Scientific

The latest definition of life, as promulgated by the Haeckelists in Science, is "concurrent, metabolic synthesis and dialysis of a complex hydrocarbonous molecule, whereby carbon is constantly converted by oxidation."

Magitot, of Paris, who has long been engaged in differentiating between tic douloureux and dental neuralgia, has come to the conclusion that there is no definable specific difference between the two complaints...

Cremation of the dead has received the approval of the Municipal Council of Lisbon, Portugal, a resolution having been passed by that body rendering cremation compulsory in times of epidemic, and prescribing that once in every five years the remains of interred bodies shall be burned.

The popularity of carbolic acid as a disinfecting agent is rapidly subsiding, and solution of corrosive sublimate is now substituted for it in many of our large hospitals.

The use of the hypodermic needle, instead of the lancet, in the process of inoculation, has been discussed by the Academy of Medicine of France, with conclusions favorable to the former...

Among the new applications of cotton is its use, in part, in the construction of houses, the material employed for the purpose being the refuse, which, when ground up with about an equal amount of straw and asbestos, is converted into a paste...

Herr E. Landrin in a paper on the theory of cement hardening calls the silica which has been precipitated from a silicate by an acid and ignited at a red heat "hydraulic silica."

Prof. Julius Von Haast holds that, although, as far as geological and other researches have yet gone, the antichthon of New-Zealand cannot boast of great antiquity when compared with the inhabitants of the Northern Hemisphere...

Dr. Brown-Sequard believes that the conversion of venous blood into arterial, accompanied by alteration of color and plentiful admixture of oxygen, which takes place in shock, is due to nervous inhibition of the circulation of gases and their passage from tissue to tissue.

M. Gayon has obtained illuminating gas from stable-yard manure kept in close receptacles. One cubic metre of fresh horse-droppings yielded about 3.53 cubic feet of carburated hydragen in 24 hours.

It has been discovered by experiments with dogs placed under the influence of morphia even to coma, that the hypodermic injection of solution of this is, the active principle of tea, is an almost instantaneous antidote, neutralizing the effect of the narcotic, and reviving the animal...

Anthrax of man, wherever it occurs, is a very fatal malady. Dr. J. P. Land has prepared microscopic specimens of the peculiar bacillus which produces it. The spores of the disease are no doubt conveyed frequently in the skins and hides of animals which have been tainted with the distemper, and persons handling such infected dry hides become affected with the virus, the germs developing in the usual manner of the low organisms.

Recent investigations have shown that the tendency to the deposition of adipose in persons in fair health is constantly associated with a perversion of the digestive function, in the operation of which the conversion of the carbohydrates of food is accelerated, while the assimilation of albuminoids is prevented or retarded.

CARRIAGE-RUNNERS.

The Japanese hack resembles a large, two-wheeled baby-carriage drawn by a man. It is called jin-ri-ki-sha, Chinese for "man-power-carriage, or Kiu-uan, Japanese for wheel or vehicle.

Delphi, Ind., July 28.—A fifteen year old son of Wm. Shaffer was found hanging in his father's barn today. The theory is that he was trying to perform some sort of trapeze act which he had recently witnessed at a circus and made a fatal error.

If you want a good Truss go to the Centre Hall drug store. If you want good shoulder braces, suitable for ladies and gentlemen, and at reasonable prices, go to the Centre Hall drug store.

THE HOUSE-MARTIN. The most extraordinary characteristic of the house-martin is the determined propensity it has for domestic life and the rearing of large families.

At a large clothing factory in Staffordshire the operatives, some 700 in number, are provided with dinner, tea, and club rooms, a kitchen, a savings bank, and a surgery.

John Russell (colored) was engaged in plowing near Fredericksburg, Va., and had set fire to the stubble so it would burn off. While the fire was burning near the bank of Hazel run, he says, it occurred to him that he ought to unhitch his horse and shelter himself behind a tree near by from some danger, he knew not of at the time.
