They Will Take Cure of the Rest. The joy of every well-regulated household affectionale parents do not take care of their children. Through ignorance more than culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Favorand home. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gautie in als action, containing no harmful ingredients whatever, going straight to the blood, which, when impure, is the seat and source of disease. "Favorite Remedy" is the fiend of childhood and should be found in every nursery in the land. Keep it in the house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. Pavil Kennedy, Rondont, N. Y. One dollar a bottle.

David Kennedy, Rondont, N. Y. One dollar a bottle.

Good Words for a Good Thing.—Dr. David Kennedy's "Favorite Remedy" is exactly what it claims to be, and deserves the praises that are showerd upon it by all who have used it. Mr. Larael H. Spyder, of Saugerties, N. Y., says: "My little daughter was covered with salt rheum from head to foot: Dr. Kennedy's "Favorite Remedy" cured her. This was two years ago."

We are not in the habit of puffing any sort of patent medicines in our columns, but we happen to know Dr. David Kennedy, of Rondout, N. Y., and can personally testify to the excellence of the medicine which the doctor calls "Favorite Remedy." And if a word of ours will persuade any-body to use it and thus find relief from suffering, no professional cliquette shall hinder us from saying that word. For diseases of the blood, kidneys and bowels it has no equa'. We would not be without it for five times the dollar that it costs.—Daily Thacs, Troy, N. Y.

From the Pittsburgh Dispatch, Sept. 25th, 1850. "Very seldom do we read of an actual case of recovery, where hope had alto-gether been lost, to parallel that which was Monday investigated by a Dispatch reporter, who had heard in various quarters persons talking to their friends of a cure, seemingly little short of marvelous, that had been performed. The plain facts in the case referred to, without exaggeration, are these, as they were learned from the mother of the young man, his pastor and other persons well known in the com-

"William Lincoln Curtis is the name of the young man in question. He is now employed at H. K. Porter & Co.'s locomotive works in Pittsburgh, Pa. A year ago he resided with his mother on Grant street. About that time he went to bed one evening with a violent pain in his shoulder, the result, he thought, of a cold. The next morning the shoulder was greatly swollen, the pain was intense, and aches were felt all through his system. His case was speedily developed into a violent form of chronic rheumatism, among the first notable features of which

was the paralysis of his left arm. "He gradually grew worse, and in a few months the elbow and knee joints and both ankles became enormously enlarged. In March last the cheek bones began to enlarge, and upon his left side particularly, spreading his face out of all resemblance to his former self. The pain in all his joints became intense; fever, with its deteriorating effects, was now added, and the became rapidly reduced to the semblance of a skeleton, while vitality reached its lowest possible condition, and his sufferings were of such an indiscribable character that those who most loved him sometimes thought it would be better if he was called away. At this time physicians well known in Pittsburgh informed his parents that they could give no hopes of recovery.
