

A COMMERCIAL traveler jumped from the train at a small station and shouted to the proprietor of the lunch counter to give him a hard-boiled egg and a piece of mince pie.

He ate the pie hurriedly and was attempting to break the egg when the conductor gave the signal for starting.

"What in Great Caesar's name is the matter with this egg?" he yelled.

"It's rotten?" asked the proprietor.

"Rotten? No, but I can't make any impression on it, and here I am as hungry as a wolf and the train half way out of the yard," and he made a dash for the back platform of the rear car, which he just succeeded in reaching.

"Well, I'm blown," said the proprietor of the lunch counter, poking it with a knife, "if I didn't give the young man a china nest egg to eat."

Out in Arizona.

Hon. A. W. Sheldon, Associate Justice, Supreme Bench of Arizona Territory, writes as follows: "It affords me great pleasure to say, from my personal observation, and you know the scope of such has been very extended, that St. Jacobs Oil is the greatest and wonderful cure of pain, the sovereign cure for all bodily aches and pains, and I cheerfully bear this testimony."

The waiter came up and handed them two bills of fare.

In a few minutes the man then said: "I'm very cold. Bring me a steak and a hot cup of coffee."

Then the waiter gazed interrogatively at the damsel. She looked up at the ceiling, then at the floor. A great mental struggle was going on. Finally she raised her alabaster lids, and said in a fairy-like manner as a half-frozen person with chattering jaws could say: "Give me a plate of ice cream."

That Terrible Tragedy!

ONE OF THE CHIEF CAUSES OF SUDDEN INSANITY ILLUSTRATED.

As details of the Rathbone wife murder are received they add to its horror. Colonel Rathbone, the murderer, was with President Lincoln when Booth shot him, and he himself testified to the assassin. The event was followed by nervous prostration, which caused, says Senator Harris, of Albany, painful dyspepsia, which grew constantly worse in the last ten years finally produced "slips" and periodical brain disorders. Dyspepsia made his man a monster!

Experts tell us that the brain is the seat of all organs, and they credit the alarming increase of insanity to derangements of the stomach. What the stomach is the blood will be, and bad blood has an especially evil effect upon the brain. Dyspepsia is a dangerous disorder, and yet is far too neglected when it might be checked or cured. It is the cause of many of our most serious ailments. It is a burden, an unbearable burden. He says he would rather die than go through his old dyspepsia experiences. As John King, of New York, a child of Father Hudson, informs us that what began in dyspepsia, stomach, heartburn, lumpy stools, and occasional constipation, led to continued dyspepsia, intense heat and distress in the stomach, belching of wind, hard and black stools, loss of appetite, constant constipation, sick headache, and a dependent, irritable condition of mind.

These gentlemen can realize, as can thousands of others, to what violent and distressing dyspepsia may drive a man. Happily for them they escaped mental frenzy by timely use of Dr. King's Favorite Remedy, of Randolph, N. Y., a pure vegetable, non-alcoholic preparation which in the past twenty years has cured in 50 per cent of cases. It has a very large sale and is regularly prescribed by physicians as most valuable for stomach, muscular, liver, kidney, urinary, female, and blood disorders.

If we would escape the full penalties of dyspepsia, we must treat it before it becomes chronic and get the blood and brain on fire. (Kingdon, N. Y.) Freeman.

At present the total length of public roads in France is 18,750 miles, of which 7250 are bordered with trees, while 4500 miles are already being planted, or will shortly be planted. On the remaining 7000 miles the nature of the soil does not admit of plantations. The number of trees already planted amounts to 2,678,603, consisting principally of elm, poplar, acacia, plane, ash, sycamore and lime trees.

Speak Well of the Hedge that Carries Us Safely Over.

In an old adage, and as these words seem to apply to my case I use them. For several years I have been terribly troubled with my kidneys and liver. I had intense pains in my loins, back and hips. I could not lie down, or sit down at times, as the pains were more than I could bear. I was treated by physicians here in Syracuse that did me no good, and I also tried several medicines that gave me no relief. I finally went to one of our druggists, and he recommended to use Hunt's Remedy. I purchased a bottle, and as I found it had been used with wonderful success here by others, and I had not used one bottle before I began to improve, could not, which before I had been unable to obtain; the pains in my limbs and back were all gone, and it certainly has done all that was claimed for it in my case. In fact, Hunt's Remedy has made a complete cure, and I most heartily recommend it to the public for kidney troubles in general. You are at liberty to use my name for the benefit of others that may be in doubt as to the great merit of Hunt's Remedy. Gratefully yours, A. WOODRUFF, With the Dry Goods house of D. McCarthy & Co., Syracuse, N. Y., June 11, 1883.

"Well, my child," said the fond father to his little daughter after she had been to church, "what do you remember of all the preacher said?" "Nothing" was the timid reply. "Nothing!" he exclaimed, in a severe tone. "Now remember, the next time you must tell me something of what he says, or you will have to be punished." Next Sunday the child came home with her eyes all wild with excitement. "I remember something to-day, papa," she cried eagerly. "I am very glad of it," said her father, "what did he say?" "He said, 'a collection will now be made!'"

A Prevalent Disease.

There is no disease so prevalent in America as dyspepsia, and certainly none which has so generally baffled and defeated the skill of the medical profession. The only remedy for this distressing complaint is a pure medicated stimulant. Hostetter's Stomach Bitters, whose essential principle is pure spirits, is admitted by medical practitioners to be the only alternative, corrective and restorative on which they can rely. The Bitters are the best possible specific for flatulency, distension, waterbrash, irregularity of the bowels, and all indications of confirmed dyspepsia. They do not excite, but soothe the irritated stomach and bowels, and may be taken by persons of the most delicate and sensitive organization, who are unfavorably affected by the use of the ordinary stimulants of commerce. Their effects are most decisive, yet they are so mild and beneficial in operation, as to be suitable to children as well as to adults.

According to a decision of German Courts, the manufacturer has to provide safety appliances for the protection of his employees if their work is injurious to the eyes. Any neglect or violation of this will make the employer responsible for the damages done to the eyes of his laborers.

One dram of carbolic acid, six drops of oil of lavender, and two and a-half ounces of olive oil formed the prescription which proved effectual in destroying a parasitic affection of the mucous membrane of a gentleman who consulted Dr. George Thain, London, Eng. The hair had fallen out, and a sort of baldness occurred in spots, but after the application of the remedy the hair grew as thick and healthy as before the parasites had attacked it.

I have been a severe sufferer from Catarrh for the past fifteen years, with distressing pain over my eyes. Gradually the disease worked down upon my lungs. About a year and a half ago I commenced using Ely's Cream Balm, with most gratifying results, and am to-day apparently cured. Z. C. Warren, Rutland, Vt.

"SEE here," said an editorial writer, calling the editor-in-chief, "that fellow on the Wolfville Soap" has produced an argument that I cannot answer. What shall I do with him?"

"Let me see," mused the editor, looking over the argument; "I reckon you had better call him a liar and drop the controversy."

A question of identity: Mrs. Symkings de Harris (to lady caller): "Do we know the Hogs? I don't think we do? Do we, Maud?" Young Symkings de Harris (age 11 years): "Oh, ma, what a story! Didn't pa say he owed Mr. Hogg five thousand dollars and he didn't know where in the world it was to come from?" (Tableau.)

"Wonder what becomes of the revised New Testament?" said Brown; "upon my word I haven't seen a copy of it for a year." "Have you seen a copy of the old version within a year?" asked Deacon Textual. "By gracious!" exclaimed Brown, "it's funny, but come to think of it, I haven't."

Twenty-four hours to live.

From John Kuhn, Lafayette, Ind., who announces that he is now in perfect health, we have the following: One year ago I was to all appearance in the last stages of consumption. Our best physicians gave me up. I finally got so low that our doctor said I could only live twenty-four hours. My friends then purchased a bottle of Dr. Williams' Pink Pills for Pale People, which I considered bottled me. I continued until I took nine bottles, and I am now in perfect health.

The knot or nautical mile is variously reckoned at from 6076 feet to 6125 feet. According to the standard of the British Admiralty the knot is the length of one minute of longitude at the equator, or 6916 feet 1,1527 statute inches, or 1855 metres. The mean length of latitude, sometimes reckoned as a knot, is 5076 feet 1151 statute mile, or 1852 metres. A marine league is three of these sea miles.
