AGRICULTURE.

To decide when the trees are just in the

before, it would be about right. Trees

to bud well, ought not to be more than

from three to five-eighths of an inch in

diameter; and it is best to bud them

so near the ground that when the reset

roots may come from the budded por-

tion of the tree. Peach and cherry trees

should be budded on the north or north-

ever found is the old cotton wicking,

which at the present time is difficult to

buy. Most of nursery men use matting

for strings, but it is hard and not so

yielding as wicking. If the trees grow

much an unyielding string must be re-

tied to loosen it, but wicking will yield

enough so as not to injure the tree, un-

PLASTER -Land plaster, or gypsum

of sulphuric acid, 36 pounds of lime and

and twenty-one pounds of water. It is

ground fine and thus applied to land or

crops. When it is heated to redness the

water is driven off and the residue is

easily reduced to a very fine powder.

and is known as the plaster of Paris used

by masons. The theory of the benefi-

cial action of land plaster upon the

crops has long been, and still is, a sub-

ject of dispute. That it supplies lime

and sulphuric acid to plants to some

extent is probably true, but it is now

generally admitted we believe, that gyp-

sum is chiefly useful by its powder of

solidifying and retaining hte ammoniacal

glasses of the earth and air. For wheat

and corn it has not proved satisfactory,

pounds of gypsum consists of 46 pounds | cold,

less it makes a very large growth.

DOMESTIC.

A vERY important thing in the pre-BUDDING TREES.-Every person who serving of fruits in syrup is to have the cultivates even a small farm should latter of the proper strength. Sugar, learn the art of budding trees. To learn to set a bud is a work so easily acwe know, ferments readily, but only when dissolved in a sufficient quantity complished that any boy 10 years old, of water. When the quantity is with orainary capacity for learning, just sufficient to render it a strong may in fifteen minutes learn to set a syrup it will not ferment at all. The bud so it will live, and any man of comright degree of strength for the premon intelligence can learn from cuts serving of fruits, so that there may be and descriptions given in books on neither fermentation nor crystallizafruits, with a very little practice. The tion, may be obtained by dissolving mechanical labor of setting the bud double refined sugar in water in the does not require the practice and judgment it does to decide on the best buds proportion of two parts of sugar to one of water and boiling it a little. The to select from and at the right time to degree thus obtained, which is the set them. A bud to be in just the right proper one for the preserving of fruits, state to work well should be well mais technically known as smooth. In tnred; and yet the twig from which it is preserving fruit whole it is necessary taken should not have been stopped that this syrup should penetrate every growing long enough for the sap to have portion of it; therefore, to aid this, the stopped flowing. Careful observation fruit should first be blanched before it and some practice is required to decide is boiled in the syrup. which are the best twigs to cut for buds.

Blue Grass Breeders.

right state to bud is even more difficult Mr. R. S. Withers of Fairlawn Stock than to decide what buds to select. If a Farm, Lexington, Ky., writes: "I have tree has stopped growing it is difficult to such confidence in St. Jacobs Oil, the make a bud live, and quite impossible great pain-cure, that I use it on everyif the flow of sap has stopped. If a tree thing: myself, my horse, my negroes. grows too much after it has been budded Everybody and every horse, for all the string cuts the tree badly and the kinds of aches and pains, believe in its bud is left sunk too deep in the tree. If sovereignty as a cure." one could know when a tree would stop growing, and bud it two or three weeks

CABBAGE SALAD, -One small head of white cabbage, sliced fine with a keen knife. Chopping bruises salads of the green kinds. One-half cap of boiling milk; one tablespoonful of butter; one beaten egg; one tablespoonful of white sugar; pepper and salt to taste. Scald the milk in one saucepan, the vinegar in another. Put into the latter, when west side. The best string we have hot, the butter, sugar, pepper and salt, boil up once and stir in the shred cabbage. Cover closely and draw to the side of the stove where it will scald, but not boil. Pour the hot milk on the beaten egg. Return to the fire and stir until it begins to thicken. Turn the cabbage into a bowl, pour the hot milk-and-egg upon it and mix thoroughly with a fork. Cover the bowl while the contents are hot, and set is sulphate of lime. One hundred away where it will cool suddenly. Est

Health Is Wealth.

It is worth more than riches, for without it riches cannot be enjoyed. How many people are without health who might regain it by using Kidney-Wort. acts upon the Liver, Bowels and Kidneys, cleansing and stimulating them to healthy action. It cures all disorders of these important organs, purifies the blood and promotes the general health. Sold by all druggists. See advt.

mould about three inches deep with short paste. 'I'ake some stoned cher ries, sliced peaches, apricots, nectarines and gooseberries; stir well in a bowl with some powdered sugar; pour into the mould and bake in a quick oven. Crack the apricot stones, blanch the

chocolate, one pint of boiling water; let If the fruit seems too dry pour a little it simmer for a few minutes, then take | clarified sugar over it before taking out Twenty-five Per Cent. Stronger than any Other Butter Color. BURLINGTON, VT., May 3d. 1882. I hereby certify that I have examined the Butter Color prepared by Wells Richardson & Co., and that the same is free from alkali or any other substance injurious to health; that I have compared it with some of the best of the other Butter Colors in the market and find it to be more than twenty-five per cent, stronger in color than the best of the others. I am satisfied that it is not liable to become rancid, or in any way to injure the butter. I have examined it after two months free exposure to the air in a place liable to large changes of temperature, and found no trace of rancidity. while other kinds similarly exposed A. H. SABIN. became rancid. lowest working which will keep the sur- Prof. Chemistry, University of Vermont.

HUMOROUS.

A GENTLEMAN ON East Fourth street found a ragged tramp sitting on his front steps eating his lunch.

"Here! What are you doing there?" he shouted.

"Partaking of a slight lunch. you join me?" the tramp politely re sponded.

"No, I don't want any of your villainous feed."

"That's so; it is pretty tough kind of fodder. I just got it out of your kitchen. Your wife must be doing her own cooking now."

"What's that, you infernal hound?" exclaimed the angry man, starting toward the tramp, still sitting quietly on the step.

"Don't get excited. Think a minute. Aren't you mistaken in calling me a hound?

"No I'm not, and I'll-"

"But, my, dear sir, you are mistaken. am no hound, I'm a setter."

The gentleman gazed at the tramp in admiration, and muttering something about a newspaper paragrapher gone astray, he left him to finish his lunch.

important.

When you visit or leave New York City, save Baggage Expressage and Carriage Hire, and stop at the Grand Union Hotel, opposite Grand Cen-tral Denot

at the Grand Union Hotel, opposite Grand Cen-tral Depot. Elegant rooms, fitted up at a cost of one million dollars, reduced to \$1 and upwards per day. European Plan. Elevator. Restaurant supplied with the best. Horse cars, stages and elevate1 railroad to all depots. Families can live better for less money at the Grand Union Hotel than at any other first-class hotel in the city.

....

ONE of the Auburn School Committee visited the school in the Barker Mill district last week. The scholars were answering a few closing questions from the visitors. "What is the holiday to-morrow?" was asked. "Decoration day," was the reply, in a shout. "What do they have Decoration day for?" "To decorate the soldiers' graves," said several. "Why should they decorate the soldiers' graves any more than yours or mine?" There was a long silence. One little fellow finally stuck up a hand in the further corner of the room. The visitor asked him to speak. The boy said: "If you please. sir, I thick it is because they are dead and we ain't."

A Cure of Pneumonia.

Mr. D. H. Barnaby, of Owego, N. Y., mys that his daughter was taken with a violent cold which terminated with pneumonia, and all the best physicians gave the case up and said she could live but a few hours at most. She was in this condition when a friend recommended Dr. Wm. Hall's Balsam for the Lungs, and advised her to try it. She accepted it as a last resort, and was OPEN FRUIT . TART .- Line a plain surprised to find that it produced a marked change for the better, and by persevering a permanent cure was effected. ----

> A SAN FRANCISCO showman is advertising a troupe of educated flies. If he will send one on here to teach others how to walk around the edge of a milk pitcher without falling in, he will gain everlasting fame.

"TICKETS, please," said the conduc-

tor, as the train pulled out of the Grand Central Station last night. "Ab. owing to my delayed appearance at the deppo," said a young lady passenger, "caused by a most unfortunate chain of circumstances, quite unnecessary to particularize, I found it impossible to possible purchase a ticket in time to catch the train. Would it be conformable with the rules of the company, sir, if I were to tender my fare to you?" "Not-not entirely," gasped the frightened con-ductor "Bu-but in this case I will make it so. Your fare to Boston, madame, is \$5."

A CITIZEN who applied to the Fire Marshal the other day for a building permit was refused on the ground that the fire limits prohibited the erection of such a structure. After spouting his indignation in round terms, he added:

"I wouldn't be found dead in such a city as this!"

"As for that," slowly replied the Marshal, "it won't make much difference were you die. You'll probably come within the fire limits anyhow.'

"HELLO! Johnny, where ve you been all the morning?" asked one urchin of another as he appeared in the schoolroom during the afternoon session. "Been fishin'," was the rejoinder. Ketch anything'?" "Yes-a lickin',' and the second class in geography stood up.

Nor as bright as might be: They tell a good story about a kind-hearted old soul who used to have charge of a station pretty well on toward the southern terminus of the Delaware Railroad, "I've got enough of that white oil," he wrote to the superintendent, "send me some red oil for my danger signal."

No difficult job: "I hate to see a man hesitate a half hour before making up his mind," said Fishton; "it don't take me half a minute to make up my mind." "I shouldn't suppose it would take nearly so long as that, was Fogg's laconic remark.

An exchange wants to know "how to smoke a cigar?" whereupon a longhaired Chicago editor rejoins: "Our knowledge is somewhat limited, but we should think the cigar ought to be hung up in the smoke house, and a fire built under it."

ELLA WHEELER asks in a frenzy: "Is there anything higher that a boy's ambition, than wingeth away to the sunriven skies?" Did Ella ever timidly inquire the price of the first straw berries of gentle spring.

PIAZZA SCREEN, - Screens for the piszza to partially ward off the breeze that may be too boisterous for the sitter's comfort, can be made by using a tall clothes-horse for the frame, and covering each part with matting, which can be tacked to the uppper and lower cross pieces. To make the screen ate. German Corn Kemover kills Corns and Bu more fanciful, embroider the matting in an immense cross stitch, forming a ado and frieze, with two broad stripes of work, if those terms are applicable to anything but walls. Then paint or stain the uprights in imitation of any wood that will harmonize with the surroundings, or ebonize it and put bands of gilding near the top and bottom of the poles.

but on clover, sanfoin and leguminous plants generally its useful effects are not Take four teaspoonfuls of grated kernels and garnish the tart with them.

the yolks of two eggs, two teaspoonfuls of the oven. of corn starch, six tablespoonfuls of sugar. Stir this mixturo together and boil until thick, like boiled custard (and, by the way, cook it in the same way, by setting the dish in boiling water, so as to avoid all danger of burning). Make a crust as for lemon pie, bake it and then put it in the cooked chocolate. Beat the whites of the two eggs to a stiff froth, beating in a teaspoonful of pulverized sugar; put this on the top of the pie and set it in the oven to brown. Serve cold. It is not at all difficult to make and ought to be a perfect success.

THE Kansas Farmer thinks deep working of growing corn is not good. It tears away roots that are needed to hurry the growth of the corn, and it tends to hasten evaporation. If ground is well prepared for planting, the shalface loose and destroy the weeds, is the best. It is a mistake to run the teeth or shovals away down where the roots ought to enjoy absolute freedom.

marked with a thin coating of tallow or parsley, pepper and salt to taste, and beeswax. Then, with a sharp instrument, write the name in the tallow, cutting clearly into it, Then fill in the letters with nitric acid, let it remain from one to ten minutes. Then dip in water and run off and you will leave the square of bread nicely fried in butter. mark etched.

ALL manures deposited by nature are left on or near the surface, The whole tendency of manure is to go down into the soil rather than to rise from it. There is probably very little if any loss of nitrogen from evaporation of manure. unless it is put in piles so as to ferment. Rains and dews return to the soil as Mons. Pasteur, for the prosecution of much ammonia in a year as is carried his scientific investigations. off in the atmosphere.

IF you do not bank up your celery you can plant in closer rows. Try some of it this way, and when the time for blanching comes tie up each plant closely in old newspapers. It is said the stalks will bleach under this treat- for 2 cent stamp. ment in from ten to twenty days.

WrrH a good cow to begin with, fed very liberally and given the best of care, a "one-acre farmer" says he makes 500 pounds of butter per year, leaving a snug margin of profit. He admits that if she were an inferior animal he could not afford to keep her.

secticides. A brood of these should be hatched out under a hen, and the crop of the hen set up in the garden. From this castle the young birds will make raids upon the bugs and beetles.

A MAN with a sharp-toothed rake or a hoe can go over four times as much land now in an hour as he can after the weeds are grown. The best time to kill weeds is before they are born.
