A Card From Mr. Alexander.

To the Democrats of Centre Co.: Having learned that my name has been menoned both by personal friends and political foes as a possible candidate for the Democratic nomination for the lower house of the Legislature, and as many friends are asking me every day what I desire to do in this matter, I deem it right that all Democrats should be informed as to my posi-

It has been a life-long custom," (not, however, without exception,) to give members of the Legislature at least two terms, B. F. Hunter and Hen. ry Meyer were duly elected by the Democrats in 1882. They have served but one term. Why should they not be returned? I have watched their record carefully, and I see nothing in it that ought to exclude them from a re-election. Yet it is reported to me that there is a general desire among Democrats that new men should be taken at this time in order to insure success. I do not believe it necessary to insure success. If they receive the nomination every Democrat will or should vote for them according to the usages of the party unless he can assign some better reason for not doing so than I have yet heard. But a number of new men are in the field (see announcements in the papers,) and I have been urged to be one of them. To this request I have miformly replied that I did not want the office. have served two terms in the House of Repreentatives and two sessions in the Senate of the State. I did the best I could to serve the people and yet I have found a number who, without understanding the questions, find fault with my course. I could not serve everybody according to their diversified views on public questions. Two years ago, according to the custom of the party, was entitled to and did receive a re-nomination for a second term in the State Senate, but a comination was made against me which I saw would require more effort to overcome than the honor or he profits of the place would justify, and hence I lectined a nomination fairly made, and left the field open to those who opposed me. Now I say to my friends that I have no political debts to pay. Those who opposed my just nomination I shall not in any manner oppose. As for myself I do not seek the office.

thould seek the man and not the man the office. This is the only way to prevent a recurrence of the factional quarrels; within; the party-with which it is again threatened. The system of electioneering for positions of public trust is pernicious and destructive to the welfare of the party as well as the public service. The people should elect the best men for the places regardless of the importunities of candidates or their friends. The next session of the Legislature will be an mportant one; Legislative, Senatorial and Congressional apportionment bills must be passed. Where will Centre county be placed in these several laws? None but men of experience in leg-

How Watch Cases are Made.

This process of manufacture was invented by James Boss, who started in business in 1854, and the methods and tools used in under this process. For many years the introduction of these goods was slow, owing to popular prejudice against "plated" goods, but gradually the public learned that the goods and mackerel. Our meat market James Boss' Gold Watch Case was not a cheap gold-washed or electro-plated article, but was made of genuine gold plates of standard quality and thickness. Conscientious adherence to the determination to make the best watch case ever put on the market, and the adoption of every improvement suggested, has made the James Boss' Gold Watch Case the STANDARD. In this watch case the parts most subject to wear-the bow, erown, hinges, thumb-catches, etc., are made of solid GOLD.
