The Best Protection.

The best safeguards against epidemic disease are thorough digestion and firm nerves. It is because they assure the regular performance of the digestive process, and invigorate the nervous system, that Hostetter's Stomach Bitters are such a sovereign protective against the influences which beget fever and ague, intermittent maladies, and those which directly affect the stomach and bowels. If the nerves are healthfolly tran-quil, the assimilation of food perfect, as they are sure to be under the influence of this standard tonic and nervine, malaria may be defied, and if, in the abscence of the most reliable of medical safeguards, the system has fallen a prey to disease of an intermittent or remittent type, the Bitters will, if persisted in cradicate every vestige of the malady. Belousness, constrpation and dyspepsia yield with equal certainty to the operation of this potent vegetable alterative.

count of a cure of Stone in the Kidneys by the use of Dr. David Kennedy's Favorite Remedy (of Rondout, N.Y.)-A Disease so Serious and Common Should not be Trifled with,

Plain words are best. Mr. Edward S. Hicks, of Pleasant Valley, Dutchess Co., N. Y., has suffered long from Stones in the Kidneys. He sought relief of course. Who would not? What are time and money to health? Mr. Hicks consulted the best physicians of his village and, also; of Poughkeepsie-and none better can be found any where-but, unhappily, without a good result. A friend in Ron fout advised Mr. Hicks to go to Rondout and see Dr. David Kennedy about his

trouble. This Mr. Hicks finally did. Dr. Kennedy saw at once what the suffering man's difficulty was, and that FAVORITE REMEDY was the medicine he needed. The doctor prescribed it, and Mr. Hicks went home without much confidence in the power of FAVORITE REMEDY to do him more good than other medicines had done before. But hope clings to straws, and he thought there might be one chance out of many in his favor. He followed the directions, and was both surprised and delighted to find himself presently improvng. To-day Mr. Hicks is a well man.

Dr. Kennedy continues to practice his profession and perform all the minor and capital operations in surgery. Write and state your case.

put two small table-spoonfuls of sweet butter that has been well dusted with Cayenne paper. Place the oysters in this when done, and send to table as soon as possible. In brothing meat, fish, or oysters, everything depends up-on the fire. It should be of coal, not wood, as is generally believed; but the dampers must be open, and the gas should have been burned off the fuel. The burned juice, under these conditions, will not affect the food, but in wood coals it rises and gives a disagreeable, bitter taste.
