Minister Sargent's Position.

WASHINGTON, March 28 .- Secretary Freinghuysen has received no communication from Minister Sargent indicating a desire to remain at Berlin and not accept the St. Petersburg mission. It is stated at the de-partment that the duties of minister at Berlin will devolve upon Mr. Sidney Everett, of the United States legation at that city, and that the post at Berlin will remain unfilled for some time. It is stoutly denied on all sides that Secretary Folger's name has been considered in connection with the Berlin

ROSE AMBLER'S MURDERER.

Private Detectives Pursuing Him. An Arrest to Be Made.

BIRMINGHAM, Ct., March 27 .- Interest in the mysterious Ross Ambler tragedy is revived here by the current rumor that detectives who have been tracing up the case have made some important discoveries, which may ultimately lead to the arrest of the poor girl's murderer. It is confidently asserted that within a week an important arrest will be made, and that the evidence will be of such a character as to fully justify the commitment of the suspected criminal for trial before the superior court. The general supposition that the search for the murderer was abandoned immediately after the termination of the coroner's investigation is incorrect. Detective Arnold of Bridgeport, who always held to the belief that William Lowis was the guilty man, spent much time in hunting up clues in Stratford and the Naugatuck valley. Such information as he obtained he promptly turned over to State Attorney Fessenden, of Fairfield county, but the evidence was evidently not sufficient to warrant an arrest. It now appears that two private detectives, a man and a woman, have for a long time been re-exploring the field which the earlier detectives were supposed to have gone over so thoroughly, and that now facts have been obtained. The detectives have guarded their movements so carefully that the fact of their having been at work on the case was only known here within the last day or two. The report is that the detectives are in possession of information which disproves Lewis' story that when the murder was committed he was in bed at his employer's house.
