DENN'S VALLEY BANKING CO., In a communication to the congress at its last session I recommended that all excise matters be abolished, except those relating to distilled spirits, and that substantial reductions be also made in the revenues from cuscurities; Gold and Coupors, toms. A statute has since been enacted by which the annual tax and tariff receipts of Ca ver the government have been cut down to the extent of at least from \$50,000,000 to \$60,-

While I have no doubt that further reductions may be wisely made I do not advise the adoption at this session of any measures for large diminution of the national revenues. The results of the legislation of the last session of the congress have not as yet become Buy and Sell Gov-ernment Securities; Gold and Coup vision or sweeping modifications of existing

surplus revenues shall be diminished. The probable effect of such an extensive retirement of the securities which are the basis of the national bank circulation would be such a contraction of the volume of the currency as to produce grave commercial sinbarrassments. How can this danger be obviated? The most effectual plan and one whose adoption at the earliest possible op-portunity I shall heartily approve has already been indicated.

If the revenues of the next four years shall be kept substantially commensurate with the expenses the volume of circulation will not be likely to suffer any additional disturb-

But if on the other hand, there shall be great delay in reducing taxation it will beome necessary either to substitute some oiher form of currency in place of the national bank notes or to make important changes in the laws by which their circulation is now controlled. In my judgment the latter course is far preferable. I commend to your attention the very interesting and thoughtfal suggestions upon this subject which appear in the secretary's report. The objections which he urges against the acceptance of any other securities than the obligations of the government itself as a foundation for national bank circulation seem to me insuperable.

For averting the threatened contraction two courses have been suggested, either of which is probably feasible. One is the issuance of new bonds, having many years to run, bearing a low rate of interest and exchangeable upon specified terms for those now outstanding. The other couse, which for the equal enjoyment by all the citizens of the United States of every right product. commends itself to my own judgment as the better, is the enactment of a law repealing velopment. The message closes with the following allusion and suggestion respecting the civil rights of the colored race: "The fourteenth amendment of the constitution confers the ried an assortment, they rights of citizenship upon all persons born or naturalized in the United States and subject to the jurisdiction thereof. It was the Christmas present. Silspecial purpose of this amendment to insure members of the colored race the full njoyment of civil and political rights."

Certain statutory provisions intended to secure the enforcement of those rights have the supreme court.
