NATURE IN SIBERIA. [Chamber's Journal.]

"The history of animal and vegetable "The bistory of animal and vegetable life on the tundra, says our author, "is a very curious one. For eight months, out-of the twelve every trace of vegetable Hife is completely hidden under a blanket six feet thick of snow, which effectually covers every plaut and bush—trees there are none to hide. During six months of the time, at least, animal life is only traceable by the footprints of the reindeer or a fox on the
