A Daily Defalcation.

The Hon. John Kelly, the head and front of Tammany Hall, a man of strict integrity, an indefatigable worker, early at his office, late to leave, so burdened with business that regular meals were seldom known by him, with mind in constant tension and energies steadily trained, finally broke down!

The wonder is that he did not sooner give way. An honest man in all things else, he acted unfairly with his physical resources. He was ever drawing upon this bank without ever depositing collateral. The account overdrawn, the bank suspends and both are now in the hands of medical receivers.

It is not work that kills men. It is irregularity of habits and mental worry. No man in good health frets at his butter, two eggs, one large cup of work. Bye and bye when the bank of grated cocoanut. Use flour enough to vigor suspends, these men will wonder | make a dough that can be rolled. Cut how it all happened, and they will keep in fancy shapes, and bake in a quick wondering until their dying day unless, oven, perchance, some candid physician or interested friend will point out to them how by irregularity, by excessive mental effort, by constant worry and fret, by plunging in deeper than they had a right to go, they have produced that them well, and dip slices of bread in loss of nervous energy which almost invariably expresses itself in a deranged be used for this. condition of the kidneys and liver, for it is a well-known fact that the poison which the kidneys and liver should re move from the blood, if left therein, soon knocks the life out of the strongest and most vigorous man or woman. HOUSEHOLD.

A WHOLESOME and excellent pudding is made of oatmeal. Mix the oatmeal with a little cold water; then stir it in boiling milk, in the proportion of three tablespoonfuls of oatmeal to one quart of milk; flavor, and let it cool in bowls or moulds, which you have first wet with cold water. Make a sauce to eat with this of cream and sugar, or jeily sauce made thus: To half a pint of boiling water allow an ounce of sugar and two heaping tablespoonfuls of jelly; a teaspoonful of flour, corn starch, or sago should be dissolved in a little cold water and stirred in, Let this come to a boil, and it is ready for the table.

BROWN FRICASSEE OF CHICKEN. - Clean, water, and stew slowly until the meat | velocity that it may return to the boiler of boiling water, throwing a cloth over the influence of the including the colander. Tie in a floured bag, leaving tine. room for the pudding to swell, and steam six hours. Serve with wine

BAKED BEANS, -Lovers of the sturdy old New England dish, baked beans, may be glad to know of a new wrinkle in preparing it, suggested by Mr. Philbrick in the New England Farmer. I believe," he says, "it people generally knew what a delicious dish celery makes with common baked beans, there would be a larger sale for it. Chop up the celery fine and mix it with the baked, season with vinegar and mustard beans to taste; you will call for a second plate of it every time.

MUFFINS AND EGGS .- A Hitele less than a quart of sweet milk or water thickened with a little more than a quart of Graham flour poured into a liot muf-fin pan, baked in a hot oven, makes what we consider good gems. Am partial to food that may be well prepared without soda, as I fear it will cause the teeth to decap. Do you all know that eggs are nice baked in a buttered tin

Nice bread-cake is made of two cups of light bread dough, one and a half cups of sugar, half a cup of butter, three tablespoonfuls of sour milk, half a teaspoonful of soda, half a grated nutmeg a teaspoonful of cinnamon, a cup of raisins chopped and with flour dusted over them. Stir all in but the raisins, and put them in the last thing. It should rise for half an hour and then be baked in a moderate oven,

Tax this for tea some night: Pick up one teacupful of codfish, let it soak in lukewarm water while you mix two cups of cold mashed potatoes with one pint of sweet milk, two eggs, a good-sized lump of butter, and pepper and salt if it is necessary, then add codfish, mix all well, and bake in a buttered pudding dish for from twenty-five minutes to half an hour; serve hot.

Fudenal Cake.—One pint of sugar, one and a half cupfuls of butter; three pints of fiour; four eggs; two wine-glasses of milk; two of wine; two of brandy; one teaspoonful of cream of tartar; half a teaspoonful of saleratus; fruit and spice to taste. Bake in deep pans, the time depending on the quality

DYSPEPSIA

Causes its victims to be miscrable, hopeless, confused, and depressed in mind, very irritabie, languel, and drowsy. It is a disease which does not get well of itself. It requires careful, persistent attention, and a remedy to throw off the causes and tone up the digestive organs till they perform their duties willingly. Hood's Sarsaparilla has proven just the required remedy in hundreds of cases.

" I have taken Hood's Sarsaparilla for dyspepsia, from which I have suffered two years. I tried many other medicines, but none proved so satisfactory as Hood's Sarsaparilla." THOMAS COOK, Brush Electric Light Co., New York City.

By this means glass that is broken may often be fashioned and rendered useful for a variety of purposes,

To Prevent Din of Shops.—A rubber cushion under the legs of work benches in manufactories, is a cheap relief from the deafening din of noisy shops, Chambers' Journal describes a factory where the hammering of fifty coppersmiths was scarcely audible in the room below, their benches having under each leg a rubber cushion. We have seen the same effect produced by standing the legs of the bench in nail kegs filled with sand, by which means all vibration and shock was prevented.

Bome ten years ago I had a scrofulous sore on my right hand, and with the old-time treatment it healed up. In March, 182, it broke out in my threat, and concentrated in cancer, eating through my check to the top of my left check bone and up to the left eye. I subsisted on liquids, and my tongue was so far gone I could not talk. On October first, 1884, I commenced taking Swift's Specific. In a month the cating places stopped and healing commenced, and the fearful aperture in my check has been closed and firmly knitted together. A new under lip is progressing, and it seems that nature is supplying a new tongue. I can talk so that my friends can readily understand me, and can also eat solid food again. I would refer to Hon.
