To All Wanting Employment, To All Wanting Employment.

We want live, energetic and capable agents in every county in the United States and Canada, to sell a patent article of great merit, on its merits. An article having a large sale, paying over 100 per cent, profit, having no competition, and on which the agent is protected in the exclusive sale by a deed given for each and every county he may secure from us. With all these advantages, and the fact that it is an article that can be sold to every houseowner, it might not be necessary to make an "extraordinary offer" to secure good ageats at once, but we have concluded to make it to show, not only our confidence in the merits of our invention, but in its salability by any agent that will handle it with energy.
