IN THREE STATES AT ONCE.

The Maryland line is about two miles outh of Newark, and the tracks of the Baltimore and Obio extension run across the sharp angle of Pennsylvania, which extends down between Delaware and Maryland, at a point where it is five feet wide. After the first train stopped over the Maryland line most of the persons on board alighted and picked their way 250 feet through the mud and water to -If any of our present subscribers the point in the woods where the three States meet. The spot is indicated first by a long stone just above the surface, which marks Mason and Dixon's line. Beside it is planted a triangular stone, with the initials of Delaware, Maryland with the initials of Delaware, Maryland and Pennsylvania cut on the various sides. On the west side is the following inscription: "Erected by H. G. S. Key, Md.; J. P. Eyre, Pa.; G. R. Riddle, Del., Commissioners, 1849." Some of the visitors mounted the stone in order to say that they sat in three states at one time: others placed their thumbs on the apex of the stone in order to say that they had their thumbs in the three states at one time, while others still stood in the narrow strip of Pennsylvania and ex-tended one hand into Maryland and the other into Delaware. The stone is about three feet high and three sides each about 14 inches wide. It is called a prismatic stone.

ANOTHER HOLOCAST.

Kankakee, Ill., Jan. 18 .- The south infirmary of the Illinois eastern hospital for the insane burned this morning at 4:25 o'clock. The fire originated in the furnace room and had obtained a strong headway before it was discovered. The building was occupied by 45 patients, 6 attendants and a night watchman. Seventeen patients in all) are missing. Thirteen bodies have already been re-

covered, burned beyond recognition. All of the patients were infirm and incurable. The bed-ridden ones were secured first, and those who were able to help themselves did not recognize the danger in time and they were the ones who perished. The attendants lost all jail and cost. AN EXTRAORDINARY OFFER.

To All Wanting Employment. We want live, energetic and capable agents in every county in the United States and Canada, to sell a patent article of great merit, on its merits. An article having a large sale, paying over 100 per cent. profit, having no competition, and on which the agent is protected in the exclusive sale by a deed given for each and every county he may secure from us. With all these advantages, and the fact that it is an article that can be sold to every houseowner, it might not be necessary to make an "extraordinary offer" to secure good agents at once, but we have concluded to make it to show, not only our confidence in the merits of our invention, but in its saishility by any agent that will handle it with energy. Our agents now at work are making from \$150 to \$600 a month clear, and this fact makes it safe for its to make our offer to all who are out of employment. Any agent that will give our business a thirty days trial and fail to clear at least \$100 in this time, above all expenses, can returnal goods ment. Any agent that whi give our business a thirty days trial and fail to clear at least \$100 in this time, above all expenses, can return all goods unsold to us and we will refund the money paid for them. Any agent or general agent who would like to have ten or more counties and work them through sub-agents for ninety days, and fail to clear at least \$750 above all experses, can return all unsold and get their monay back. No other employer of agents ever dared to make such offers, nor would we if we did not have agents now making double the amount we guarantee, and but two sales a day would give a profit of over \$125 a month, and that one of our agents took 18 orders in one day. Our large descriptive circular explains our offer fully, and these we wish to gend to every one out of employment who will send us three one cent stamps for postage. Send at once and secure the agency in time for the boom, and so work on the terms named in our extraordinary offer. We would like to have the address of all the agents, sewing machine soliciors and carpenters in the country, and ask any reader of this paper who reads this offer, to send

A Horrible Story Told at the Inquest by the Murdered Man's Son.

Richfield Springs, N. Y., Jan. 18.—Geo. Druse, the son of Wm. Druse, who, it is alleged was murdered by his wife, told a horrible story of the crime to a Coroner's jury yesterday. He is a lad of ten and quite intelligent for his age. He testified substantially as follows: "On the morning the pistol was used Frank and went out of the house. Pa was eating his breakfast. He did not hear ma tell us to go out. Ma had a revolver in her hand. When I heard the revolver gooff I knew what was up, because ma said last summer she would hurt pa. We did not stay out very long. Ma called Frank in. I stood at the door; it was open when Frank came in. Ma gave him the revolver and told him shoot, as she could not make it go off any more. Frank said he didn't want to. She told him if he didn't she would shoot him. Then Frank shot at pa. I saw blood on the floor only. I saw a rope around pa's neck. "In the morning before the shooting

Mary and ma went into the parlor.

When they came out ma had the revolv-

er and Mary had a rope around pa's neck. Frank shot three times, I think and then took the cartridge shells out Pa was then on the floor. He said, "Oh, don't.' Ma then struck him again with the axe and pa said nothing more. Then ma cut pa's head off and she and Frank carried him into the parlor on a straw bed. Ma sent Frank and me to get shingles. They made up a fire in the parlor with shingles in both stoves. I don't know what they did with the head. Frank and I went up stairs. We staid only a little while and then we went to the woods after the new axe; ma sent us. Pa was then in the other room There was nothing over him. We set the axe down in the kitchen when we got back. They told us to go up stairs again. Frank went down after a spell. Mary called him down and I then heard pounding in the parlor. I stayed up stairs until night. When pa came in from the barn that morning he seolded ma and ma got mad. Pa held the old axe over her head and said he would smash her head if she did not shut up Pa put the axe in the corner and sat down to breakfast. I was by the stove and ma whispered to us to get out. I never saw pa strike ma. Last summer pa kicked over the swill pail and my sister Mary took what was left and threw it in his face. He threw water on Mary then."

Several other witnesses were sworn, including Dr. A. D. Getman and Dr. W Borland, who testified to finding fragments of charred human bones, buckles and buttons in the ashes. The inquest was adjourned until Monday, when Mrs. Druse and her daughter Mary, aged 18 will testify. They have not heard any of the testimony. They are perfectly com-posed, eat heartily and show no signs of nervousness.
