They Will Take Care of the Rest. The joy of every well-regulated household comes chiefly from the children. Thousands of affectionate parents do not take care of their children. Through ignorance more than culpable neglect they suffer them to fall sick and die, when knowledge might have saved them to love and home. Dr. David Kennedy offers his "Favorite Remedy" as emphatically a medicine for the children—gentle in its action, containing no harmful ingredients whatever, going straight to the blood, which, when impure, is the seat and source of disease. "Favorite Remedy" is the friend of childhood and should be found in every nursery in the land. Keep it in the house for your children's sake, as well as for your own. Try it and you will be glad you saw this article. Make no mistakes. The medicine is "Favorite Remedy" and the proprietor's name and address: Dr. David Kennedy, Rondout, N. Y. One dollar a bottle. ite Remedy" as emphatically a medicine for the

David Kennedy, Rondout, N. Y. One dollar a bottle.

Good Words for a Good Thing.—Dr. David Kennedy's "Favorite Remedy" is exactly what it claims to be, and deserves the praises that are showerd upon it by all who have used it. Mr. Israel H. Snyder, of Saugerties, N. Y., says: "My little daughter was covered with salt rheum from head to foot: Dr. Kennedy's "Favorite Remedy" cured her. This was two years ago."

We are not in the habit of puffing any sort of patent medicines in our columns, but we happen to know Dr. David Kennedy, of Rondout, N. Y., and can personally testify to the excellence of the medicine which the doctor calls "Favorite Remedy". And if a word of ours will persuade any-body to use it and thus find relief from suffering, no 'professional ctiquette shall hinder us from saying that word. For diseases of the blood, kidney and bowels it has no equal. We would not be without it for five times the dollar that it costs Daily Times, Troy, New York.

When heated air is employed as drying agent in agricultural operations, or in the course of the manufacture of fabrics, the Engineer recommends that the heated air be drawn through the material downward, and so secure p most desirable uniformity of temperature throughout.

According to Berthelot's experiments, made chiefly with gun-cotton, the speed of the propagation of detonation increases with the density of the charge, and also with its diameter-at least within the limits of the very narrow tubes employed. This velocity seems further to increase with the resistance of the casing.

This recipe for a liquid glue has been

is most intense. If we were as near the |ble. The only plants that hold their marked change took place. After using sun as we are to the moon, the whole solid earth would melt away as wax.

Were the sun surrounde by a coat of ice fifty miles thick, it would all be melted in one minute's time.

Ine only plants that hold their hold their hold their sun as we are to the moon, the whole own, in addition to the indestructible one bottle her cough ceased and in a short time her other ailments were cured. She is now completely restored to health, and gives all the credit to Peruna. Mr. J. W. Reynolds, her husband, was a conmelted in one minute's time. melted in one minute's time.

differs according as it has been obtained at a high or low temperature. If obtained at a high temperature and gradually heated with sulphur to 2000 cen, tigrade, it combines slowly and without of any other species of plants; larged to his former vigor and strength. He says he now feels like a new man.

Mr. Bernhardt Seubs, St. Clair, St. Clair county, Mich., says: "I have thoroughly tried your Peauna in the various of any other species of plants; larged discases to which parents and a large famble of any other species of plants; larged discases to which parents and a large famble of any other species of plants; larged discases to which parents and a large famble of any other species of plants; larged discases to which parents and a large famble of any other species of plants; larged discases to which parents and a large famble of the cattle are a satisfant of his former vigor and strength. He says he now feels like a new man.

Mr. Bernhardt Seubs, St. Clair, St. Clair county, Mich., says: "I have thoroughly tried your Peauna in the various of any other species of plants; larged discases to which parents and a large famble of the various of any other species of plants; larged discases to which parents and a large famble of the parents and a larg the least trace of explosion. The red tracts are still honeycombed by the it in every case to be just the thing needed. phosphorus of commerce, if heated to ubiquitous biscacho, a gigantic rabbit, No family can honestly be without it."

The consumption of coal in the iron manufacture of the British Isles plants is not due to the unsuitability of relatively to the total production of pig the subtropical species of the neighboriron has been reduced within the past ing zones cannot hold good with respect few years. The average quantity of to the fertile valleys of the Andes becoal consumed per ton of pig iron was youd Menzona, where a magnificent 2.08 tons in 1883, against 2.55 tons in hardy flora is found. Moreover, the 1874. In 1884 the total quantity of pig extensive introducing of European iron produced was 7,528, 966 tons, being plants which has taken place througha decrease of 961,258 on the quantity out the country has added nothing to made in the preceding year.

In Paris a telephonic ticket at half a franc is issued at any of the post offices, which entitles the holder to a five minutes' conversation with persons at any other of the city post offices, or any REAPERS, of the Telephonic Company's stations, The Telephonic Company offers its eleven stations with persons at any your umbrella in a rack, and it will indi-

THE PAMPAS.

The peculiar characteristics of these vast plains, which descend from the What a great task is assigned to wo-Andes to the great river basin in un- man. Its dignity cannot be elevated. It is broken monotony, are the absence of not her province to make laws, to lead rivers or water stotage, and the periodical occurrence of droughts, or "siccos," in the summer months. These conditions determine the six of the leaders of mighty armies and tions determine the singular character the governors of vast empires. She is both of its flora and fauna. The soil is required to guard against having the naturally fertile and favorable for the growth of trees, and they grow luxuriantly wherever they are protected. The iantly wherever they are protected. The her. She must instil correct principles, eucalyptus is covering large tracts inculcate right doctrines, and breathe into wherever it is enclosed, and willows, poplars and the fig surround every estancia when fenced in. The open plains are covered with droves of blessed privilege of aiding the sufferer in horses and cattle, and overrun by num- all the various stages of his existence. She berless wild rodents, the original tenents weeps at the burial, while she soothes the bercaved heart. This is her province and of drought which are so great a scourge duty. Yet how can she fulfill her mission given by an authority on the subject:

Soften 100 parts of best Russian glue in

100 parts of warm water, then add

to live, every vestige of vegetation. In the thing for persons suffering from a malarle part of the country, these animals are starved by thousands, destroying, in their efforts Hartman, and known as Peruna, is just to live, every vestige of vegetation. In slowly and with great care 51 to 6 parts one of these droughts, at the time of my jority of the complaints incident to this of nitric acid, and finally add 6 parts of powdered sulphate of lead to impart to the glue a white color. The glue so made is said to be very adhesive.

one of these droughts, at the time of my jority of the complaints including the time of my visit, no less than fifty thousand heads of oxen and sheep and horses perished from starvation and thirst, after tearing deep out of the soil every trace of vegetation, including the wiry roots of the says she has suffered for years with congestion of the lungs, catarrh in the head, and was troubled with a bad cough. She

and a few tough, thorny, dwarf acacias neither could be work. He used PERUNA, Red phosphorus, says F. Isambert, and wiry rushes, which even a starving to his former vigor and strength. He 180°, combines with phosphorus with a and numerous other rodents still exist, including rats, and mice, pampas hares and the great nutria and carpincho on the river leads of the river the river banks. That the dearth of the botany of tile pampas beyond a few species that are unassailable by cattle, such as the two species of thistles that are invading large districts in spite of their constant destruction by the fires which always accompany the siccos.

UMBRELLAS.

There is a language of umbrellas as at the same rate, conversatons at any of well as of flowers. For instances, place other station, or at the residences of any of its members.

Black birch wood is prized in Europe for fine cabinet work. It seems, however, that there is a strong prejudice however, that there is a strong prejudice work and the same has the courting. When the man has the the before you pay your cash. umbrella and the woman the drippings, it indicates marriage. To punch your umbrella into a person and then open Surface Indications finishing interiors of houses. Soon, it, means, "I dislike you." To swing however, like many another of our long despised though valuable native woods, it will win its way to a very high place To trail your umbrella along the footin popular estimation.

Pechinery's new method of making chloribe is set forth in Le Genie Cevil. It well, never mind what it means, nobody ever does that! To turn an umbrella Ayer's Sarsaparilla, well, never mind what it means, nobody in a gust of wind presages profanity. Lieut. Cheries Berthon lately read a paper on steel guns before the Civil and Mechanical Enginers' Society, London, in which he strongly advocated the abandonment of all other materials in eyes and knock off men's hats, signifies the later of the later obtaining large masses of reliable will get wet. To carry it from home in the morning means that "it will clear gold by all Druggists: Price \$1: off."

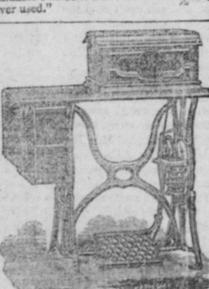

MUST LIE DOWN TO REST.
