THEE CNTRE REPORTER FRED 'KURTZ, ... Editor. CENTRE HALL, PA., May 7, '84

It is reported that Logan is determined to do the Lincoln boom all the harm he can. Logan avers that Gen. Garfield offered him the place of Secretary-of-War, and he declined and recommended Lincoln, and that Lincoln has broken his promise to Logan when he went into the Cabinet, not to permit anything to be done that would antagonize Logan's strength in Illinois, by the promotion of his own political prospects. Logan refuses to speak to Lincoln, and expects to be able to defeat his nomination for the Vice Presidency.

THE TERRIBLE EFFECTS OF AN EXPLOSION AT HAVANA.

Havana, April 30 .- The effects of the explosion yesterday were terrible. Up to the present time the dead number 21, and the wounded 79. The latter are scattered all over town having been wounded by the falling debris; many are seri-ously injured. Of the detachment of 27 soldiers in the magazine at the time of the explosion 8 escaped unhurt. The magazine contained one million cartridges, 200,000 kilograms of powder and one barrel of dynamite. The warehouse of San Jose and the planter's warehouse sustained serious damages, as did the several churches and many houses. The second shock was stronger than the first.

It was not caused by the explosion of gas sion of the magazine. The first shock was less violent because it was caused by powder which was drying in the open air. The gas company will be able to morrow to light the whole city again

with gas.

A BODY FULL OF BULLET HOLES.

Charlestown, West Va., April 28.-The mail ridey from Boone county brought word here to day of a tragedy enacted on Saturday night. The body of Sheriff Ad-kin was found hanging to a tree by the thumbs and full of bullet holes. The corpse bore evidence of the most horrible treatment. An armed posse was sent out to scour the woods. It is well known had received several threatening letters. nnrelenting war on this gang, which is the last relic of the famous Red Men of West Vieles; Kama, 1,117 miles; Petchora, 1,024 West Virginia.

THE STORM'S FORCE.

Xenia, Ohio, April 28-The scene of Jamestown this morning was even worse than expected. Fully one-third of the town is in ruins. The force of the wind for tools, machines, motors, agricultural was terrific. Houses not entirely demolished were torn in two and litted from their foundations. The damage is esti-mated at from \$150,000 to \$200,000. The principal losses are the Methodist church, \$10,000; fair ground. \$5,000; Christian church, \$5,000; A. L. Wickersham, \$5,000; Mrs. S. Adams, \$4,000; fire engine, \$5,000; and Baptist church, \$3,000. Individual losses number 160. In many cases a dissolved in the acid, the saline residue home and entire contents are all gone Furniture and bedding were blown into tree tops a long distance from the houses. The damage in the country is very great, but particulars are not yet known. The roads are impassible in the direction of the storm. Much live stock was killed, and barns, houses, fences and trees swept away. A meeting was held here to-night to organize relief for the suffering.

Scientific.

Sorghum sugar, reported by experts to be of good flavor and quality, has been made this year for the first time in the neighborhood of Phœnix, Arizona.

It is asserted that passengers perceive a difference in the ease of riding in cars having the larger or smaller wheels, and that they prefer those with the large ones. This, says the National Car Builder, is significant if not conclusive.

Yellow fever is said to be propagated by the sting of the mosquito, on the authority of Dr. Carlos Finlay, of Havana, who has seen under the microscope spores and filaments of a particular nature on the sting of one of these insects that had just bitten a patient suffering from yellow fever.

It is a very significant fact indicative of the closing of the gulf between the distant East and the far West, in quite an unex- Anna is about 48 years old, though it is pected direction, that the appointment of a Japanese student as assistant to the Professor of Anatomy at Berlin has received the approval of the Minister of Public married to him when she was thirteen. How Watch Cases are Made.

In buying a silver watch case great care should be taken to secure one that is solid silver throughout. The cap of most cheap silver cases is made of a composition known as albata, which is a very poor substitute for silver, as it turns black in a short time. The backs of such cases are made much thinner than those of an all silver case, being robbed in order to make the .cap thicker and get in as much as possible of the cheap metal. Another important point in a silver case is the joints or hinges, which should be made of gold. Those of most cheap cases are made of silver, which is not a suitable metal for that purpose. In a brief period it warps, bends and spreads apart, allowing the backs to become loose upon the case and admitting the dust and dirt that accummulate in the pocket. The Keystone Silver Watch Cases are only made with silver caps and gold joints.

With Silver Caps and gold joints. Sr. Lours, Mo., Feb. 17, 1893. In our long and varied experience in handling watches, we cannot but acknowledge and give curtestimony that the Keystone Solid Silver Watch Cases are the best made to our knowledge. Having to soldering they ro-main homogeneous, harder and sider than they would be were they heated for soldering, and have more resisting power against pressure than any other cases in the market. MERMOD & JACCARD JEWELRY CO. Bend S cost stamp to Keyriana Watch Case Factories, Philas desphis, Fa., for bandsome Illustrated Pamphlet showing how dames Bost and Keyriana Watch Cases are made.

-Lovers of trout-fishing should not catastrophe, seems to have been propafull to have the trout-tempting flies made by A. T. Parker, of Jersey Shore. They are so perfect an imitation of the insect as to beguile the most sly and shy of the speckled beauties. All sportsmen having tried Parker's flies will never do without them. Try Parker's flies and you won't make a "water haul."

-Nothing succeeds like success, and the greatest success we have is the Phil-a lelphia Branch, which goes ahead of all others for low prices and large assortment of ready-made clothing. Give the Philad. Brauch a call before purchasing elsewhere if you would save from \$10 to \$15 on a suit.

The Attorney General has appointed Samuel H. Reynolds, of Lancaster, Pa., special counsel to represent him in the trial of ex-Senator Kellogg, as the Attorney General is unable to personally manage the case.

REGULARS.

One of the strongest proofs of the value of Kidney-Wort as a remedy for all diseases of the Kidneys, Liver and Bowels, is the fact that it is used and pre-scribed by "regular" physicians. Philip C. Ballou, M. D., of Monkton, Vt., says: "Taking it all in all, it is the most successful remedy I have ever used."

FELL ON HER FACE AND DIED. Altoona, Penn'a, April 28.-Dr. B. F. Gbrett, a prominent physician of this city, died last evening of spine disease, f.om which he had long suffered. When the announcment of his death was made Miss Harvey, aged twenty, his sister-in-law, an invalid member of the doctor's family, fell on her face and died in a few minutes.

EXPERIENCE.

" Calvert, TeLM. May 3, 1882.

"I wish to express my appreciation of the valuable qualities of

Ayer's Cherry Pectoral

as a cough remedy.

"While with Churchill's army, just before the battle of Vicksburg, I contracted a sowere cold, which terminated in a dangerous cough. I found no relief till on our march we came to a country store, where, on asking for some remedy, I was urged to try AYER's CHERRY PECTORAL.

"I did so, and was rapidly cured. Since then I have kept the PECTORAL constantly by me, for family use, and I have found it to be an invaluable remedy for throat and lung discases. J. W. WHITLEY." discases.

Thousands of testimonials certify to the prompt cure of all bronchial and lung affections, by the use of Aven's CHERRY PECTORAL. Being very palatable, the youngcet children take it readily.
