Honor to Whom It is Due.

To the Editor of the Times-Star.

In your issue of the 11th inst., under the head of "L cal Personals," is a statement which needs correcting. It is stated that one George W. Eiliott, who brought to Cincinnati one thousand dollars (\$1,000) in cash for a well-known proprietary medicine concern of Rochester, N. Y., 18 now the advertising manager of a patent medicine concern on the Hudson. It is the first statement which needs correcting; of the latter I know little and care less.

Mr. Elliott did bring the money to Cincinnati, but he acted simply in the capacity of messenger of the Rochester house, which he represented. 'The facts of the

case are these: During the height of the suffering caused by the raging waters, when thousands of fugitives were starving from hunger and suffering from cold, long before the authorized call for aid was sent out by our citizens, Mr. H. H. Warner, of Rochester, N. Y., with that wholesale generosity which is characteristic or the man, telegraphed me that he had sent one thousand dollars cash and twelve hundred and fifty dollars worth of Warner's Safe Kidney and Liver Cure, the entire proceeds of the sale of which, together with the one thousand dollars cash, were to be given for the benefit of the sufferers, as in my judgment appeared best.

The goods were disposed of, and, I believe, the entire proceeds, with the one thousand dollars cash, were given to relieve the wants and miseries of the sufferers. For Mr. Elliott to try and appropriate for his concern on the Hudson the thunder of a reputable house with which to rattle up a demand for his medicine, is not only unjournalistic, but decidedly unbusiness-like. If this concern on the Hudson wishes to reap the benefit of such magnanimity as Mr. Warner's, why don't Mr. Elliott have its proprietor donate his two thousand two hundred and fifty dollars? We dare say it would be judiciously expended, and that whatever glory and benefit there might be in such exhibition of generosity would be cheerfully given him.

I am led to make this statement from a sense of justice and right and from the fact that it is due Mr. Warner, whose liberality our citizens enjoyed. Yours for the right,

M. MOSLER. Cincinnati, O., Feb. 27th, 1884.

"Well, my little man, said Methodist elder, who, during the progress of a revival, was stopping at the house of the father of the youth whom he addressed, I hear you have a charges will be \$50 per day, whether I little baby brother. Have you named discover smything or not." "Suppose him yet?"

No, sir," replied the lad, shyly. "Name him after me and I'll give him a present,"

Upon the next visit of the elder, about a month after the conversation, he asked the boy if he had followed out his wishes.

"Yes, sir," answered the youth, "I me with at least a thousand." spoke to dad about it and he said he'd name the kid after you as sure as shootin'."

"Ah, ha, and what do you call him?" "We call him Bacon and Eggs fried on both Sides, Yellow Legged Chickens, and Biscuits and Honey.

A WELL KNOWN clergyman in the north of England entertained recently a brother clergyman from some distance. The weather being unpropitions, he asked him to remain tor the night. At dusk the clergyman asked his guest to step into the manse while he gave orders to have his conveyance ready in the morning. As the visitor entered the manse, the clergyman's wife mistook him in the dusk for her gas and streamers 200,000 miles in exhusband, and, seizing the pulpit Bible which was on the lobby table, brought the full weight of it across his shoulders, exclaiming emphatically: "Take that for asking the ugly wretch to stay all night."

Some heartless wretch caught two cats, tied them by the tails and flung them into the cellar of a Connecticut church. They kept pretty quiet until about the middle of the semron, when about the middle of the semron, which they began, and the pastor sterly remarked; "Will the choir please wait until its services are required?" And tor took the advice. Next day the friend called to see how it worked. He found and removed the cats. And everybody is laughing at the choir; and the way the members thereof are mad at the pastor goes ahead of the wrath of the maiden ladies who owned the cats.

Curing bacon by hanging it up, after proper salting, in a tobacco barn, is recommended by a Kentucky correspondent as making a sweet and perfect cure, with no necessity for smoking, and leaving no taste of tobacco in the meat. It is propable that the aroma given off by the tobacco has a mild antiseptic effect, such as that which belongs to creosote, carbolle acid and other substances which occur in wood

Good shellac varnish is made as follows: Take of very pale shellac five pounds mastic 1 ounce, and alcohol 5 or 6 pints, and dissolve in the cold to prevent the evaporation of the alcohol, stirring the mixture meanwhile. This I recommend this admirable remedy to all is a good varnish for furniture, and it sillicted with Catarrh or Colds in the head. is much employed in France by cabinet -J. O. Tichenor, Shoe Merchant, Elizamakers. beth, N. J. (Price 50 cts.)

What cannot be made out of paper is something which cannot yet be sately decided, A Hartford, Coun., man has lately taken out patents for devices by which very beautiful and substantial carpets can be made of paper at prices much lower than the cost of common cotton matting. This new tabric even seems to have qualities entirely superior to ordinary carpets. It can be doctored so as to resist water, fire and insects without losing any of the soft elegance which is common to fire woolen carpets. So sayeth the inventor and his friends.

A new paint, called the "Fibrous Fire and Water Proof Paint," has been invented. It completely saturates the wood, and makes soft wood as hard as "A hair restorer," oak. It poisons all insects that touch it; and it is almost impossible to burn wood painted with it.

Careful analysis proves more and economy to leave the bran and other tion about black bread being cheaper than white is simply a fable. One of Ruebner, states that, independent of its better taste, the white bread is more economical than the black, because a mands of the body.

We Should Help One Another. Mr. Norman Hunt, of No. 169 Chestnut street, Springfield, Mass., writes April 10.

83, saying: "Having the affliction caused by kidney and liver diseases, and after enduring the aches, pains, weakness and depression inci-dent thereto until body and soul were nearly distracted, I sought for relief and a cure from my trouble, and was told by a friend who had been cured by it himself, that the best and only sure cure was Hunt's Remedy, and upon his recommendation I commenced taking it, and the first few doses improved my condition in a very marked manner, and a continuance of its use has stifled all that my friends claimed for it -that it was a sure and permanent cure for all diseases of the kidneys and liver. Several of my friends in Springfield have used it with the most gratifying results, and I feel it my duty as well as a pleasure to remend Hunt's Remedy in the highest possible terms."

Manufacturer's Testimony. Mr. H. W. Payne, manufacturer of har-ness, saddlery, trunks, valises, etc., No. 477 Main street. Springfield, Mass., writes under date of April 10, 1883:

"Gentlemen-I have used Hunt's Remedy, the best medicine for diseases of the kidneys, liver, bladder and u inary organs, and have received great benefit to my health from its use, and I find that it will do just what is claimed for it; it will cure disease and restore health. I therefore pronounce it the best medicines that I have ever used." Boston and Albany Ratiroad,

Albere Holt, Esq., paymaster Boston and Albany railroad, at Springfield, Mass., writes April 23, 1883: "I have used Hunt's Remedy, and my experience with it has been such that I can cheerfully say that I am satisfied that it will do just what it promises to do, if used according to directions.'

A CHICAGO man who was induced to purchase a large interest in a hole in the ground in Nevada said to contain silver, went to Virginia City to get some close idea how matters stood. A professional mine inspector was called in, and, after some talk, he said; "My you discover that half of this mine is worth \$100,000?" "Then you would probably present me with \$500." "And if you should discover that I have paid \$18,000 for a half interest in a hole which won't pan out \$200-what then?" "Why, I should then expect the man who sold it to you to present

A Druggist's Story. Mr. Isaac C. Chapman, druggist, Newburg, N. Y., writes us: "I have for the past ten years sold several gross of Dr. Wm. it what I cannot say of any other medicine. I have never heard a customer speak of it but to praise its virtue in the highest manner. I have recommended it in a great many cases of whooping cough, with the happiest effects. I have used it in my own family for many years; in fact, always have a bottle in the medicine closet."

Ordinarily, what we see of the sun is photosphere. But outside of that and tent, and sometimes 1,000,000 miles, and even 5,000,000 or 6,000,000 miles, are thrown out. This invisible part becomes visible at times of eclipse.

Heart Disease has brought many to an untimely grave. The heart is as liable as other organs to disease; if you have it even in the slightest form use Dr. Graves' Heart Regulator. \$1. per bottle.

AN EXTENDED POPULARITY, BROWN'S BRONCHIAL TROCHES have been before the public many years. For relieving Coughs and Throat troubles they are superior to all others. Sold only in boxes.

A fireproof ceiling has been invented. It is composed of tiles supported from joists by hangers, and hanging facing tiles placed against the sides of the joists and top tiles placed between the upper joists. The top tiles and the tops of the joists are covered with a layer of cement, rendering the ceiling secure against fire.

I could scarcely speak; it was almost

DOCTOB B., after having bought a lot in the Montparnasse Cemetery, went to the marble worker to order the

tomb. After the details were arranged, the

marble worker said: "Monsieur did well to select this cemetery; it is so quiet, And then. Monsieur le doctor must know a good many people here!"

"Rough on Corns." 15c. Quick relief; complete, permanent cure. Corns, warts, bunions.

A Boy found a woman s switch in the opera house and returned it to her. 'Thank you, my little man," said the lady, "you are an honest boy." "Oh, no, I'm not so very honest, but I know what I am." "What are you, then?"

A room hung with pictures is a room hung with thoughts.

Watchmen in the magazines of inmore conclusively, according to the "Mueller Zitung," that it is poor curious and ingenious kind of a light. Into an oblong vial of the whitest and impurities in the flour, and that the no- olearest glass is put a piece of phosphorus about the size of a pea. Olive oil heated to the boiling point is poured the best chemists of Austria, Dr. Max upon the phosphorus, the vial is filled about one-third full and then corked tightly. To use this novel light remove the cork, allow the air to enter the vial, larger portion of it is digested; in other and then recork it. The empty space words, a smaller quantity of white in the vial will become luminous, and bread is needed against a larger quantity of black bread to satisfy the detity of black bread to satisfy the de- of a lamp. When the light grows dim its power can be increased by taking out the cork and allowing a fresh supply of air to enter the vial. In winter it is sometimes necessary to heat the vial between the hands in order to increase the fluidity of the oil. The apparatus thus made may be used for six months.

> (From the Chicago, Illinois Staatszeitung, of March 5, 1884.)

Testimony. To the Editor of the Illinois Staatszeitung: Having read that Dr. Silsbee's Anakesis is such an excellent remedy for piles, I can testify to the truth of that statement. For 25 years 1 suffered from the disease named. The advice of several doctors whom I consulted about it, was always the same, to drink cold water which never d.d me any good. I used many sorts of pills and lotions without ever getting any relief. The physician whom I suited last, prescribed for me to drink cream of tartar in cold water. Having continued this treatment for half a year I found my ailment unchanged. Then I made up my mind to try one dollar's worth of Dr. 8 Silsbee's Anakesis from Neustædter & Co. No. 83 Mercer St., New York, the use o which at once relieved my pains and effected a complete cure. Since about five years I am rid of piles, by the use of four dollars' worth of Anakesis. Persons ad-

and cured by it. It is not my aim in this notice to assist Messra. Neustædter & Co., in selling their "Anakesis," but rather to help sufferers CHRIST LINOW, from Piles. Waverly, Bremer Co., Iowa.

Puscher recommends a resin soap for cementing brass on glass, made by boiling 1 part of caustic soda, 3 parts of colophonium (resin) in five parts of water, and kneading into it half the quantity of plaster of Paris. This cement is useful for fastening the brass top on glass lamps, as it is very strong, is not acted acted upon by petroleum, bears heat very well, and hardens in one half or three-quarters of an hour. But substituting zinc white, white lead or air-slacked lime for plaster of Paris, Wiederhold recommends, for the same purpose, a fusible metal, composed of 4 parts lead, 2 parts tin and 21 parts bismuth, which melts at 212 degrees Fahr. The melted metal is poured into the capsule, the glass pressed into it, and then allowed to cool slowly in warm place.

Consumption Cured.

An old physician, retired from practice, 'having had piaced in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrin, Asthma and all throat and lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after naving tested its wonderful curative powers in thousands of cases, has felt it his duty to ma e it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering. I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mall by addressing with stamp, naming this paper, W. A. Noyres 148 Power's block Rochester N. Y.

TRUE SOLDIERLY GRIT.

Having Passed through the War, an Old Soldier Conquers one Enemy more.

Kindling with enthusiasm as he recalled the great struggle of twenty years ago, Capt. J. R. Sanford, of Newark, who raised Compuny B of Ed N. J. Zonaves, and went to the front with th m, said to a transient companion one day last summer:

"Yes, I was in eigh: of the fiercest battles of the war: Seven Pines, Malvern Hill, Savage Station, Missionary Ridge and Barrison's Landing are in the list, I started to go with Sherman to the sea, but my right leg was shittered by a ball at the first engagement after the great march began. After the amputation I was taken twenty-five miles and left in a tent at Ringgold, Ga. A rain came on and my tent was flooded. Then I was started on my way to Chattanooga, 280 miles distant. Just try to imagine the horror of that journey to a man in my condition. For years afterwards I was shaken with every exertion. Yes, the doctors prescribe, as they always will when you ask hem, but I keep my own doctor now, and he never

opens his mouth."
"A dumb doctor?" exclaimed the captain's caller "Yes, dumb as a mummy, but smart as lightning; there he is," pointing to a bottle of DR. DAVID KEN-NEDY'S FAVORITE REMEDY standing on a corner shelf. I take that. When I am run down it winds me up; when I am weak it strengthens me; when I am 'off my food' it gives me an appetite; when I am ex-Remember name, Dr. David Kennedy's FAVORITE REMEDY.
