CONGRESS-AT-LARGE, GENERAL W. W. H. DAVIS, OF BUCKS COUNTY.

Senator Bayard, Delaware's noblest son, gives Cleveland and Hendricks his warmest support.

Democrats all over the country are wild with joy over the nomination of Cleveland and Hendricks.

Judge Thurman, one of the country's purest and noblest Democrats, strongly endorses Cleveland.

"Grover Cleveland," says the Philad. Press, in behalf of Blaine, "has no past." There are thousands of voters in Mr. Blaine's own party whose chief objection to Mr. Blaine as a candidate is that he has too much past. It is a past defaced with great and indelible stains.

The Republicans have Blaine as the magnetic candidate. The west boasts of a magnetic lady. Now let "dirty-work treasury of the United States." Logan" be shoved off, and the magnetic girl of the west be shoved on and if that don't raise thunder, what will?

It comes very near the old ticket. Cleveland has been the same kind of Governor Tilden was, and provoked the Cleveland and Hendricks and against an additional incentive to the voters who same enemies. Hendricks stands for Blaine and Logan. Sixty-two Republi- cannot support Mr. Blaine, and who are himself, and after the 4th of March next will hold the place in the Government to which the people elected him in 1876.

Some of the Republicans cry against Cleveland, that he once hung a man. As sheriff, in the discharge of his duty, he did hang a man who was guilty. But now the REPORTER would like to ask how it is with you rads who twice swallowed Hartranft for governor after hanging an innocent woman. Mrs. Surratt? We wait for a reply.

The pictures of public men, published by some of our exchanges, are horrid affairs. That put out as a portrait of Gov. Cleveland looks as if he had a big chew of tobacco in each cheek, whereas neither Gov. Cleveland nor the editor of the REPORTER chaw tobacco, Cleveland, however, will chaw up tattooed Blaine and his "dirty John" next November.

The New York Herald prints a column of brief, terse and emphatic opinions of Cleveland's nomination by the leading bank officers and business men of New admit the nomination the best possible. Many of them will support it, while the Democrats and Independent Republicans are enthusiastic. The Herald flies Cleveland and Hendricks at its masthead in big type.

During Mr. Blaine's brief administration of the state Department in the Garfield cabinet he proved himself totally unfit to cope with the diplomacy of other nations. He came very near involving the United States in a war with Chili about the private business of a person who was not a citizen of the United States. He did his best to provoke hostilities with the friendly neighbor republic of Mexico by undertaking to meddle in the settlement of the boundary line between that country and Guatema'a. He left the relations of the United States with a number of foreign states in so with a number of foreign states in so complicated a condition that his succesgor found it very delicate and difficult task to disentangle them. It is therefore not a matter of wonder that the business men of the country regard him as an im-proper and unsafe candidate. and conductors worked fewer hours they would receive less pay, and the bill day.

It is said, furthermore, that the Cabinet are entirely in sympathy with Arthur, with the exception of Chandler and possibly Gresham. Folger has been heard to say plainly that as the Blaine men in New York staid at home when he was a candidate against Cleveland, therefore he will not lift his hand for Blaine against Cleveland.

We are told that if the tariff is taken off we will be forced to compete with and brought to the level of the pauper labor of Europe. That's too thin. We know while they are slyly whispering pauper labor in our ears, they are at the same time negotiating for the importa-tion of these hordes as fast as they can procure them. That's the kind of protection these magnanimous politicians give us. We have had the tariff for the last 20 years, and has it improved our condition? We had the tariff in 1876 when the labor riots occurred, and we have tariff in 1884 with prospects just as gloomy. Let us have a change. Under a tariff for revenue only times cannot be much worse. THE FACTS ABOUT CLEVELAND'S VETOES. [Philadelphia Times.]

The grounds upon which it was sought to create prejudice against Gov. Cleve-land are his vetoes of the 5-cent fare bill, the machanics' lien bill and the bill regulating the hours of labor of drivers and

conductors of horse cars. The bill fixing the fare on the elevated vested in the corporation by a previous Legislature. In that act the regulation of fares was distinctly surrendered by the State until the net earnings should reach a given sum. In spite of this agreement in the contract the Legislature of 1883 fraud presses upon the public treasury passed a bill making a uniform rate of under the specious plea of party advanfive cents. The Governor vetoed it on tage. York City. The strongest Republicans the ground that the Legislature could not abrogate a vested right. There was not the slightest doubt that the courts of

That the proposed reductions were only of the slightest interest to workingmen is shown by the fact that the rate had long been five cents from 5.30 to 8.30 a. m. and from 4.30 to 7.30 p. m. The reduction of fares at other hours in the day was a manifest advantage to bankers. brokers, business men and amusement seekers, but not of the smallest interest Governor Cleveland because they know to laboring men and mechanics, who already had the privileges the vetoed bill short-lived and a feeling of satisfaction a candidate whom be believes to be per-who had the plack and the result of the veto was able man will be whipped in to vote for a candidate whom be believes to be per-who had the plack and the result of the veto was able man will be whipped in to vote for sonally discussioned for the veto was able man will be whipped in to vote for sonally discussioned for the veto was able man will be whipped in to vote for a candidate whom be believed to be per-If Conden had been a star route thief to oppose such futile legislation even at tained. The Governor also interposed his veto to the mechanics' lien bill. The original intention of this bill was to give mechanics power to secure their wages by means of liens. But it was so amended that its purpose was either obscure or lost. It gave parties four months after performance of work or furnishing of material to file a lien, a period rediculously prolonged. It also allowed the same costs as in foreclosures, which in the case of small the world they could not reasonably expected by the control of the case of small the world they could not reasonably expected by the control of the case of small the world they could not reasonably expected by the control of the case of small the world they could not reasonably expected by the control of the case of small the world they could not reasonably expected to the case of small the case of small the world they could not reasonably expected to the case of small the world they could not reasonably expected to the case of small the ca bills would have been so enormous as to eat them up entirely. One charge remains against Governor Cleveland's vetoes. The last Legislature made a small appropriation for a charitable institution known as the Weschester Catholic Protectory. The Governor struck it out and the charge has been made that he was hostile to the Catholic Church as such. Mr. Henry L. Hoguet, president of the Protectory, says on this question:

We never doubted the sincerity of the motive which induced Governor Cleveland to withhold his signature to the appropriation to the Protectory; we thought hen and think now that he was not actuated by any feeling of bigotry or hostility to Catholics or the Catholic institu-WORKMEN GETTING THEIR EYES tion. On the contrary, Gov. Cleveland is liberal in the extreme, and we are of the firm belief that he was led to withholding his approval of the appropria-tion solely by a sense of public duty as he viewed it.

Upon these facts are based all the charges made against Gov. Clevelend by

A Man in whose Person the Actual Issues are Defined.

[From Harper's Weekly.] The nomination of Governor Cleveland defines sharply the actual issue of the presidential election of this year. He is seal presidential election of this year. He is a man whose absolute official integrity has never been questioned, who has no laborious and doubtful explanations to undertake, and who is universally known ertion. As 1300 triumphs were required as the governor of New York elected by to fill a gill measure the labor was too an unprecedented majority which was exhausting to depend upon them to susnot partisan, and represented both the votes and the consent of an enormous body of republicans, and who as the chief executive of the state has steadily withstood the blemishments and the threats of the worst elements of his party, and bas justly earned the reputation of a corageous, independent and efficient friend and promoter of adminstrative reform. His name has become that of the especial representative among our public men of the integrity, purity and economy of administration which are the objects of the most intelligent and patriotic citizens. The bitter and furious hostili ty of Tammany hall and of General But-German. So firm and "clean" and independent in his high office has Gov. Cleveland shown himself to be that he is denounced as not being a democrat by his democratic opponents. This denunciation springs from the fact that he has not hesitated to go out on a strike at 7 o'clock to-morrow prefer the public welfare to the mere in morning, if the builders refuse to grant terest of his party. Last autumn when their demand that a day's work shall be the democratic district attorney of nine hours instead of ten. This kind of courage railways at five cents abrogated a right and devotion to public duty in the teeth of the most virulent opposition of traders of his own party is unusual in a public man, and it shows precisely the executive quality which is demanded at a time when every form of speculation and

The argument that in an election it is not a man but a party that is supported, and that the democratic party is less to the state would have taken the same be trusted than the republican is futile at a time when the republican party has nominated a candidate whom a great body of the most conscientious republicans cannot support, and the democratic party has nominated a candidate whom a great body of the most venal democrata practically bolt. Distrust of the democratic party springs from the conduct of the very democrats who madly oppose they cannot use him. The mere party argument is vain also, because no honorwho had the pluck and the intelligence the ground that a party ought to be sussustain his party for such a reason, and the honest republicans who propose to vote for Mr. Blaine will do so because they do not believe, as the protesting republicans do believe, that he made his official action subserve a personal advantage. Nothing is more hopeless than an attempt to pursuade such republicans to

Greely, Sergeant Brainerd, Serg't Fredericks, Serg't Long, Hospital Stewart Beiderback, Private Connel and Serg't Ellison, the only survivors of the Lady Franklin Bay Exposition. Serg't Ellison had lost both hands and feet by frost bite and died July 6 at Good Haven, three days after amputation, which had become imperative. Seventeen of the 25 persons composing this expedition per-ished by starvation at the point where which it is sought to raise objections to found. One was drowned while sealing him among the laboring and religious to procure food. Twelve bodies of the dead were rescued, and are now on board the Thetis and Bear. One Eskimo was buried at Disco in accordance with the desire of the Inspector of Western Greenland. Five bodies buried in the the approval of the Minister of Public ice near the camp, were swept away to sea by winds and currents before our arrival and could not be recovered.

When the provisions were consumed the party was forced to live upon boiled tain life entirely. The channel between Cape Sabine and Littleton Island did not close on account of violent gales all winter, so that 240 rations at the latter point could not be reached. All of Greely's records and all instruments brought by him from Fort Conger are recovered and are on board.

COUNTRY HOUSE IN KENTUCKY.

English novels have made the novelreading world familiar with the characteristics of English country gentlemen: their hospitality, their broad acres, and above all, the comfort of their homes. Around their hearthstones gather their friends from far and near, and all the comforts and all the refinements of modern civilization are called in to make them happy. It is the same at Mt. Sterling. There is none of that pretentions shoddiness which so disgusts one among the wealthy parvenues of the large commercial centres. Comfort, not style, elegance, not attempted show, are the rule. The house is large and roomy, and seems to be meant to accomodate a large number of guests, as no doubt it does, Every room is a model of comfort.
