

Mr. JACOB SCHNEIDER and Heinrich Baumgarten, two honest, hard-working Germans, settled on the clear fork of the Sandles, in Gonzales county, about the year 1848. They picked up some little knowledge of the English language from their scattered neighbors, and in 1850 were somewhat inoculated with the customs of the people. Schneider sold a horse to Baumgarten on six months credit and got a neighbor to draw up the note for the money. Baumgarten signed the note, and then said to Schneider: "Vat I must do mit dese note?" Schneider said: "You geets der note, den you nose ven you geets der note?" Baumgarten said: "Dot ish goot." At the end of six months Baumgarten brought the money and the note to Schneider and paid him the money and said: "Now you dakes de note, den you all dimes dese de money ish laid." The names used in this little anecdote are fictitious, but the balance of it is true history.

English Trade-Marks.
Mr. Edward Waters, Patent and Trade-mark office, 87 Burke Street, Melbourne, Australia, writes: "One of my household suffered with tooth-ache and rheumatism and after trying numerous other remedies without relief, tried Dr. Jacob's Oil. It was rubbed on the cheek and plugged in the tooth, and well rubbed in for rheumatism. In both cases the cure was immediate and complete, and in neither case has the pain returned."

A GEORGIA man hearing a noise like a rattle snake in the hotel, went into a friend's room and saw to his intense surprise five huge rattlers crawling around the room, while his friend sat unconcernedly at a table writing a letter. "Great Jehovah, Jim!" he exclaimed; "do you see those snakes?" "Snakes? What snakes?" returned James. "Why, all around the room—there—everywhere." "O, no," replied James, "not at all. I thought so myself at first, but I've had 'em too often to believe all I see."

New Catalogue of Organs.
THE MASON & HAMLIN Organ and Piano Company have just issued their new Catalogue for the season of 1884-5. It forms a handsome 400 page pamphlet of 46 pages, and contains illustrations accurately showing the appearance of all the styles of organs regularly made by them, with detailed descriptions of the capacity of each; together with quite full mention of the general modes of construction employed and the great favor with which their organs have been received all over the world; with accounts of their triumphs at all the great exhibitions of such instruments as World's Industrial Exhibitions for many years; with pictures of medals, decorations and diplomas of honor obtained.

In looking over such a catalogue one is forcibly reminded of the magnitude which the business of reed instruments has attained. Twenty-five years since only a few were made, under the name of "Moletoons," which had not and did not deserve much favor with musicians, enjoying very limited sale, at prices varying from \$40 to \$25. Now 80,000 organs are made yearly in the United States, which are sold in all civilized countries at prices from \$22 to \$1,000 or more.

Minks.—"Things seem to have gone wrong with you. Don't want to hurt your feelings, but I can't help noticing that you look very seedy."
Winks.—"Yes, I've been speculating."

Minks.—"Well, I suppose you had better sense than to go into Wall Street. Did you go in of your own notion?"
Winks.—"No; I was taken in."

IT TAKES an Irishman to hit the nail square on the head every time. A monopolist in this section, employed a large number of men, at the lowest possible wages, said to an Irishman his employer: "Pat, I hear you are going to vote for Cleveland." "Faith, I think I will," said Pat. "Now look here, Patrick, if Cleveland is elected your wages will not be more than fifty cents a day." "Arrah, now, what's that you're givin' us," said Pat; "if you really thought so you'd vote for him yourself!"

Merited Praise.
The universal praise bestowed upon Kidney-Wort as an invaluable remedy for all disorders of the Kidneys, Liver and Bowels, is well merited. Its virtues are universally known and its cures are reported on all sides. Many obstinate cases have succumbed to it after they had been given up by the doctors and a thorough treatment will never fail to cure. Sold by all druggists. See adv't.

"Look heah!" said old Silas, meeting the Governor of Arkansas, "da tell me dat de cholera hab got er' special spite at de niggers."
"Yes, it carries them off," the Governor replied.
"Uh, uh. It's er sorter Democrat 'zease, ain't it? De yaller feber is sorter in favor o' de 'publicans. It am strange wut campaign 'fluences de white folks latches ter bar on de situation."

Creamey Man.—"Yes, the cheese is a little old, I admit; but do you notice what a rich yellow it is, just like gold?"
Customer.—"The color is certainly all that could be desired."
"I pride myself on that, and as I have no name for the brand I have been thinking of calling it the 'gold brand.'"
"Would not 'gold dollar' brand do better?"
"Perhaps; but why?"
"Oh, you know all the world prizes the mitey dollar."

THE "utterly utter" kind of talk has infected the street gamins, one of whom, after picking up a more than usually fragrant cigar-stump, exclaimed to his friend: "Jack, this is quite too positively bulky."

THESE are plenty of Detroiters who still believe that immortal guy in which Charley Blanchett and a white dog feast were the salient points.

The latest feminine idiosyncy that has seized Detroit is gum-chewing. The attack is virulent.

Ma. whispered Pinder Fitzgober, after the funeral of a friend, "do you know where he went?"
"Hush, child," cautioned the mother, who saw that the question had been overheard, "of course I don't, and no one else does."
"I do," yelled the boy, brightly, "he went to the cemetery."

Boiled Flour Gruel.—Boiled flour gruel is very good in cases of sickness in which the strength is very much reduced. To prepare the flour, put into a basin as much as it will hold, pressed tightly down. Then tie a cloth over it and allow it to boil hard for six hours. Then take off the cloth, and let the flour stand in the basin till the next day, then remove the crust which will have formed, and put the remainder away in a covered jar. For use, mix four tablespoonfuls of the flour smoothly into a paste, then pour on it half a pint of boiling milk of water, and boil for ten minutes, constantly stirring to avoid lumps. Brandy, sherry, lemon juice or cream may be added, according to taste. Gruel may also be made from baked flour, but it is not so easy of digestion.

A Texas young man shot himself because a young lady refused to dance with him. In his blind rage he probably mistook himself for a rival.

THE author of the "Little Brown Jug" was probably in a jugular vein, when he wrote that sometime popular ditty.

TO KEEP eggs the "year round," take one pint of salt and one quart of fresh lime, and slack with hot water. When slacked, add sufficient water to make four gallons. When well settled pour off the liquid into a stone jar. Then with a dish place the eggs in, tipping the dish after it fills with the liquid, so they will roll out without cracking the shell, for if the shell is cracked the egg will spoil. Put the eggs in whenever you have them fresh. Keep them covered in a cool place and they will keep fresh for one year.

PREPARED PEARS.—At this time of the year a good many families have such quantities of ripened pears that they can neither eat nor profitably dispose of them. A lady who has tried it finds this an excellent use to make of them: Cut them in thick slices, stew them, and then, in an open oven dry them thoroughly, if it takes two days. They come out all honeyed over with their own sweetness, and fig-like in their substance and consistency, at once suggesting both raisins and figs. And they are excellent eating, far finer than any one would believe without trying. They will keep, it is said, a year or two.

IN every student-lamp, never let the oil accumulate in the cap below the wick, but pour it out at least once a week. Let everything used about lamps: chimney cloths, rags, scissors, or extra wicks, be kept in the drawer of the table where lamps are kept and cleaned, or if no drawer, in a small box (an empty starch box is good). Burn the rags every few weeks; if allowed to lie filled with oil, spontaneous combustion often takes place.

Now that steam rotary roasters are used, coffee can be much more perfectly roasted in them than at home; but buy it unground and in small quantities, keeping it in a glass or tin can, tightly covered. Java and Mocha mixed, in the proportion of two-third Java to one-third Mocha, makes a rich drink, and never grind till just before using.

Do not use paint or powder if the weather is warm, for it is almost sure to be observed. A light application of rice powder several times a day will keep the face from becoming glossy, and will also cool the skin. Powder the hands and neck also.

A good wash to apply to the face for freckles or tan is made of cucumbers and milk. The cucumber is sliced thinly and crushed in the milk. Rub on the face before retiring. If these rules are followed out you will find yourself better looking and more comfortable than heretofore.

It is all important that apple orchards be well drained. They should be under-drained in all cases, if possible; but if this cannot be done, at least a surface drainage should be given, that all water may run off speedily during the un-congenial fall, winter and spring weather. Trees are very liable to be winter-killed if water settles about them. Keep the earth packed tightly about the base of the tree, and if the land is heavy and flat heap a little earth about it.

The raising of carp has become very popular among gentlemen farmers and even among the owners of small country residences around the suburban part of Philadelphia. Almost every pretty little secluded place has its pond stocked with carp. They are easy to get, as the United States Fish Commission supplies them upon proper application.

"Without delay buy Hop Bitters."
"You will surely cure you."

If you are constive, or dyspeptic, or suffering from any other of the numerous diseases of the stomach or bowels, it is your own fault if you remain ill. If you are wasting away with any form of kidney disease, stop tempting death this moment, and turn to a—cure to Hop Bitters.

A Lady's Wish.
"Oh, how I do wish my skin was as clear and soft as your skin," said a lady to her friend. "You can easily make it so," answered the friend. "How?" inquired the first lady. "By using Hop Bitters," she makes pure, rich blood and blooming health. It did it for me as you observe."

"None genuine without a bunch of green Hop on the white label, shun all the vile, poisonous stuff with "Hop" or "Hops" in their name."
