changes in the regulations of the patent office except such as time and experience may suggest as being needful. In response to a question as to whether or not he thought it possible for unscrupulous patent attorneys to commit frauds similar to those alleged to have occurred in the cases of certain pension attor-neys, Mr. Butterworth expressed the opinion that it was possible that attorneys, practicing before the office, could take advantage of their clients in some such way as that said to have taken place in peusion cases; there is no evidence that any such frauds are being perpetrated. Complaints sometimes come from clients respecting their attorneys, and now and then a revocation of the powers of attorney is asked because of a belief that the attorney in the case is not dealing honestly with his client. In such cases the commissioner will accede to the request of the client, but will not use his complaint in any way to affect the professional standing of the attorney, because it would be manifestly unfair to do otherwise until the attorney could be given a hearing and all the testimony in the case heard. The commissioner, a day or two ago received an anonymous letter making complaint that drawings submitted in a case were frequently rejected, and charging that the examiner, who thus rejected the drawings did so that he might obtain the fee prescribed for furnishing the proper drawings. This idea, the commissioner says, is erroneous The examiner never gets such a fee. Whenever new drawings are deemed necessary and ordered by the examiner the fee assessed upon the inventor goes into the public treasury to the credit of the patent office.

O'DONNELL'S TRIAL.

His American Citizenship Proved-Gen. Pryor's Defense.

LONDON, Nov. 15 .- Justice George Denman, of the court of Queen's bench, will probably preside at the trial of O'Donnell for the murder of Carey. The preparations for O'Donnell's defense are well advanced. Mr. Roger A. Pryor had a long and satisfactory interview with the prisoner yesterday, the first that he has obtained since his arrival in London. Mr. McInerney, of O'Donnell's counsel, has i brought from Ireland a mass of evidence, and he feels confident that the verdict of the jury in O'Donnell's case will not be that of willful murder. The witnesses from the Cape of Good Hope are expected to arrive in England on Sat urday next, Mr. William J. Hoppin, secretary of the American legation, in the absence of Minister Lowell, has visited O'Donnell and formally ascertained the fact of his American citizenship. The prison rules have partments equally as cheap. Some spe-heretofore prevented Mr. Pryor from seeing cial bargains in glass and queensware. O'Donnell without the permission of the home department. Mr. Guy, solicitor for O'Donnell, recently wrote to Sir William Harcourt, home secretary, asking permission for Mr. Pryor to visit his client. Sir William Harcourt replied that Mr. Pryor must make a personal application, in which he must state the grounds for his request. Mr. Pryor accordingly made the required application, stating as the sole ground therefor that he, being of the counsel for the prisoner, deemed it expedient for the defense that be hould see him. The home department thereupon granted the request. Mr. Pryor was afforded every facility by the officials at Newgate prison for the interview with the prisoner, which lasted two and a half hours.

CARTER HARRISON ENRAGED.

A Wordy Encounter in the Chicago

Common Council. CHICAGO, Nov. 14 .- During a late session f the common council the charge was made by various aldermen that the mayor and omptroller had made no attempt to collect the \$10,000 which had been assessed against the Exposition company for its occupancy of the lake front. Several of the speakers inti-mated that Mayor Harrison had been a party to various discreditable measures contrary to the best interests of the city. The mayor, who was in the chair, finally said: "Enough of these attacks upon the comptroller and myself. It is well known that I have tried to collect this money and could not. I told Alderman Colvin so." "You did not," replied Alderman Colvin, emphatically. "I did, and you know it," rejoined the mayor, "You are only trying to get your hands into their pockets," he said to Alderman Colvin, in conclusion. "Yours have been there already," replied Alderman Colvin. The mayor made no direct reply to this assault, but went on to declare that the failure to collect the fund in question was owing directly to the inaction of the council.

The Dwight Insurance Case.

NORWICH, N. Y., Nov. 14.-The case of Annie Dwight, executrix of the late Col. Dalton Dwight, against the Germania Insurance company, was again on trial bere. In 1873 Col. Dwight, an ex-mayor of Binghampton, took out life insurance policies in seventeen different companies, the total of his insurance being \$300,000. A very short time after this he died, and the companies demanded an autopsy. They sent a lot of medical experts to assist at the examination of the body, all of whom agreed that he died of gastric fever. Four months later the companies had the body exhumed and another examination made. Two of the companies were then satisfied that there was no crookedness and paid their policies. The remaining fifteen went into a pool and are now contesting the case in the name of the Germania company. It cannot be learned what the defense will be, but it is rumored that they will allege suicide, while some say that proofs of murder will be produced. It is thought that a decision will be reached this

Thirty Men Injured.

SYRACUSE, N. Y., Nov. 14.—A special to The Evening Herald from Clyde says that as the West Shore worktrain was on its way to Savannab, three of the box cars, loaded with workmen, were thrown from the track when two miles out of Clyde and hurled down an embankment of thirty feet. The cars were badly wrecked and about thirty of the men were injured by having limbs broken or skulls fractured. One man was thrown under the train and terribly mutilated. He cannot live. The wounded were taken to Savannah to be cared for The accident was caused by a defective journal. A Savannah dispatch says the injured are John Barrian, John Lawler, Thomas Burns, Edward Brennan, Michael Callegan "Hut" Rogers, Peter Furril and James Fardo, No bones are broken and all will probably recover. There were none killed.

Hogs Abroad.

LONDON, Nov. 17 .- Inquiries have been made from America as to whether it was true as reported in trade circles there that the French government had removel the embargo against American hog products Neither the local papers nor the news agencies can find any ground for the statement that this has been done, and inquiries directed to Paris fail to confirm it.
