The qualities of the plant seem to have been discovered under the Spanish administration. Some writings intended for the mother country were wet through with sea-water on the voyage; while the papers written with common ink were also with a paper also with a pa with sea-water on the voyage; while the papers written with common ink were almost illegible, those with the juice of the plast were quite unscathed. Mr. Henry C. Reynolds, Ironton, Lawrence County, Ohio, writes: "My wife has been sorely distressed for many years. Her disease or diseases and the symptoms of them have been so varied that an attempt to describe them would be more than I feel able to undertake. I have paid over a thousand (1,000) dollars for doctors and medicines for her, without any satisfactory results. We read so much about your PERUNA that I was forced to try it. She has now taken five bottles; they have done her more good than all the doctors and medicine that she has ever made use of. PERUNA is certainly, a God-send to humanity."

I began to get better before I had taken half a bottle. The dizziness has disappeared, and the other affection has so much improved that I am positive, after I will have taken another bottle, I will be entirely well. I feel like a different person already. A number of my friends have used it, and they think it is a wonderful remedy. My husband says it is one of the best medicines for a cough that he

### A NEW DEPARTURE.

A Strictly Cash Store where goods are bought and sold for Cash.

We do not think it necessary to recall to the minds of the people the instances under our own observation in which business men have been rained by the credit system, but ask you frankly whether it is not the cause of embarrassing so many business men of to-day.

cannot buy 50 cents worth unless he planks down the cash, and so the rule will apply to all alike. We next wish to show that this new system will be even more advantgeous to the public than to ourseives, as follows:

1st-Merchandise bought on credit must eventually be paid for and as there are always more or less dead accounts the merchant is compelled to add at least 5 per cent. to the price of his stock to account for his loss.

2d-On account of not getting money down he must add another 5 per cent. to pay the interest on his borrowed money. 3d-It requires one-third more work to make a biotter charge than to simply take the money and this necessarily adds another 5 per cent. to the price.

4th-Not being able to pay for goods as soon as they reach the store, (by having money in his books,) the credit merchant pays 5 per cent. more than the cash merchant.

You can add numerous reasons of your own and conclude by saying, "it is a golden idea for all," and in addition to

the saving of 15, 20 or 25 per cent, on our goods we will be able to close the year free of debt. Under the new system we offer Gran-

This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflamation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

It heals the ulcerated surfaces and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opists and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient, whereas this medicine never dries or stops the cough, but, by removing the cause, consequently, when the cough is cured the patient is well.
