-- Nothing serves so well to keep men in a good humor as a well-cooked, tempting meal, and plenty of it. There is no complaint against cooking in families where the groceries are bought of Sechler's, at Bellefonte, because everything is pure and fresh, and the good house wife is not disappointed when she uses Sechler's groceries.

THE MINERS RIOTING.

Columbus, Ohio, August 31.-Reports have come from the Hocking valley to the effect that the miners at Snake Holw made an attack on the guards at two o'clock this morning, one of them being killed and two wounded. It is reported about 3,000 miners who came from the sarrounding country made the attack. The telegraph lines are all cut and sheriffs in that vicinity are thus prevented from communicating with the governor in order to call out the militia. One of the hoppers was burned during the night entailing a loss of \$4,000.

A WESTERN HORROR.

A Terrible Scene at the Burning of a Circus Car.

Denver, Col., August 29.-The burning of a circus car nine miles north of Greely was attended with indescribable horrors. The burning car was next to the engine n a train of seventeen cars containing Orton's Anglo-American circus. There were sixty men in the car. The only means of egress was through a small winlow between the car and engine.

The screams of those unable to get brough the blockade to the aperture were terrifying. In the midst of the confusion two or three heroic souls appeared qual to the occasion. They bravely cut heir way to their companions to find hem already in the agony of death. Albert Lake, in charge of the animals, and his friend Kent walked over cactos in their bare feet pouring buckets of oil on the blistered unfortunates and wrapping them in blankets. An old Pacific coas soldier named McDonald, was terribly burned, his fi 'b hanging in shreds. The neart-rending cries of the men on the prairie, smothered appeals of the dying within the car, the roaring flames and the howling of the animals made the situation tearible beyond description. The odor of the roasting flesh and the distant ery of the coyote added to the general windows of the car had their limbs broken and joints dislocated.

At daylight a flat car carried the charr ed bodies into Greely for interment. The county commissioner buried the remains in a coffin seven feet wide and ten feet long in the Greely cemetery.
