NEWPORT CORN SOUP. - Take one dozen ears of corn and one quart of cream; cut the grains of corn through the middle with a very sharp knife; scrape them off. Boil the ears in just water enough to cover them, until the sweetness is extracted from them. Strain this liquor, and then take as much of it as you need for the desired quantity of soup, say one quart. Add the cream slowly and stir it gently so that it will not curdle. Put the corn into this and let it cook until tender, Add pepper and salt to your taste.

GRAPE JELLY .- Strip from the stalk some fine ripe black grapes, stir them with a wooden spoon over a gentle fire until all have burst and the juice flows freely from them; strain off, being on your guard that no pressure is applied to the bag; pass it through and through the bag until quite clear; simmer gently for twenty minute, then draw it from the fire and stir in until well dissolved fourteen ounces of extra refined sugar (roughly powdered); boil the jelly quickly for fifteen minutes longer, taking care constantly to stir and skim.

New Catalogue of Organs.

THE MASON & HAMLIN Organ and Piano Company have just issued their new Catalogue for the season of 1884-5. It forms a handsome 4to pamphlet of 46 pages, and contains illustrations accurately showing the appearance of all the styles of organs regularly made by them, with detailed descriptions of the capacity of each; together with quite full mention of the general modes of construction employed and the great favor with which their organs have been received all over the world; with accounts of their triumphs at all the great comparisons of such instruments at World's Industrial Exhibitions for many years; with pictures of medals, decorations and

diplomas of honor obtained. In looking over such a catalogue one is forcibly reminded of the magnitude which is not worth while to do them at all. the business of reed instruments has attained. Twenty-five years since only a few were made, under the name of "Meledeons, which had not and did not deserve much favor with musicians, enjoying very limited sale, at prices varying from \$40 to \$125. Now 80,000 organs are made yearly in the United States, Which are sold in all civilized countries at prices from \$22 to \$1,000

This at least may be said to any purchaser of a Mason & Hamlin organ; he will unquestionably get the very best instru-ment of its class which can be made. Thirty years' experience is a guarantee of what this company can and will do. They can-not afford to send out poor organs.

The present catalogue shows an increased and very complete assortment, both as to cases and capacities. It will be sent free, to any one desiring to see it, on application to the MASON & HAMLIN ORGAN AND PIANO COMPANY, Boston, New York, or Chicago. - Boston Traveller.

"THE BATTLE OF BULL RUN," BY GEN. G. T. BEAUREGARD, graphically illustrated

with more than twenty pictures, is a leading feature of the November number of THE CENTURY MAGAZINE. This article is the beginning of a series of separate papers, to appear in THE CENTURY, on the great buttles of the War for the Union, written by general officers high in command on both sides, including Generals GRANT, LONGSTREET, McCLELLAN, BEAUREGARD, HILL, POPE, ROSECHANS, Admiral PORTER, and others. The aim is to present interesting personal experiences—the officers' own stories of their plans and operations. The illustrations will be full and accurate; and accompanying papers on "Recollections of a Private," also begun in November, will add value to a series which the conductors of THE CENTURY believe to be the most important ever undertaken by them. The November CENTURY also contains first chapters of a new novel, the story of an American business man, by
W. D. Howells; a timely paper on "How Shall we Elect Our Presidents!" short stories by "Uncle Remus" and others, and a number
of striking illustrations. This issue begins a new column. Yearly subscriptions, \$4.00; single numbers, 35 cts. All book-sellers and news-dealers keep it. THE CENTURY CO. N. Y. Publishers. Ask for the NOVEMBER CENTURY.

THE publishers of OCEAN to OCEAN desire to secure the names of one million subscribers. With that number to go before advertisers, who are willing to pay one cent per line per thousand of circulation, or \$40 a line for a million, the profits of the paper will approximate as follows:—RECEIPTS: 1,000,000 subscribers, at £2, £2,000,000; 300 inches advertising space, at \$40 a line or \$40 a inch, \$52 issues, \$3,600,000-iotal, \$5,600,000.
