THE LATE MR. MACKEY,

A Romantic Story Connected With "Mis Marriage.

PHILADELPHIA, Jan. 30,-There is a remantic story connected with the courtship and marriage to his octoroon wife of Congressman Mackey, of Bouth Carolina. Mrs. Mackey's father was a white man-one of the celebrated Sumpter family of South Carolina—and her mother a quadroon, was Cecelia Preston, a sister of William Preston, turnkey at the Ninsteenth District police station in this city. Congressman Mack-ey first met his future wife, Vickey Sumpter, when she was a girl of twelve years, and he a man of twenty three. At that time she was a child of great beauty, but without any education. Mr. Mackey fell in love with her at first sight and determined to make her his wife. He gained her mothr's consent and sent the girl to Oberlin college, Ohio, to be educated at his expense, that she might be fitted to become his wife. She passed nearly five years at Oberlin, diligently pursuing her studies and corresponding with Mr. Mackey, but never seeing him until the day before she was to be graduated. Her vacation had been spent in Philadelphia with her uncle, William Preston, with whom her mother and younger sister resided. In the spring of 1874, when she was to be graduated, Mr. Mackey came on from Charleston and took Miss Sumpter's mother on to Oberlin to witness the commencement exercises and to bring Miss Vickey home. When Mr. Mackey met her there after the five years separation she had grown, if possible, more beautiful. She was highly accomplished, and received her diploma with hon-ors, after which Mr. Mackey, the young lady and her mother came to this city and stopped at the Continental hotel. That evening Bishop Simpson was sent for and the young couple were married in the par-lor. The only witnesses to the ceremony were 'the bride's mother, her young sister Rosalie, and William Preston, her uncle. Mrs. Mackey has four children, who, like herself, are blondes. Two of the sons of the late congressman are students at Maplewood institute, Concordville, Pennsylvania.

FAILING FOR A MILLION.

An Extensive Canadian Lumber Com-

pany Goes by the Board, Tononto, Jan. 30.-For some time past rumor has been busy with the affairs of the British Canadian Lumber and Timber company, which has made an assigment. The company had a capital of \$1,000,000, mostly Scottish money, when formed some years ago, and bought extensive limits and mills from George J. and W. H. Cooke. It is understood that the Messra Cooke made a good thing out of the sale. George J. Cooke is president of the company and J. S. Lockitt, formerly manager of the Bank of Commerce, is its financial manager. The banks mainly interested are the Toronto, Quebec and Commerce. The liabilities foot up close on to \$1,000,000, perhaps half of which is secured. The Commerce bank is the largest creditor. It is now alleged that the rosy statements as to the value of the limits have not been realized, and that not only will the shareholders loss all the money they put in, but the ordinary credi-\$50,000 and the Scotchmen the same amount, Celebrated Shoes for Ladies and but this arrangement appears to have been abandoned.

Gen. Grant's Mexican Enterprise. CHICAGO, Jan. 31,-The Chica o capitalists, who are a leading factor in the Mexican Central railroad, properly known as Gen. Grant's line, have begun to agitate the subject of the formal opening to the great strenational line. A. S. Large forces are working on the line from each end, and the terminal points are now Jimfuez and Jimulco. The territory to be covered is generally smooth, and the work can be done very fast. The greatest effort will be in bridging the Santingo Flyer, four 100 feet spans being cessary to raise the tracks to a point of afety from the sudden rise of waters which follows the cloud bursts common to the lo-mity. The New York Scott Bill.

ALBANY, Feb. 1.-Mr. Locke, of Rensseler, introduced as a bill today the Scott iquor law with some modifications. The list section of the Scott law, which is the central point of it, is as follows:

"Upon the business of trafficking in intoxicating liquors there shall be assessed yearly, and shall by paid into the county treasury by every person engaged therein as hereinafter provided and for each place where such business is carried on by or for such person the sum of \$200; provided, if such business continues through the year, namely, from the second Monday of April, exclusively in the traffic in malt or vinous liquors, or both.

Mr. Locke's till makes the yearly assessment \$300 for spirituous and \$150 for malt liquors. The machinery provided for col-lecting the tax is substantially the same as that of the Scott law.

BULWER LYTTON'S BRIDGE.

Where it Touches the Shores and the Great Columns in Midstream.

What a beautiful bridge between old age and childhood is religion. How intuitively the child begins with prayer and worship on enteaing life, and how intuitively, on quitting life, the old man turns back to prayer and worship, putting himself again side by side with the infant," remarks Ele E. Bulwer Lytton, in his "Strange Story," Yes, but between its distant abutments the bridge of life has many high and awful aches through which the wild waters dash and ross in wrath and desolation. Prayer and worship alone do not sustain these. Nature's solid rocks must lie unshaken beneath, and human art and Such assessment shall be but one-half of the skill must rear and solidify the structure over nead. God's will is best exemplified in the laws He

head. God's will is best exemplified in the laws He has made for the creatures whom He has placed under their control. Neither the chil's trustful "Our Father," nor the old man's "Forget me not in the midst of mine infirmities," will alter this by the weight of a single grain.

Science and art first—then faith and prayer—is the order of heaven itself. Divinity heals through its agents, and those agents are the discoveries of men; not the vague announcements of prophets or seers. Is life a burden to you? Does time drags Is your power to cope with life's problem and duties weakened? You are not well. Your blood is sluggish and tainted, perhaps; or some important organ is torpid or overworked. This fact may have taken the form of dispepsia, rheumatism, gout, malaria, pains in the stomach, chronic headache or any of a half a dozen other ills. P A R-K E R'S T O N I C will invigorate you, as fresh air invigorates those who have been shut up in damp, fetid cells. It is powerful pure, delicious, scientific, safe—the keystone of the central arch of the bridge of life.

A HOME DRUGGIST

Popularity at home is not always the best test of merit, but we point proudly to the fact that no other medicine has won for itself such universal approbation in its own city, state, and country, and among all people, as

Ayer's Sarsaparilla.

The following letter from one of our best-known Massachusetts Druggists should be of interest to every sufferer:—

RHEUMATISM. "Eight years ago I had an attack of Rheumatism, so sovere that I could not move from the bed, or dress, without help. I tried several remedies without much if any relief, until I took AVEN'S SARSAPARILLA, by the use of two bottles of which I was completely cured, Have sold large quantities of your SARSAPARILLA, and it still retains its wonderful popularity. The many notable cures it has effected in this vicinity convince me that it is the best blood medicine ever offered to the public.

River St., Buckland, Mass., May 13, 1882.

SALT RHEUM. GEORGE ANDREWS, overseer in the Lowell Carpet Corporation, was for over twenty years before his removal to Lowell afflicted with Salt Rheum in its worst form. Its ulcerations actually covered more than half the surface of his body and limbs. He was entirely cured by AVER'S limbs, .He was entirely cured by AYER'S SARSAPARILLA. See certificate in Ayer's Almanac for 1883.
