(Syracuse Journal.)

Something of a sensation was caused in this city yesterday by a rumor that one of our best known citizens was about to publish a statement concerning some unusual experiences during his residence in Syracuse. How the rumor originated it is impossible to say, but a reporter immediate ly sought Dr. S. G. Martin, the gentleman in question, and secured the following in- fine metal dust formed when a journal terview:

"Why didn't you take the matter in hand and check it right where it was?" "Why doesn't everybody do so? Simply because they think it is only some trifling and passing disorder. These troubles did not come all at once and I thought it unmanly to heed them. I have found, though, that every physical neglect must be paid for and with large interest. "Speak Well of the Bridge that Carries Us Safely Over,"

Is an old adage, and as these words seem to apply to my case I use them. For several years I have been terribly troubled with my kidneys and liver. I had intense pains in my loins, back and hips. I could not lie down, or sit down at times as the pains were more than I could bear. I was treated by physicians here in Syracuse that did me no good, and I also tried several medicines that gave me no relief. I finally went to one of our druggists here in Syracuse, and was re-commended to use Hunt's Remedy. I pur-chased a bottle, as I found it had been used with wonderful success here by others, and I had not used one bottle before I began to improve, could rest, which before I had been nable to obtain; the pains in my limbs and back were all gone, and it certainly has done all that was claimed for it in my case. You are at liberty to use my name for the benefit of others that may be in doubt as to the great merit of Hunt's Remedy. Gratefully yours, A. WOODRUFF, With the Dry Goods house of D. McCarthy

Well-Known Official of Lowell, Mass.,-Chronic Kidney Disease Cured by Dr' David Kennedy's Favorite Remedy, of Rondout, N. Y.

"I must have other help or die," exclaimed City Assessor Francis Goward, of Summer street, Lowell, Mass., to his physician. Like so many other publi men, Mr. Goward was in early life strong, stalward and a perfect stranger to physical infirmities. But the excitements of a busy life, and the nervous strain caused by business engagements, together, perhaps, with some inherited tendency (for the tendency is often inherited) had male him, he says, "as most of my friends in Lowell are aware, a great sufferer from kidney troubles. As a matter of course I procured the best of medical attendance, but without real benefit." He also had inflammation of the prostate

gland. Utterly discouraged, he invested a dollar in DR. DAVID HENNEDY'S FAVORITE REMEDY. of Rondout, N. Y. That was two or three years ago. Under date of Feb. 15, 1884, he says: "My health is the best it has been for years. I still use FAVORITE REMEDY occasionally. I always keep it in the house. I have had many letters of inqury about my c. se, and I always recommend it as one of the best of modicines for such troubles, for I have used most all other modicines for similar. I have used most all other medicines for simila troubles without benefit." Such an emphatic endors ment from such a source ought to be perfectly con vincing to all sufferers. Dr. Kennedy has used FAVORITE REMEDY in his practice for twenty years. It is purely vegetable, non-alcoholic, safe sure, efficient if taken as directed. Try it.
