-The lower end of this valley is still having the financial shakes. The panic set in some six weeks ago with the fail-ure of Perry Stover, dealer in grain, who left with liabilities reported at from 12 to 15 thousand dollars, much of which was due farmers who sold him their crops. This created a scare and want of confidence which resulted in a run on the Millheim Bank. That institution, however, withstood the local tempest and had backers whose assurances quieted those having deposits. This was some

three or four weeks ago.

Last week there was another scare in the reported embarrassment of Mr. H. Tomlinson, merchant, of Milheim, whose store was closed for a short time, but who feels assured he can get thro without any one loosing a dollar if he is left in control of his business. Mr. T. has proven an active business man, and old goods at so low a figure that other nerchants wondered how he could do it and hold out. If he comes out all right now, and satisfies his creditors, as 10 thinks he will, no one will have cause to complain, and the public will be the richer for having had cheap goods, althou Mr. Tomlinson may have little for his pains to serve them thus,

The store is like'y to pass into other hands by sale on Thursday. Liabilities are reported at from \$7500 to \$10,000. The stock is thought to be worth \$7,000.

There is no disputing the fact that real headquarters for boots and shoos is at A. C. Mingle's, in the Brockerhoff house block. This is the verdict of all men and women, who have examined the assortment and quality of his goods. It is positively first class, and so low in price that you can not do better anywhere, and at few places in the state can you get as good a bargain in boots and shoes as at Mingle's. He is not afraid to warrant whatever he sells you and takes back any article that does not come up to what it is said to be. Now just stick a pin there and be wise with a good un derstanding.

Did you ever come across any one who said that he was taken in at the Philad. Branch in any purchase made there, or that Lewins ever refused to make good any article that was not found as represented? No, you did not—and because there is this fair and square dealing, everybody feels it is safest to buy clothing at the Philad. Branch.

Recognizing this act and anxious to show their appreciation, the Society took advantage of the Professor's absence from town last week and decided to get up a testimonial, fixing Tuesday of this week for the presentation. There was a large turnout of the Society on that evening and during the intermission a kind of "love feast" was indulged in. Speeches were made by Rev. T. J. Hacker, Pres ident R. T. Owen and others, in which the Society was congratulated on its progress and attainments. Finally Rev Hacker again arose to say that all the speakers had forgotten to mention their leader, and in one of his happiest efforts referred to Prof. Meyer's nobleness of character, his unassuming bearing and his unselfish devotion to the interests of the society, and closed by presenting to him on behalf of the society a handsome gold watch. To say that the Professor was dumfounded is putting it mildly, but not withstanding the genuine surpri-e, he managed to accept it in a graceful lit. tle speech.
