Tariff means tax, and the latter is the term that should be used, then every body would understand it.

A high protective tariff means simply a high tax on any thing brought in from a foreign country and this high tax the consumers in this country must pay.

FROM JUNIATA COUNTY.

I will first speak of farming, as it is the principal industry of this community.
The farmers here are a very industrious class of people and were favored with a tolerable good summer crop and a very good wheat crop which they are now threshing and hauling to market. They thresh principally by steam as they do in your county. I saw a steamer here owned by Geo. Bryner called the "Invin-The flood at Pittsburg, last week, was Co., of Tree Rivers, Mich., and I can

This stream with its tributaries drains the western part of this county and empties into the Juniata river. I visited the Tuscacora this morning and found the stream very high. The ice is gorged at Pumroy's dam, and the stream is full of broken ice for about one and one-half miles and should there be a heavy rain to raise the water high enough to start this immense body of ice it will no doubt prove very destructive to county property in the form of bridges. With this I will close for this time. Hoping I have not asked too much space in your paper,

I remain very respectfully yours, W. L. SNYDER. Pleasant View, Juniata Co., Pa., Feb. 7.

Sabbath morning the clouds had broken and the gloom of the preceeding week began to disappear. By two o'clock, the hour appointed for divine service, the audience chamber of the new church was filled to its utmost capacity. The choir sang an appropriate anthem, after which the liturgical service was read by the pastor and the new church, under the name and title of the "St. John's Lutheran Church of Millheim," was dedicated to the worship of the Triune God. After the dedication Dr. F. Conrad, of Philadelphia, preached the dedicatory sermon. His theme was "The church through her ministry promulgates the law of man's highest welfare." The Doctor emphasised in his introductions, utility, adaptation and taste. He gave the Church of Christ prominence; her ministers and laymen embers. He drew attention to the manner of publishing the divine law, viz: in the sphere of the family civilization and moral reform, and then offered some pertinent, practical reflections. The Doctor then stated the indebtedness of the congregation \$1,200, and appealed to the audience to aid in its iquidation and soon the amount of \$1,337 was raised in cash and subscription. The response was free and liberal. At 3 p. m. a children's meeting was held. There was a full attendance and adfresses were delivered by Revs. Conrad and W. Shoch. The afternoon was spent very profitably. All felt to say with the Psalmist : How amiable are Thy tabernacles, O Lord of hosts.

At 7 p. m. there was another service. The Docor again preached to a large and attentive audience. The subject was, "Luther and the Reformers as Confessors of the Truth." Great stress was laid on Luther and the Reformers, the confession and the confessors, Luther and the Lutheran church; her doctrinal system and liturgical service were highly commended. The Doctor gives no uncertain sound. This dedication was a feast of fat things for the Lutherans in Millheim and vicinity; they feel that St. John's Lutheran church is an actuality. They rejoice in the asurance that the Lord hath done great things whereof they are glad. The committee performed heir partwell. The choir discoursed excellent music, Mr. Kursenknabe, of Harrisburg, presided at the organ, In conclusion the long meter doxology was sung and the benediction pronounced by Dr. Conrad.

February 10, 1884 will ever be a green spot in the memory of the members of St. John's church.
