CENTRE HALL, PA., AUG. 1, 1885

MAUD S. BEATS HER TIME.

The Fastest Time Ever Trotted—Flying Over the Turf in 2:08!

Cleveland, July 30.—Maud S., the queen of the turf, reduced her record this evening at the Cleveland driving park. Two years ago she trotted a mile on the Cleveland track in 2:09, and soon after made an exhibition mile at Lexington, Ky., in 2:08. This evening the maid covered a mile in 2:08. The stands at the driving park were crowded with people, over 3,000 persons being in attendance. Every one was anxious to see Maud S. About five o'clock the mare was driven upon the track by William Bair, her driver. She walked along the stretch past the grand stand with her ears in the air and bobbing her head in recognition of the thunders of applause that came from the multitude. Ladies in the private boxes waved their handkerchiefs and cheered, while the men threw up their hats and coats and sprang over the fence upon the track. Maud S. was led to the judges' stand by two grooms, with Bair in the sulky, with hat in hand, bowing to the crowd. A moment later a collar of red, yellow and white roses was placed around the mare's neck and a beautiful bouquet of red and white roses was handed to Bair. The mare was excited along with the crowd. She bobbed her head and stamped her feet, and it was with difficulty that the grooms held her. After being decorated with flowers she was led up and down the stretch, and many ladies came forward to pat her neck. Few persons expected that Maud would beat her record, and bets were made prior to the trial of \$3 to \$1 that she would not make better than 2:10.

A BEAUTIFUL WOMAN.

A woman with pleasant smile, clear skin, bright eye, generous expression, elastic step, hearty hand shake and courteous welcome. Such a woman is not the victim of debility, languor or dyspepsia. She has overcome these pests by using Brown's Iron Bitters, the world's great tonic. Miss Mattie Benson, of South Parsonfield, Me., says: "After using Brown's Iron Bitters for weakness and lack of appetite and energy, I felt like another person."

THOUSANDS OF PEOPLE DROWNED.

San Francisco, August 9.—The China overland mail, of July 2, says the calamitous flood which began to work destruction on the 19th of June, devastated a part of the Province of Canton, causing the death of ten thousand people, including whole villages, nearly ruining the rice and silk crops, destroying an immense amount of property and reducing a vast number of people to poverty and starvation. The flood was caused by the bursting of an embankment at Tamkong, fourteen miles from Canton city, which was rapidly followed by breaks at other places within eighty miles of Canton, putting a large area of the country under water, including Canton.

VERY REMARKABLE RECOVERY.

Mr. George V. Williams, of Manchester, Mich., writes: "My wife has been almost helpless for five years, so helpless that she could not turn over in bed alone. She used two bottles of Electric Bitters, and is so much improved that she is able now to do her own work." Electric Bitters will do all that is claimed for them. Hundreds of testimonials attest their great curative powers. Only fifty cents a bottle at J. Zeller & Son's drug store, Bellefonte.

WHERE RIVERSIDE PARK IS LOCATED.

Riverside Park, where the remains of General Grant are to repose, is a narrow and irregular strip of land lying between Riverside avenue and the Hudson river, from Seventy-second street to One Hundred and Thirtieth street. Between the western limit and the river, however, passes the road-bed of the Hudson river railway. The general width of the park is about five hundred feet, while its entire length is some three miles, the area being about one hundred and seventy-eight acres, only a portion of which has been laid out in walks and drives, while the rest still retains the wild picturesqueness of nature.

Don't fill the system with quinine in the effort to prevent or cure fever and ague. Ayer's Ague Cure is a far more potent preventive and remedy, with the advantage of leaving in the body no poisons to produce dizziness, deafness, headache and other disorders. The proprietors warrant it.

THE POST OFFICES AND CIVIL SERVICE REFORM.

The rapidity with which Assistant Postmaster General Stevenson is removing Republican postmasters and filling the vacancies with Democrats, is causing some anxiety among the mug-wumps. But it is not reasonable to expect the Democratic party to let the fifty thousand postoffices of the country remain in Republican hands. These offices are not covered by the civil service rules and it has been announced that the administration will not extend the scope of the rules at this time. If it appears that the classified civil service has survived a change of party and is established on a basis that lifts it above the mutations of politics, that will be an immense stride forward.

QUININ READING WOULD BE THE HISTORY OF NAMES.

We cannot, however, go into the subject now, except so far as to say that Dr. Kennedy's "Favorite Remedy" was called by that name, in an informal fashion, long before the doctor dreamed of advertising it for public use. Speaking of it he would say to his patients: "This is my favorite remedy for all troubles of the blood," etc., and its success was so great that he finally spelled the name with capital letters.

CASH FOR GRAIN.

Cash will be paid for red wheat, rye, oats and corn, at the roller mill, Centre Hall.

—ORIENTAL is the best in the market. Try a sack.

AN ITALIAN INSTITUTION.

The weekly lottery is an institution in Italy. Books are published to guide the choice of numbers with reference to dreams and events, both ordinary and extraordinary. If you dream of a cat, you are bound to play that number; if of a dog, to play that, combining the two numbers in a fashion which the book duly describes should you dream of both dog and cat. But it is from a real, not a visionary accident that your rich harvest may be reaped, and the greater the accident the richer the harvest. If your child tumbles down stairs and breaks a leg, you count the number of stairs, rush to the lottery office, and play the combination of stairs, child, and fall. When the cholera broke out last year in Naples certain numbers indicated by the calamity were played so generally, and strange to say, so successfully, that the government lottery banks lost heavily. Not long ago a commercial traveler told us with great animation of a cruel disappointment which had just befallen him. He had had the luck, while traveling in the mountains, to have an accident by which his carriage was almost broken into bits. He immediately utilized the chance, by making up the prescribed combination of numbers representing carriage, accident, mountain, alarm, and the day of the month. He flew to the nearest lottery office; it was closed. A Sicilian hotel servant (true to his indolent nature) would not be induced by the offer of five francs to take the numbers to the adjoining village. The would-be gambler was forced to accept his destiny with the Italian formula of "pazienza" (patience). But imagine the feelings of the ingenious but balked speculator when the very next day all his five numbers (a most rare occurrence) were drawn at Palermo, and he found that he had thus missed a fortune!

ART; WHY IT HAS DECLINED.

Art has sunk lower in standard in proportion as it is more widely diffused; being spread over a broader surface it becomes shallower. Patrons of art in like manner, as they multiply, degenerate; in place of the educated few rise the ignorant many. Artists no longer paint up to cultured connoisseurs, but down to the common people; and this democracy among patrons and painters has vulgarized art. Art has changed for the worse its mental aspects; it is less serious and more frivolous, less studentlike and more superficial and showy, less the issue of the higher faculties and more the offspring of the senses. Art, accordingly, seldom deals with the imagination and the reason; it is no longer creative; it has forsaken the walks of the ideal, and thus hold but distant fellowship with minds of calibre and culture. Art in reverse ratio has grown naturalistic and real; something to be measured and weighed, as any other commercial commodity. Hence the union of the ideal with the real, the perfection of Greek art, is an end beyond the aim of modern art. The study of nature, including man, is given to character, accident, and outward material, rather than to generic forms, governing laws, and indwelling life. Hence modern art, as distinguished from ancient, falls short of nature's abstract and ideal types, and is content to realize creation in the concrete. And the prevailing traits of figure subjects pass into landscape art. Thus, historic and poetic landscapes give place to prosaic transcripts, without imaginative outlook beyond the actual and the present. Accordingly the pictorial arts of the day are barren and stationary compared with the advance in science and the fecundity of poetry and romance. In short, the fine arts have fallen below the standard and requirement of cultured minds, and fail to respond to the nobles phases of civilization.

AN ANECDOTE OF BRAGG.

This story is told by Gen. Grant in his forthcoming book: "I have heard a story in the old army very characteristic of Bragg. On one occasion, when stationed at a post of several companies, commanded by a field officer, he was himself commanding one of the companies and at the same time acting post quartermaster and commissary. He was a first lieutenant at the time, but his captain was detached to other duty. As commander of the company, he made a requisition upon the quartermaster—himself—for something he wanted. As quartermaster, he declined to fill the requisition, and endorsed on the back of it his reasons for so doing. As company commander he responded to that, urging that his requisition called for nothing but what he was entitled to, and that it was the duty of the quartermaster to fill it. The quartermaster still persisted that he was right. In this condition of affairs Bragg referred the whole matter to the commanding officer. The latter, when he saw the nature of the matter referred, exclaimed: "My God, Mr. Bragg! you have quarreled with every officer in the army, and now you are quarreling with yourself!"

PREJUDICES ARE MOST DIFFICULT TO ERADICATE.

Prejudices are most difficult to eradicate from the heart whose soil has never been loosened or fertilized by education. They grow there firm as weeds among stones.

SHelled corn and other coarse grain wanted at the Centre Hall roller mill.

We make the following liberal proposition to the subscribers of the REPORTER: Any one sending us the name of a new cash subscriber for one year will get a credit of three months for his trouble, and the new name two months extra. We would be pleased to have every reader send us at least one name under this very liberal offer. For any additional names we will allow the same.

BROWN'S IRON BITTERS - THE BEST TONIC. This medicine, combining Iron with pure vegetable tonic, quickly and completely cures Dyspepsia, Indigestion, Weakness, Impure Blood, Malaria, Chills and Fevers, and Neuralgia. It is an unrivaled remedy for Diseases of the Kidneys and Liver. Diseases peculiar to Women, and all who lead sedentary lives. It does not injure the teeth, cause headache, or produce constipation—other Iron medicines do. It enriches and purifies the blood, stimulates the appetite, aids the assimilation of food, relieves Heartburn and Belching, and strengthens the muscles and nerves. For Intermittent Fevers, Lassitude, Lack of Energy, etc., it has no equal. The genuine has above trade mark and crossed red lines on wrapper. Take no other. Made only by DRUG CHEMICAL CO., BALTIMORE, MD.

THE GREAT UNFAILING SPECIFIC FOR LIVER DISEASE. SIMMONS' LIVER + REGULATOR. It generally used in the South to arouse the Torpid Liver to a healthy action. Being entirely vegetable, so particular care is required while using this medicine. The Regulator acts without disturbance to the system, diet or occupation. It regulates the Liver, and Nature relieving herself, causes the bile to act as the pump. The excess of bile being removed, a tonic effect is produced, and health is perfectly restored. It regulates the Bowels and Removes CONSTIPATION. It is a CERTAIN CURE FOR DYSPEPSIA. The Regulator contains no quinine, mineral, or anything that will injure the most delicate patient, and is given with safety and the happiest results to the most delicate infants. From all diseases in which a laxative, alternative or purgative is needed it will give the most perfect satisfaction. The Cheapest, Purest and Best Family Medicine in the World!

AN EFFICIENT REMEDY. In all cases of Bronchial and Pulmonary Affections is AYER'S CHERRY PECTORAL. It is a recognized and prescribed by the medical profession, and in many thousands of families, for the past forty years, it has been regarded as an invaluable household remedy. It is a preparation that can be safely taken in very small quantities, and a few doses of it administered in the early stages of a cold or cough will effect a speedy cure, and may, very possibly, save life. There is no doubt whatever that.

AYER'S CHERRY PECTORAL. Has preserved the lives of great numbers of persons, by arresting the development of Laryngitis, Bronchitis, Pneumonia, and Pulmonary Consumption, and by the cure of those dangerous maladies. It should be kept ready for use in every family where there are children, as it is a medicine far superior to all others in the treatment of Croup, the alleviation of Whooping Cough, and the cure of Colds and Influenza, ailments peculiarly incident to childhood and youth. Promptly in dealing with all diseases of this class is of the utmost importance. The loss of a single day may, in many cases, entail fatal consequences. Do not waste precious time in experimenting with medicines of doubtful efficacy, while the malady is constantly gaining a deeper hold, but take at once the specific and most certain cure.

AYER'S CHERRY PECTORAL, PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists.

Every Farm an Experimental Station. The best analysis of any fertilizer is in the farmer's own hands. Soil tests are reliable tests to determine the value of any manure. An analysis is only an intelligent suggestion, but actual trial by the farmer proves conclusively whether a fertilizer will give good crops or not. For six years our \$25 Phosphate has stood severe field tests. The best results have been obtained by intelligent farmers who use it season after season in preference to any other brand. If you have not used it yet, we hope you will do so this season.

BAUGH & SONS, Philadelphia.

ROOM! ROOM! ROOM! ROOM! Must Have Room! Large Stock of Furniture! Big Reduction in Prices!
