A NEW DEPARTURE. A Strictly Cash Store where goods are bought and sold for Cash.

We do not think it necessary ito recall to the minds of the people the instances under our own observation in which business men have been ruined by the credit_system, but ask you frankly whether it is not the cause of embarrassing so many business men of to-day. Believing you admit it we desire to impress you with the fact that on and after FRIDAY, DECEMBER 26,

we will inaugurate an entire new system known as the

STRICTLY CASH OR MONEY DOWN. By this we do not mean to say "terms cash" and sell on credit but mean what we say, and the editor of the "Reporter" cannot buy 50 cents worth unless he planks down the cash, and so the rule will apply to all alike. We next wish to show that this new system will be even more advantgeous to the public than to ourselves, as follows :

1st-Merchandise bought on credit must eventually be paid for and as there are always more or less dead accounts the merchant is compelled to add at least 5 per cent. to the price of his stock to account for his loss.

2d-On account of not getting money down he must add another 5 per cent. to pay the interest on his borrowed money. 3d-It requires one-third more work to make a biotter charge than to simply take the money and this necessarily adds another 5 per cent. to the price. 4th-Not being able to pay for goods as soon as they reach the store, (by hav-

ing money in his books,) the credit merchant pays 5 per cent. more than the cash merchant.

, You can add numerous reasons of your own and conclude by saying, "it is a den idea for all," and in addition to saving of 15, 20 or 25 per cent, on goods we will be able to close the free of debt.
