CENTRE HALL, PA., Dec. 5, 1883

Slugging in Leadvine. LEADVILLE, Col., Nov. 22.—Billy Haley, the middle weight champion of this state, and Tom Walling fought a prize fight in the old Carbonate theatre before 1,200 spectators. Healy was apparently in better trim than his opponent, and was the favorite at fifty to forty before a blow had been struck. Walling rushed the work and soon showed that he outclassed Haley, who is a member of the fire department. The first round lasted four minutes and thirty seconds. The second was a "hot one." Haley tried to rush Walling, but the latter was cool and skilful and again showed that "there was only one The betting was now 100 to 50 on Walling. During the fourth round Haley fell without a blow and Walling's second claimed a foul, and the referee allowed it and gave the fight to Walling.

A Rival to Keely's Motor.

CLEVELAND, O., Nov. 22 .- A. Lee Webster followed Keely's (of motor fame) example, and has been gathering the uninitiated in on a motor scheme by which he was to decompose water, generate hydrogen, and thus get his fuel and steam for machinery for practically nothing. He collected money from some believers in his insane project, and engaged Frosham hall for evenings to lecture in and show the workings of the motor. But the law headed him off, and last night about 6 o'clock he was arrested on complaint of his relatives and lodged in jail as a lunatic. He has been working on the motor for the last ten years, and had a similar experience

The New Surgeon General. WASHINGTON, Nov. 24.-All the members of the cabinet were present at the meeting, and the session was prolonged until nearly 4 o'clock by the discussion of matters incorporated in the president's message. A deciston was also reached in the matter of a surgeon general of the army. The president stated that after due consideration of the subject he had selected Col. Robert Murray to fill the vacancy. This is in the direct line of civil service reform, as Col. Murray was entitled by seniority to the position. He was appointed lieutenant and assistant surgeon in the army June 29, 1846; promoted to be captain and assistant surgeon June 28, 1851; major and surgeon June 23, 1860; Heutenant colonel and assistant military purveyor July 28, 1866, and colonel and surgeon

Later News About Hicks.

CAIRO, Nov. 24.-Eight German officers were among the commanders of the Egyptian troops under Hicks Pasha, and doubtless perished in the massacre of El Obeid. The statement is confirmed that the Egyptians were successful in the first attack, and that Gen. Hicks, believing El Mahdi's forces routed, accepted the services of a guide and was treacherously led into a defile where he was fallen upon by the ambushed rebels and his army cut to pieces. The artist, Power. and Major Casttogan are believed to be the only Englishmen alive in the Soudan. There is no doubt that O'Donovan, the celebrated war correspondent of The News, is dead.

Adulterating Drugs.

Boston, Mass., Nov. 24.—In the municipal court Rust Bros. & Bird, wholesale druggists, No. 43 Hanover street, were charged with selling adulterated drugs. The charge was made by the state board of health, lunacy and charity, through its counsel. It is understood that this is only the first of a series of prosecutions of a similar character to be entered upon by the board under a statute of 1882, which covers adulteration of drugs and articles of food, and directs the board to pursue investigation for the discovery, punishment and prevention of such adulterations.

-If France and China go to war what will we do for tea, was the question up at the late sewing circle. The question got a settler by an old maid screaming out, We will all go to Sechlers, of

Cheapest store in town-Garmans. 3 SWEPT INTO THE STREM.

One Thousand Acres of Land and "Right Smart of Bears."

On the deck of a big Mississippi steamboat stood an aged Southern planter. Indicating by a sweep of his arms the waters the boat was passing over, he said to a passenger from the North: "When I was 12 years old I killed my first bear on a new plantation, my father was then cutting out of a forest that grew directly over the waters of this bend. That was a mighty good plantation, and there were right smart bears there, too. But that one thousand acres of land went into the Missis-

It is putting no strain upon the figure to say that great forests of youthful hope, womanly beauty and manly strength are swept in the same way every year into the great, turbid torrent of disease and death. Yet it should not be so. That it is so is a disgrace as well as a loss. People are largely too careless or too stupid to defend their own interests—the most precious of which is health. That gone, all is gone. Disease is simple but to recklessness or ignorance the simplest thing might as well be complexed as a proposition in Conic Sections. As the huge western rivers, which so often flood the cities along their shores, arise in a few mountain springs, so all our allments can be traced to impure blood and a small group of disordered organs.

The most effective and inclusive remedy for disease is PARKER'S TONIC. It goes to the source of pain and weakness. In response to its action, the liver, kidneys, stomach and heart begin their work afresh, and disease is driven out. The Tonic is not, however, an intoxicant, but cures a desire for strong drink. Have you dyspepsia, rheumatism, or troubles which have refused to yield to other agents? Here is your help. ease and death. Yet it should not be so. That it

(Continued from last week.) How Watch Cases are Made.

This process of manufacture was invented by James Boss, who started in business in 1854, and the methods and tools used in making these watch cases are covered by patents. This is the only watch case made under this process. For many years the introduction of these goods was slow, owing to popular prejudice against "plated" goods, but gradually the public learned that the James Boss' Gold Watch Case was not a cheap gold-washed or electro-plated article, but was made of genuine gold plates of standard quality and thickness. Conscientious adherence to the determination to make the best watch case ever put on the market, and the adoption of every improvement suggested, has made the James Boss' Gold Watch Case the STANDARD. In this watch case the parts most subject to wear-the bow, crown, hinges, thumb-catchee, etc., are made of SOLID GOLD.

Bend S cent stamp to Keystone Watch Case Factories, Philadelphia, Pa., for handsome Illustrated Pamphiet showing how James Hous' and Keystone Watch Cases are made.

(To be continued.)

ARTHUR & LINCOLN.

Will That Be the Republican Ticket in 1884?

New York Politicians in Washington Talking as if the Ticket was Already Nominated.

WASHINGTON, Nov. 24.-The New York World's correspondent says: "The White House is becoming the republican Mecca. Distinguished republicans are daily making calls on the president. The Pennsylvania republicans were there to say that he could have the delegation from that state if he wanted it. Yesterday New York was represented at the white house by A. S. Draper, Harold Frederic, the editor of The Albany Evening Journal, and George Campbell. These gentlemen intend to remain here two or three days for the purpose of arranging a programme for work in New York. Mr. Draper brought to Mr. Arthur the assurance that the moneyed men of New York were satisfied with his administration and would back him handsomely next year. The delegation assured the president that the harmony plan was working happily. The president was in a very happy He was willing to be a candidate by so doing he could contribute to harmony and republicun success. He would not be a eandidate if by so doing his act should reawaken the old factional difficulties in the party. If any of the leaders should come out strongly against him he would promptly withdraw. It was suggested that his candidacy had already done much to restore har-mony; that nearly all of the other candidates were flaling into the background since the president was understood to desire a renomination. Senator Logan especially had signified his intention of withdrawing in case the president comes up as a strong candidate, as he is more anxious to secure his reelection to the senate than he is to take a gambling chance in the national convention. was hinted in the interview that the president might help the situation by certain changes in the Federal offices, but Mr. Arthur said nothing to encourage this view. He thought nothing would be weaker than to openly make bids for support with offers of patronage. He is not even inclined to make any changes in the cabinet, notwithstanding the pressure that has been brought to bear upon him. He has made the discovery that the weakest candidate is the man who works the hardest for the place. He proposes to pursue a consistent policy. He has won what confidence he has by pursuing a conservative course. The New York people are very much pleased with their talk with the president He has actually made them believe he can they will go home and work very hard to secure delegates. The republicans who come and see Arthur talk about the ticket of Arthur and Lincoln as if it was already a fixed

Settling with Their Creditors. CHICAGO, Nov. 22.-Cleveland, Cumming & Woodruff, the suspended dry goods firm, are settling with their creditors at the rate of sixty cents on the dollar, having been advised to do se by some of the non-resident creditors. The meeting of creditors for November 23 has therefore been abandoned, The liabilities are a little over \$600,000 and the assets consists of \$400,000 in cash, the amount received for the stock. There are about 400 creditors, the majority being in New York. About \$280,000 of the claims have already been settled on the sixty cent basis, among the creditors who have thus settled being Claffin & Co., of New York for \$100,000, and the Union National bank, of Chicago, for \$107,000.

Remembering Dead Insurance Companies.

New Haven, Ct., Nov. 24.—A committee, appointed by the superior court in 1878, to report upon the claims of the policy holders of the American Mutual Life Insurance company, and the National Life Insurance company, has submitted a volumnious report. They report claims against the American Mutual company, aggragating \$532,576.21, and about \$30,000 against the National company. The report was not formally accepted, Talcott H. Russell, the receiver, asked thirty days in which to file remonstrances if necessary, which Judge Beardsley granted, also an order to sell at his convenience the insurance building, valued at \$300,000.

England and Egypt.

LONDON, Nov. 24 .- The Times, discussing Hicks Pasha's defeats, says: "We cannot believe that Mr. Gladstone will wilfully and blindly persist in weakening the small Brit-Ish force now in Egypt. The broad highway of the Nile Valley is now open to the vic-torious fanatics. What is there to prevent the garrisons and the populations at the advanced posts from yielding to the tempta-tions of El Mahdi? Mr. Gladstone and his colleagues must understand that England will hold them answerable, if, by further errors of judgment, Egypt is allowed to re lapse into anarchy, aggravated by the religious fanaticism and the maddening influence of invasion by the barbarism of the interior of Africa.

"Unser Fritz" in Spain. MADRID, Nov. 24.-The Crown Prince Frederick William, of Prussia, has arrived here. King Alfonso, wearing the uniform of a Uhlan colonel, met him at the railway station. A large number of German resi dents also met the Crown Prince at the station and enthusiastically cheered him, but the Spanish populace were cold and silent. The weather was all that could be desired Houses were generally decorated and troops lined the streets. The Crown Prince received numerous Germans at the German legation. A reception and banquet will all also be given at the legation on some evening next week, which the king and queen of Spain have accepted invitations to

No Americans Wanted. OTTAWA, Can., Nov. 24.-All members of the Canadian civil service have been called upon to take the oath of allegiance, the attention of the government having been drawn to the fact that several members had recorded their nationality as of the United States, while in other cases there is reason to believe that an element hostile to British interests is being introduced in some recent ap-

A Successful Burglar Captured. Utica, N. Y., Nov. 24. - Officer Haley and Latham arrested a man giving the name of Louischelle. In his trunk were found the property stolen last week from residences in Utica, as well the articles stolen November 10th from the house of a Syracuse policeman The man is believed to be the leader of a gang that has been operating very success fully in central New York for some time.

Arbitration Likely to Fall. l'ITTSBURG, Pa., Nov. 24.—The arbitration board of coal operators and miners of the fourth pool appointed to settle the wage dispute met for the purpose of selecting an umpire, but adjourned without arriving at any conclusion. The efforts of the board will probably be in vain.
