If the country is pre-ferred, the Pennsylvania road carries of syrups for their babies, unless such the traveler to all important pleaes in New York, New England and Pennsylvania. Whether it is desired to summer in some quiet, sleepy, inland town, or within sight of green fields and within sound of babbling brooks in a quaint old-fashioned farm house, or among the old-fashioned farm house, or among the crags and cliffs of the Blue and Alle-gheny mountains, or on the health-giving heights of Mount Washington, The ladies there go shopping on skates, this road carries you to the chosen elysium quickly, cheaply and safely.

All the famous health resorts are tapped by it, and whether the invalid be place of cure. Its enterprise has built up along its main lines of travels, within few minutes' ride of Philadelphia, a cottages, many of them as sumptuously elegant as the palaces of the Old of Philadelphia.

The Pennsylvania road, by means of its many fast trains which leave the station at Broad and Market streets daily. makes it possible for the business man to summer at the resort of his choice, without interfering in any way with his and transportation of freight are incomparably fine. Its recent enterprise in putting on fast passenger trains, brings Chicago within twenty-three hours' ride of Philadelphia, and transports the traveler to Cincinnati in eighteen.

it is one of the wonders of modern railroad traveling that the Pennsylvania, more than any other road, has assisted military commanders and soldiers are, in developing and perfecting, that one can live on a railroad train in as much ease and comfort as in one's own home.

The Pennsylvania road never retroonward," and it uses all legitimate means to compass this end. It is jealous of the rights of its patrons, and quick to defend them. The machinery of its managemechanism, smoothly and without jar or of the island, in a fruitful plain, and is crash. Every new invention in railroad economy is carefully investigated. If its adoption is found to add to the comfort, convenience; or safety of the traveling public, no expense is spared to secure its control. Its vast army of employes are trained to observe this one precept : "The comfort of our patrons above all else." Its motto might justly be written thus: "Speed, safety, comfort."

DON'T EAT IN A HURRY.

A health journal says that people ought to take three-quarters of an hour to eat dinner. This is well, if there is enough dinner to hold out so long. The penalty for hurrying meals, as most people do, is a grievous attack of dyspepsia. In such a case you will have to resort to Brown's Iron Bitters for cure, as did Mr. J. R. Pinkston, of Shorter's Depot, Ala., who writes: "I found relief in Brown's Iron Bitters after years of suffering from dyspepsia."

SEVEN NEGROES KILLED. Atlanta, June 27 .- At Suwance, on the Richmond and Danville railroad, a ditch train ran over a cow, throwing one car from the track. In the car were fifteen negro train hands and six bars of iron. The car turned on its side and the iron lake. fell upon the negroes, killing seven and wounding three more.

A GREAT DISCOVERY.

Mr. William Thomas, of Newton, Iowa, "My wife has been seriously affected with a cough for twenty-five the single year 1881-154,000,000 tonsyears, and this spring more severely than ever before. She had used many remedies without relief, and, being urged to

QUEER reading would be the history of names. We cannot, however, go into the subject now, except so far as to say that Dr: Kennedy's "Favorite Remedy" was called by that name, in an informal fashion, long before the doctor dreamed fashion, long before the doctor dreamed of advertising it for public use. Speak-ing of it he would say to his patients : "This is my favorile remedy for all troubles of the blood," etc., and its suc-cess was so great that he finally spelled the name with capital letters. aug

Some interesting discoveries have been made in Florida by Prof. Lawrence Johnson, of the United States Geolo. gical Survey. Just south of Alachua county line he found several specimens and skeletons of animals which relatively belong to a not far distant period. In piles, and somewhat mixed, there were the remains of a mastodom, two or three specimens of the rhinoceros, a large stag, a camel, fully as large as the Arabian camel, but in structure more allied to the llama; also a tapir, very much like the South American tapir, which lives in swampy places ; two teeth of some carnivorous animal allied to the

tiger and panther ; one set of teeth and bones of a hippopotamus; several crocodiles or alligators, and innumerable other bones not identified. Apparently, the territory south of Alachua was at some time a large fresh-water
