"O, Lor' Bit 'Im Again!"
In the early days of Methodism in Scotland, a certain congregation, where here was but one rich man, desired to ing was held. The old rich Scotchman rose and said: "Brethren, we dinna aced a new chapel: "I'll give £5 for re-

Just then a bit of plaster falling from the ceiling hit him on the head.

brother on a back seat, "hit 'im again!" There are many human tabernacles which are in sore need of radical building over, but we putter and fuss and repair in spots without satisfactory results. It is only when we are personally alarmed at the real danger that we set independently, and do the right thing. Then it is that we most keenly regret because we did not sooner use our judgment, follow the advice born of the experience of others and jump away from our perils.

Thousands of persons who will read this paragraph are in abject misery today when they might be in a satisfactory condition. They are weak, lifeless, full of odd aches and pains, and every year they know they are getting worse, even though the best doctors are patching them in spots. The origin of these aches and pains is the kidneys and liver, and if they would build these all ever new with Warner's safe cure as millions have done, and cease investing their money in miserably unwell and happy and would bless the day when the Lord "hit 'em" and indicated the common sense course for them to pursue. - London Press.

HOUSEHOLD.

THE VALUE OF MILK IN SICKNESS. -Milk really disagrees with very few people; when the taste is dishked, it must be disguised in various ways. It should never be allowed to stand in the sickroom, as it quickly absorbs impurities. When stimulants are ordered a little brandy may be added to the milk, or a glass of it may be slightly sweetened, and flavored with a teaspoonful of rosewater, a few drops of extract of bitter almond, or vanilla. If coffee is permitted, it may be made very strong and diluted with boiling milk, and tea can be prepared in the same way. If chocolate, cocoa or broma is liked, it may be made with two-thirds milk and ene-third water, if the pure milk makes it too rich. The juice of a fresh lemon can be used; if it is mixed with a little sugar, and cold milk be added gradually, it will not curdle. This is particularly acceptable in scarlet fever. When plain milk cannot be retained, add four tablespoonfuls of lime water to every pint. Lime water can be made at home by pouring boiling water on unslacked lime, letting it stand until it settles, and bottling the clear fluid. Milk that has been boiled and allowed to become cold is the best form for use in diarrhœa, as hot drinks aggravate the malady.

> BROWN FRICASSER OF CHICKEN .-Clean, wash and cut the chicken into comparatively small pieces. Chop a vuarter pound of fat salt pork and half a small onion. Put the chicken with these into a pot with a pint of cold water, and stew slowly until the meat is tender. Take out the chicken, put into a colander and keep hot over a pot of boiling water, throwing a cloth over the colander. Strain the gravy back into the pot, season with parsley, pep-per and salt, Thicken with a tablespoonful of browned flour, boil up once, return the chicken to the gravy, simmer ten minutes and serve.

> INEXPENSIVE but pleasing layender water is made by mixing the following ingredients together: Three ounces of the essence of bergamot, six drachms of the tincture of musk, one drachm of the oil of cloves, four drachms of the English oil of lavender, twelve ounces of rose water, and seven and one-half pints of alcohol. Of course a smaller quantity can be made if desired, preserving these proportions,

> CREAM OR BARLEY SOUP .- A teacupful of barley well washed; three pints of chicken stock; an onion, and a small piece each of mace and cinnamon, Cook slowly together five hours; then rub through a sieve, and add one and a half pints of boiling cream or milk. If milk, add also two tablespoonfuls of butter, Salt and pepper to taste. The yolks of four eggs, beaten with four tespoonfuls of milk or cream, makes the soup yery much richer,

PARSNIP FRITTERS. -- Scrape and wash three or four parsnips, cut them half an inch in thickness, put them into beiling salt water, and boil half an hour. Skim out and lay on a platter. Beat one or two eggs to a froth, and add to four tablespoonfuls of wheat flour, and milk enough to make a thick batter, and dip in the slices of parsnips and fry them a nice brown in hot land. and fry them a nice brown in hot lard. Pile upon a platter and serve piping

Conn pone is highly recommended as a breakfast dish. Take one heaping coffeecup of boiled hominy, heat it and stir in a table spoonful of butter, three eggs and nearly one pint of sweet milk; as much corn meal may be added as will serve to thicken this till it is like the batter for "johnny cake," Bake in a quick oven and serve hot,

A good way to remove dust from a carpet is to fasten a damp cloth over the broom; with this the dust may be literally taken up. This will be found useful in the sickroom where there are many small articles to catch dust. It brightens a carpet to wipe it off in this way even after the usual sweeping has been done.

WATER FOR BABIES.—A distinguished children's doctor gives his opinion that healthy babies will take water every hour with advantage, especially in warm weather. Their fretfulness and rise in temperature is often due to their rature is often due to their

SWEET POTATO PONE, - Wash well six good-sized sweet potatoes, scrape the skins off and grate on a potato-grater, mix in one tablespoonful of butter, one build a new chapel. A church meet- cup of molasses, one of sugar, three eggs, pinch of salt, pounded orange peel, nutmeg and ginger to suit taste; put in a pan, sprinkle sugar over the top, and bake.

Egg Biscurr,-Three eggs beaten Looking up and seeing how bad it was, he said: "Brethren, its worse than I thought; I'll make it 50 pun'." spoons of butter, quarter teaspoon of "Oh, Lord," exclaimed a devoted salt; mold stiff with sifted flour; roll out thin; cut in fancy forms, bake in a quick oven. These are very nice when freshly baked, if eaten with coffee and apple sauce.

CUP UAKE. - Five eggs, three cups of sugar, one of butter, four of flour, one of milk, two teaspoonfuls of yeast powder, beat the eggs separate, cream the butter and sugar; add other ingredients, stirring in the whites of eggs last. Bake in a greased cake pan, in a moderate oven one hour.

He Kept the Whole House Awake. WASHINGTON, D. C .- Mr. F. U. McCleary, a prominent solicitor of patents of this city, was troubled for several weeks with a severe cough, which not only deprived him of sleep but annoyed others. The only thing which did him any good, he says, was the new preparation Red Star Cough Cure, a purely vegetable compound, free from opiates, narcotics or poisons of any kind.

To hate excellence is to be at its ex-

Mark Twain's latest advertisement is his assortion that his children are well behaved, well governed and companionably charming, and he refers to Mrs. Harriet Beecher Stowe, Chas. Dudley Warner and his other Hartford neighbors as witnesses. How could you expect them to be otherwise, were they not brought up on Ridge's Food?—Exchange

Mind and have a care for a silent dog and a too still water.

St. Bernard Vegetable Pills.

To a criminal neglect of preventive medication may be ascribed a majority of the aliments which affect humanity. It is a well-ascertwined fact, that a course of Hostetter's Stomach Bitters will put even a naturally feeble system in such a state of defence that it will be competent to resist the most prevalent causes of disease, such as the malign influence of miasma, unwholesome water, excessive heat, damp, cold, sudden changes of temperature, &c.

FARM NOTES.

THE keeping of the weeds entirely eradicated and the ground mellow is work that if slighted in the least will curtail the expected crop yield. Beside this it is well to remember that cultivation and keeping the ground mellow is about the best mulching that can be applied to the crop. It is a fact too well known to be controverted that fertilizers will not answer for cultivation and frequent stirring of the soil to keep it loose and mellow. No difference how rich the ground may be, vegetation will not germinate, grow and fructify with any degree of excellence and productiveness, unless the soil is first plowed and harrowed, or in some way pulverized, so as to allow the plant roots to sink into depths and draw from it nourishment. And while this is true it should be remembered that the soil around the plants cannot be kept too fine and mellow for the highest vegeta-

AT least a few sheep should be kept on every farm. No kind of stock is more profitable. In starting a flock, a few supportor of Deeds, Lowell, Mass.

"Hood's Sarsaparilla beats all others, and is worth its weight in gold." I. Barrington, 130 Bank Street, New York City. few superior animals should be chosen instead of double the number of inferior ones. The increased value of a flock Eveny enterprise of life, from the range from good sheep, will greatly exsimplest to the most complex, has its seed the increased cost of a few good necessary drudgery. On the faithful ones to start with, over what inferior performance of this is founded all true ones would have cost. Start with good success; and only those who are willing sheep and keep them good or make to bear the burden with courage, ener-gy and perseverance have any right to one intends to half starve his sheep he DR. WALEER'S VINEGAR BITTERS, the "hold their own" than those used to celebrated Temperance Restorative, better keeping. When good sheep are purchased to start with and are well kept, sheep keeping is profitable, bene-ficial to the farm, and is to be commen-

OLD CHEESE IN GERMANY .- The article at present most in demand in the medical world of Germany is-old cheese. A young physician, Dr. Den-eke, assistant at the Hygienic institute of Gottingen, has recently discovered in old cheese an infinitesimally small and hitherto unknown fungus, which in form, character and growth closely resembles the genuine comma-shaped baccilius discovered by Prof. Koch, and which has been used in vaccinating animals without any injurious effects. Dr. Deneke has been able to cultivate the fungi, and the imperial hygienic office has taken the matter in hand so far as to address a circular to 150 medical men, urging them to investigate the subject and report their observations to

THE milk from helfers is neither so liberal in quantity nor so rich as that from the same cow as she becomes older. The old rule which reckoned a heifer with her first calf as equal to half a cow was not far from right. The growth of a heifer is so much deducted from what would otherwise go to milk production, with but young cows capa-ble of eating and digesting an unusual quantity of food a large proportion may go to the milk pail,

IF a cow is a deep milker, and not in-clined to dry off before calving time, do not seek to shrink the milk suddenly. either by ceasing to milk her or by starvation. Neither should she be physicked or her udder bathed with astringent washes; this has the effect to throw the milk back into the blood, causing congestion, inflammation and complications, Give dry food, includ-ing plenty of bran, and milk her right along, but a month before her calving time feed the milk to the hogs,

The famous system of rotation now quite general throughout England and Scotland, with occasional modification, is as follows: The first year, clover and mixed grass seed; the second year, wheat; the third year, turnips or rutabagas; the fourth year, barley, and then the same course again. Another innovation is to add another grain crop, oats, making a five year course, and so Navy Clippings, and that Lorillard's Manufis, are the best and cheapart, with the course been that it is concerned, is that it should give him but little occasion to think about it.

Nervous Debility Order permanent over Seek free him but little occasion to think about it.

Cows sometimes suffer for months from retention of afterbirth when calving. In such cases, the appetite is poor, they lose flesh, look gaunt and spiritless. To remove the trouble, the following has been recommended by a leading suthority: Give one pound of Epsom salts to relax the bowels, and then twice daily, two drachms of sulphate of iron, ounce of gentian, and two ounces of nitrate of potash,

A DAY'S WORE IN 1 LOWING .- A smart team turning a good furrow in the spring either stubble or sod, should be able to turn over one and a half to two acres. When larger days' work than this are reported it is usually at the expense of the team, or perhaps of the plowing. So much depends on the character of the work in fitting the land that a poor plowman should not be tolerated, however large a day's work he may claim to be able to do.

Sow plenty of carrots. They require a well drained, deeply worked soil, that should be rich and in the best condition. Sow in drills sufficiently wide apart to admit of the horse hoe. Two pounds of seed will sow an acre. The best way is to sprout the seed in a box of earth, occasionally moistening with warm water, and then sow.

Any soil that produces corn will grow artichokes or sunflowers. Such soils should contain a large proportion of potash, however, as the sunflower stalks appropriate that mineral in excess of other fertilizers. In the West the seeds and stalks have been used for fuel, for which purpose the plant is said to be excellent,

Don't allow the little chickens to wade around in the wet grass. They are not able for such exhausting exercise. Confine the hen if she is inclined to lead them too far away.

Hood's Sarsaparilla

Combines, in a manner peculiar to itself, the best blood-purifying and strengthening remedies of the vegetable kingdom. You will find this wonderful remedy effective where other medicines have failed. Try it now. It will purify your blood, regulate the digestion, and give new life and vigor to the entire body. "Hood's Sarsaparilla did me great good. I was tired out from overwork, and it toned

me up." MRS. G. E. SIMMONS, Cohoes, N. Y. "I suffered three years from blood poison. I took Hood's Sarsaparilla and think I am cured." MRS. M. J. DAVIS, Brockport, N. Y.

Purifies the Blood

Hood's Sarsaparilla is characterized by three peculiarities: 1st, the combination of remedial agents; 2d, the proportion; 3d, the process of securing the active medicinal qualities. The result is a medicine of unusual grength, effecting cures hitherto unknown. Send for book containing additional evidence.

"Hood's Barsaparilla tones up my system, purifies my blood, sharpens my appetite, and seems to make me over." J. P. THOMPSON, Register of Deeds, Lowell, Mass.

DVCDF LIQUID GLUE

No other medicine known so effectually purges the blood of deep-scated diseases.

Millions hear testimony to its wonderful curative effects.

It is a purely Vegetable Preparation, made from the native herbs and roots of California, the medicinal properties of which are extracted therefrom without the use of Alcohol.

It removes the cause of disease, and the patient recovers his health.

It removes the cause of disease, and the patient recovers his health.

It is the great Bilood Purifier and Lifegiving Principle; a Geutle Purgative and Tonic; a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Viricana Bitteria in healing the sick of every disease man is helr to.

The Alterative, Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Sedative, Counter-Irritant, Sudorific, Anti-Bilious, Solvent, Diuretic and Tonic properties of Viriona Bitterians exceed those of any other medicine in the world.

world.

No person can take the Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

Billious, Hemittent, Intermittent and Malarial Fevers, are prevalent throughout the United States, particularly in the valleys of our great rivers and their vast tributaries during the Summer and Autumn, especially during seasons of unusual heat and dryness.

These Fevers are invariably accompanied by extensive derangements of the stomach, liver and bowels. In their treatment, a purgative, exerting a powerful influence upon these organs, is absolutely necessary.

bsolutely necessary.

There is no cathartic for the purpose

There is no cathartic for the purpose equal to Dr. J. Walker, S Vinegar Bitters, as it will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with Vinegar Bitters. No epidemic can take hold of a system thus forearmed.

It Invigorates the Stomach and stimu

At Invigorates the Stomach and stimulates the torpid Liver and Bowels, which render it of unequaled efficiency in cleansing the blood of all impurities, imparting new life and vigor to the frame, and carrying off without the sid of Calomel, or other mineral medicine, every particle of poisonous matter from the system.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Stomach, Bad Taste in the Mouth, Billous Attacks, Palpitation of the Heart, Indiammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

Scrofula, or King's Evil, White Swellings, Ulcers, Pryspelas, Swelled Neck, Goitre, Scrofulous or badoent Inflammations, Mercurial Affections, Ad Sores, Eruptions of the Skin, Sore Eves, etc. In these, as in all other constitutional Diseases, Valkan's Vinenas Birtrans has shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and

For Inflammatory and Chronic Rheumatism, Gout, Bilous, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, the Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerais, such as Flumbers, Typesetters, Gold-beaters, and Miners. as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of Walker's Vincola Bitters.

For Skin Diseases, Eruptions. Tetter, Sait Rheum, Blotches, Spots, Fimples, Pustules, Bolls, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations.

Eyes, Erysipelas, Itch, Scurfs, Discolorations, Humors and diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of

Pin, Tape, and other Worms, lurking the system of so many thousands, are effectally destroyed and removed. No system of edicine, no vermifuges, no antheisdutce, will the effect of the end of the edicine. free the system from worms like the littlers.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, this Bitters has no equal.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Fimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

In conclusion: Give the Bitters a trial. It will speak for itself. One bottle is a better guarantee of its merits than a lengthy advertisement.

Around each bottle are full directions printed in different languages.
