For Two Generations

The good and staunch old stand-by, MEXICAN MUSTANG LINIMENT, has done more to assuage pain, relieve suffering, and save the lives of men and beasts than all other liniments put together. Why? Because the Mustang penetrates through skin and flesh to the very bone, driving out all pain and soreness and morbid secretions, and restoring the afflicted part to sound and supple health.

The victims of the Newell House fire in Milwaukee are to have a monument. A monument, to a night's stay lodging was all a guest expected, is something in the way of a gratuity that is entirely superfluous.

A Remedy for Lung Diseases. Dr. Robert Newton, late president of the Electric college, of the city of New York, and formerly of Cincinnati, Ohio, used Dr. Wm. Hall's Balsam very extensively in his practice, as many of his patients, now living and restored to health by the use of this invaluable medicine, can amply testify. He always said that so good a remedy ought to be prescribed freely by every physician as a sovereign remedy in all cases of lung diseases. It cures consumption, and has no equal for all pleuritic complaints.

In the Sinaitic range of mountains there is a remarkable cone of sandy rocks called Gebel Nakus. When a traveler attempts in fine weather to scale this miniature peak he hears a sound like that of distant bells. When there is no wind and the sand is wet with dew the sound is not heard. The phenomenon is attributed to the friction of the silicious sand on the declivities of the cone. The atmospheric vibration which is thus started is supposed to be intensified by cavities which serve as sounding-boxes or resonators.

Thrown Against a Cab. Some four months ago, while doing some shifting, I was thrown against the cab of my engine and my back was severely injured. It affected my kidneys, and I was at the time such pain that I had to let my fireman take the engine. I found after getting home that my water was affected from the strain and was almost the color of blood. My wife advised me to use Hunt's Remedy, which we had used before for other troubles. I used it, and in a short time the pains in my back and kidneys were fast disappearing. The second bottle cured me completely, and I can most heartily recommend Hunt's Remedy to the many of my railroad companions that I find are troubled so much with kidney troubles. Respectfully yours, HENRY MCGINNIS, Engineer N. Y. C. & H. R. R. R. Rome, N. Y., June 9, 1883.

I have been troubled for many years with kidney and liver troubles, severe pain in back, with loss of appetite and vigor generally. My kidneys were very weak at times, with non-retention of urine, and a brick dust deposit. I took several medicines, but they did me only a temporary good. I was recommended to use Hunt's Remedy, and I purchased a bottle in Rome, N. Y., and found that the first bottle gave me relief. I had less pain in the back, my water became more natural, passed better and needed less attention, and after using four (4) bottles I find that it has completely cured me of my kidney and liver trouble, and consider it a wonderful medicine, and have recommended it to many who have found that Hunt's Remedy is all that is claimed for it. GEORGE WHITE, Farmer, Tabery, N. Y., June 11, 1883.

"Isn't that good canvas-back?" inquired a restaurateur of a customer who had taken two or three bites out of a wild-duck sandwich. "Yes, this is good canvas-back," replied the customer; "you could make summer shoes or a tent out of it. I think you ought to change the card and call it oil-cloth back. The thing is tough enough to cover a base ball with." And when the customer looked around at the proprietor had moved off to attend to another customer.

Restorations of the People's Remedy. When skillful and cautious medical men give their own signatures a favorable opinion of the soothing and vitalizing effects of a preparation the public does not hesitate to believe them. The testimonials and emphatic professional testimony in favor of Hostess's Stomach Bitters, as a specific for all disorders of the stomach and bowels, for liver complaint, intermittent and remittent fevers, and the thousand ills that wait upon dyspepsia, must convince the most skeptical. Aside, however, from the testimony of the faculty, there is a large mass of evidence from patients in every walk of life, all showing that this great preventive and restorative is of inestimable value to the sick and the debilitated. The Bitters are suited to all climates, and are universally endorsed as a preventive of disorders caused by miasma and impure water.

Ely's Cream Balm is doing wonders. I advise sufferers from Catarrh to lay other remedies aside. I believe it is the only remedy that will cure this terrible disease, from which I have suffered twenty years.—Charles Garrawant, Shoe Merchant, 856 Broad St., Newark, N. J. (Price 50 cents per bottle.)

"It was one of the saddest cases I ever knew," said the stranger, occasionally mistaking his throat with a draught of hot whiskey. "I never heard of a death that affected me more. The crowd gathered around him and began to ask questions. 'Was he murdered?' 'No, he wasn't murdered.' 'Did he commit suicide?' 'No.' 'Did he die a natural death?' 'No.' 'If he wasn't murdered, didn't he commit suicide or die a natural death, what in thunder was the matter with him?' 'He was found in bed with a copy of the New York Sun in his hand containing a large installment of the Holman boom.'"

LONGFELLOW said: "In the world a man must be either anvil or hammer." He was wrong, however. Lots of men are acting but belows.

Like an Evil Spirit. In olden times it was thought that evil spirits came in through cracks and keyholes. The generally approved way to keep them out was to plug up the keyholes and stop the cracks with cotton. Notwithstanding these preventive measures, the evil things had their own way and often came in as they pleased.

So comes malaria now-a-days. We try to keep it out of the keyhole and it comes in by the crack. We stop up the crack, and lo! it comes from a leak in the plumbing, or an opening from some neglected drain, or from some unsuspected source and unguarded direction.

We cannot always keep malaria out, but we can give it battle and drive its effects from our systems. If BROWN'S IRON BITTERS is taken in time, malaria has not a ghost of a chance. This is the great family medicine. Your druggist sells it, and you ought to keep a bottle in the house

THE INVESTMENT. "I must have help," exclaimed City Assessor Francis Goodell, of Sumner Street, Lowell, Mass., to his physician. Like so many other public men, Mr. Goodell was in his early life strong, robust and a perfect stranger to physical infirmities. But the elements of a weak life and the nervous strain called by business engagements, together, perhaps, with some inherited tendency for the tendency is often inherited had made him, he says, "as weak of my friends in Lowell as a sufferer from kidney and urinary troubles. As a matter of course I procured the best of medical attention, but without benefit." He had had inflammation of the prostate gland. Utterly discouraged, he obtained an investment of a dollar in DR. DAVID KENNEDY'S FAVORITE REMEDY, of Boston, N. Y., and he says he got a new lease of life, and on his recommendation his friends used it with equally good results. This was two years ago. Under date of Feb. 11, 1884, he says: "My health is the best it has been for years. I still use FAVORITE REMEDY occasionally. I always keep it in the house. I have had many letters of inquiry about my case, and I always recommend it as one of the best of medicines for such troubles. For I have used most all other medicines for similar troubles without benefit." Such an emphatic endorsement from such a source ought to be perfectly convincing to all sufferers. David Kennedy, M. D., of Boston, N. Y., is a graduate of high standing, a surgeon who never lost a case. He has used FAVORITE REMEDY in his practice for twenty years. It is purely vegetable, non-alcoholic, safe, efficient if taken as directed.
