### LIKE HIS FATHER,

He Was Afflicted With Stone in the Bladder.

5

Mr. S. W. Hicks, of Pleasant Valley, Duchess county, N. Y., the son of Mr. E. S. Hicks, whose name may have appeared in this journal in connection with an article similar to this, was, like his father, afflicted with Stone in the Bladder, only that his case was more serious than his father's. The father advised the son to write to Dr. David Kennedy, of Rondout, N. Y., who, he said, would tell him what to do. Dr. Kennedy replied, suggesting the use of KENNEDY'S FAVORITE REMEDY, which had worked so successful in the father's case. Mr. Hicks. who had been as sured by the local physicians that they could do nothing more for him, tried "Favorite Remedy." After two week's use of it he passed a stone 34 of au inch long and of the thickness of a pipe stem Since then he has had no symptoms of a return of the trouble. Here is a sick man healed. What better results could have been expected? What greater benefit could medical science confer The end was gained; that is surely enough. Dr. Kennedy assures the public, by a reputation which he cannot afford to impair, that the FA-VORITE REMEDY does invigorate the blood, cures hver, kidney and bladder complaints, as

Thousands of grateful people voluntarily testify in letters to Dr. Kennedy, with a warmth and fullness of words which mere business documents and certificates never possess, what "Favorite Remedy," the great specific for blood, liver and influence of thunderstorms on underkidney disorders, has done for them and their friends.
