Get your tombstones, monuments, etc., at Stover's Bellefonte Marble Works, if you want the handsomest work in that line in the state, and cheaper than elsewhere in this county. Bank, Reading. We have received from Henry Meyer, a former typo in this office, a good sized chunk of rich silver ore sent by mail from Leadville, Col., where Mr. Meyer now is. Wish we had a couple tons of such stuff. You can't cure your rheumatism by "rubbing it in" with liniments. Try Smith's German Oil and drive it out of the system.

Look out for the great holiday attractions at the Bee Hive.

Jonathan Kreamer, of Millheim, died in his home on last Friday morning, 7 Mr. Kreamer had been suffering for some two years from a dropical affection, which confined him to the house for the last six months. He was widely known as one of Millheim's landlors—the founder of the National hotel. He was of a sociable disposition, kind-hearted, clever and accommodating. He was born in Penn township and lived there all his life-time. His age was about 62 years.

Mr. E. H. Kreamer, of Penn, landed 170 fine sheep, big, little and mixed, here on last Friday. He bought them up in Indiana county for retailing in our valley, the same crop being a little scant here.

At Huntingdon, on night of 4 instant, J. H. Van Houten, an agent of Simonon Steise, was waylaid and robbed of \$30 at 11 o'clock at night by two highwaymen at the corner of Fifth and Allegheny streets. Mr. Van Houten had just returned from Clearfield county on a collecting tour and it is supposed the parties who attacked him were aware of the money in his possession. One of the ruffians caught him by the throat and the other beat him severely on the head with a bit until he was rendered unconscious, when the ruffians relieved him of his money and fled.

A great many people feel themselves gradually failing. They don't know just what is the matter but they suffer from a combination of indigestible acids and pain, which each month seem to grow worse. The only sure remedy known that will contract the receding and restore perfect health is Brown's Iron Bitters. By rapid assimilation it purifies the blood, drives out disease, gives health and strength to every portion reached by the circulatory system, renews wasted tissues and restores robust health and strength.

GOOD FARMING LAND. A Rocky Hill Site Converted into Ten Acres of Rich Farming Land. GUILFORD, Ind., Nov. 30.—R. M. Robinson came to town to buy a boiler and engine, with which to run a small grist mill on the Miami. Mr. Robinson tells a queer story of the loss of the water power, by which the mill was originally operated. The mill site consisted of ten acres of stony land, wholly unproductive and of no value except as a site for a mill, the power being obtained from a large dam which was ten feet high. The entire valley for miles, with the exception of these ten barren acres, is a garden spot. The soil is as rich as any in the Miami bottoms.

"The recent rains," said Mr. Robinson, "did great damage throughout Indiana. After the flood receded we found that our mill dam was filled level full of rich soil washed away from the farms above. This is the first time I ever heard of any one catching a farm in a flood, but we have caught one sure. It is small, but no smaller than many others in the valley that are making their owners rich. Our 'stony batters' before the high water was not worth over \$150. Our new ten acres are just as valuable for truck farming as some lands that have been sold here recently for \$400 an acre. Mr. Robinson believes his acquisition is a permanent one. Such a freshet may not occur again in that steam in a hundred years, and if it should be repeated he believes his ten acres will, on account of their location, gather much more soil than they will lose.

RAILWAY DIPLOMACY. The Rock Island Road Steals a March on the Northwestern.

CHICAGO, Nov. 30.—There are prospects of lively times among the northwestern railway lines before long. Some years ago, in advance of the settlement of the country, the Chicago and Northwestern and the Chicago, Milwaukee and St. Paul companies built into Southern Dakota. The Northwestern has reached Ordway and the St. Paul is not many miles away. For the last two years these companies have done little in the way of construction, concluding to wait until the country filled up a little. Since the construction of the roads immigrants have found that neither one of the lines runs through the best and richest country of Southern Dakota, and as a consequence many of the settlements are far away from these lines. H. H. Porter, whose success in settling the Omaha road on the Chicago and Northwestern was recalled, is now busily at work on another big scheme, assisted, it is said, by R. R. Cable and other heavy stockholders in the Chicago, Rock Island and Pacific road. This syndicate has already secured the right of way for a railroad from Ordway to Bismarck, Dak., running northwest through a very fertile country, and paralleling the Northern Pacific for a ways, and is making arrangements as speedily as possible for beginning the construction of the line. Besides this it is authoritatively stated here that the Rock Island road is preparing to extend its line from Worthington, Minn., due west between the western extensions of the Northwestern and St. Paul roads to Ordway, thus cutting the line of the Northern Pacific for a ways, and is making arrangements as speedily as possible for beginning the construction of the line. A Fatal Christmas. NEW YORK, Nov. 30.—William Frazer, who was shot last Sunday night at a christening in Paterson, N. J., by John Walker, died at the Ladies' hospital. Before his death he saw his wife, child and mother. The thought that his mother would have no one to care for her embittered his last moments.

The first intimation that Walker had been shot was given to the police by a woman who was present at the christening. She was afterward seen making a minute examination of the entrance to the jail and its fastenings; and on this account and because he is considered a desperate character he is kept locked in a cell most of the time. Although he is not yet twenty years of age, he has been in a good deal of difficulty since his arrival in this country last April, and the police have information that he was compelled to leave Ireland because of several charges against him of atrocious assault and battery.

Walker participated in the Orangemen's parade in Paterson on July 12 last, although not an Orangeman himself, and it is the riot which broke up the parade he struck Policeman McDonald on the hand with a sword. For this he was arrested, but the grand jury did not indict any of the participants in the riot.

An Epidemic Among Dogs. WATERBURY, Ct., Dec. 1.—An epidemic has broken out among the dogs here. Attention was first called to the fact about two weeks ago, since which time over fifty canines, from the pet poodle to the valuable pointer, have fallen victims to the disease, and the number is increasing. It is the milder variety which confines itself to dogs it will be allowed to fall scope, but veterinary men fear it may prove contagious among horses. Only one dog that has been attacked with the disease has gone through the course of fever which follows the calarrh, coming out safe, and this one is so wasted that it is far from being a model dog.

The Ohio Senatorship. CINCINNATI, Dec. 1.—A careful estimate of the strength of the several candidates for the United States senate from Ohio telegraphed here from Columbus makes the following showing: Pendleton, 38; Payne, 30; Ward, 3; Converse, 4; Geddes, 1; Semy, 1; Morgan, 1; doubtful Pendleton, 4; doubtful Payne, 3; doubtful S.; total, 83. Necessary to a choice, 12. The name of each member of the house and senate is given with their preferences, and it is believed that the above recapitulation comes very near showing the exact strength of the different candidates at this time. The showing is highly gratifying to the friends of Senator Pendleton.

Honorably Discharged. NEW YORK, Dec. 1.—Thomas W. Guoz, who was arrested last week by Inspector Byrnes, on suspicion of being implicated with William B. Carroll, the dishonest sponser clerk of the comptroller's office, was examined before Recorder Smyth in the court of general sessions. After a number of witnesses had testified, Recorder Smyth said that there was not sufficient evidence to indict Guoz, and he was accordingly discharged.

They are All at Peace. FORT GIBSON, D. T., Dec. 8.—Perryman, the newly elected chief of the Creek Nation, was peacefully inaugurated. This settles the trouble among the Creeks which caused the calling out of troops last summer, the appointment of a governmental police commission and the ordering of a special election. Inauguration and Choctaw, who were rival candidates with Perryman for the chiefship, have been chosen as delegates to Washington, and the danger of a civil war is averted.

CONDENSED NEWS. Monday, December 3. Thomas Camp, owner of one of the largest agricultural works in the south, at Covington, Georgia, closed out his business yesterday. A weight of unavailability resources caused the trouble. It is suggested by those familiar with the relations between the Egyptians and their commanders that the soldiers in the late battle may have murdered the European officers, including Gen. Hicks, and deserted to El Mahdi. Alexander Wolf, aged fifteen, of Bellefonte, Ohio, was found dead on the railroad track his body horribly mutilated. He had been at a dance in the village during the night. He had charge of the ferry, and usually carried money, and his father thinks that he was murdered and his body placed on the track to elude suspicion.

During the month of November the various mints coined 9,588,500 pieces of silver representing an aggregate value of \$5,824,910. Thomas Saxon, arrested for the triple murder in Laconia, N. H., has made a full confession of the terrible crime. There is great excitement and threats of lynching. Dayton, Ky., is excited over the mysterious disappearance of its mayor, who is said to be considerably in debt. Gen. Slocum intends soon to introduce a bill in congress to extend national aid and encouragement to state militia organizations. Hon. Frederick Billings has increased in gift for the new library building of the University of Vermont from \$75,000 to \$100,000. John R. Buchtel has presented to the school college, making it all nearly half a million dollars which he has presented to this institution.

The suit of Robert McNeill for \$10,000 damages against the Standard Oil company resulted in a verdict in his favor. Judge Kelly, of Pennsylvania, has introduced a bill in congress which proposes practically to suspend the coinage of the silver dollar.

The Salt Lake News says that the president's remarks about polygamy in his message "are a sop to bigots and breathe to the fling of popular passion." In a speech delivered at a banquet in Boston Gen. Butler mysteriously hinted that he might be a candidate for president in 1894 and that he could carry Massachusetts.

The decision is a great disappointment to the defendant's counsel. It is now thought that Speaker Carlisle will be able to announce the standing committee of the house by next Monday week, the 17th.

Mr. John MacDonald, president of the association, responded, and the organization of the convention was proceeded with. There are over 400 delegates in attendance, representing twenty two states and territories. BUCHANAN'S LOYALTY. Joseph Holt, Postmaster-General and afterwards Secy of War under Pres't Buchanan, has written a four-column letter to the "National Republican" in reply to certain statements recently made in an interview by Jacob Thompson, who was a member of President Buchanan's Cabinet. The letter deals with questions of personal rather than of public interest, and is a reply to what Mr. Holt calls "currucious charges affecting his reputation." It closes with the following defence of the loyalty of President Buchanan: "I cannot close this communication without bearing emphatic testimony to the loyalty of President Buchanan throughout the troubled and trying scenes which marked the last months of his administration." With measureless responsibility pressing him; badgered by traitors and by the department of the Government which owed him sympathy and a loyal support, and standing as he did on the brink of a great national calamity, the imminence of which was awing all hearts, he was often cast down, but never unfaithful to his duties. And if the binding force of party strife was constantly misused to do him wrong and to represent him as an aggressive man, he at all times given to violent forms of speech or action. He shrank from the contemplation of civil war and the bloodshed it would involve and sought to stop it at the last possible moment, but in all this there was no tint of dissimulation. While, however, uniformly gentle and suave in his modes, he was not the less firm in view of the ends to be finally attained. And yet it was this very usefulness and suavity—the result in part, perhaps, of his peculiar temperament, but yet more, it may be, of the training inseparable from his diplomatic career—which often misled men who could not reflect that iron hands are sometimes found in silk gloves.
