FONTE. Last Friday night will ever be remembered by Bellefonte people, on account of the magnificent demonstration in nonor of the election of Gr ver Cleve-TERMS -\$2 per year in advance. \$2.50 | land. The town was crowded to its utmost-delegations from Pennsvalley, Nittanyvalley, and other sections of the county were in town. There were ten brass bands. The residences of Democrats were magnificently illuminated.

Fire-works were whizzing in all quarters, a parade of a mile's length made the round of the streets, and everybody seemed to be happy and one continued thunder of hurrahs went up to the clear and star-bespangled welkin.

At 9 a meeting was organized in the court house, with Judge Orvis as chairman. The Judge was greeted with rounds of applause, and made one of his solid, forcible, old-time speeches. Judge Orvis' retirement from the bench is a fortunate thing for the Democracy of the county and state-it brings him back to the immediate work in the pary, with his wise counsel and abuity upon the stump. He was followed by Gephart, Fortney, Heinle and lastly by Gov. Curtin-the crowded house at once rose upon its feet and swinging has and canes and ringing cheers gree ed his appearance in a manner never before witnessed in that court-room. His speech was eloquent and pleasing, earnest and happy, and he sent the crowd home thinking more of him than ever.

There was the best order throughout the entire jollification.

SPRING MILLS' JCLLIFICATION.

Spring Mills had a grand jollification over Cleveland's election, on Monday. Being laid up with a severe cold taken at the Bellefonte jubile-, we were not able to be present; learn, however, that there was a large crowd, parade, fireworks, spee hes, music, and lots of cheering. The houses were brilliantly illuminated, and those on the hill, the hotel, McCool's, and others, made a fine show. On the mountain above there was an immense boofire, which threw its glare miles around, and some of the Repub's found it light enough to proce d with their journey up Salt river. The fire works were the finest yet set off in the valley.

-A large American flag, suspended from Fisher's store to a house opposite,

in Penn Hall, in honor of Cleveland, was stolen Monday night, by Republicans of course. The Ameri an flag should be safe against any Vandal hand even, and it is the last thing we thought a Blaineite would dishonor himself by stealing it. The Penn Hall Democrats will have patriotism enough to get another of the Stars and Stripes, and if the Republicans don't feel ashamed of the first theft why let them steal the new one too. We also learn that during the jollification, on same night at Spring Mills, by the Democrats, all the drums had their strings cut, by some one who of course p t

a Democrat. Such conduct would show that there are Blaine folks who have no regard for the rights and property of Democrats, and that if they could prevent it, there would be no privilege or anorea will not countenance such deeds

the election officers sustained the chailenge. The challenge was based upon the act of 1839, which declares that any one making a bet on the result of the election is disfranchised from voting at such an election. There was no denial by Clothier that he made the bet as alleged. Judge Allison promptly made an order to the effect that the election officers of said division being satisfied that the said George W. Clothier is a qualified elector under the constitution, shall receive his vote irrespective of any evidence that he has made a wager upon the result of the election. An Act of Assembly which adds any qualification to an elector's right to vote not recognized by the Constitution is unconstitutional.

THE WORK OF FIENDS.

Hempstead, Texas, Nov. 14 .- At 1:30 his morning the north-bound train on the Houston and Texas Central railway was wrecked at Clear Creek station, about two miles south of this place, and as far as known ten people were killed outright and fifteen more or less angerously wounded. An investigation by the railway authorities reveals that the dia bolical work was done by discharged employees and thieves in the vicinity who sought to wreck a night train for the spoils it contained. Breaking into a sec tion house the wreckers obtained the necessary tools, and by pulling the spikes and unfastening the fi-h-plates, arranged a rail to yield to pressure without, however, entirely removing it. It so happened that a passenger train having the right of way and being behind hand was first to reach the scene of the disaster. striking the loosened rail the engine and tender got over safely; while two baggage cars, mail and express and two Puilman sleepers went over the threefoot embankment and into the creek.

CHOLERA IN PARIS.

Faris, Nov. 14 .- The cholera epidemic shows little if any effect upon the pleasure seeking proclivities of the people. The theatres and other places of amuse ment are filled every night. It is known that the deadly discase made large rava-ges among the soldiers of the garrison, but the military officials publish no returns and refuse all information. The West end is still healthy, but is compar-atively deserted. Most of the residents in that quarter have fied. The continued cold weather is exercising a favorable effect on the rate of mortality which does not exceed one in 36,000. The ravages of the epidemic are trival as compared with those of typhoid fover. Since mid-night there have been 17 deaths by cholers in the city, and 31 in the hospital. Three deaths from the same disease oc curred to-day at Oran and 1 at Toulon.
