CINCINNATI .- The Times-Star says : 'A remarkable discovery made last winter, is attracting wide spread interest. As it involves a most important question,-that of public health, it is being discussed by eminent physicians and public men. It is shown conclusively that throat and lung troubles can be cured without resorting to the use of morphia or opium,-especially dangerous in the case of children as arresting development, and poisoning the system. The Governor of Maryland and all the officials of that state endorse the remedy; the state chemist of Delaware pronounces it the purest and most effective, and hospitals and charitable institutions in Philadelphia and other cities use it with remarkable results. The remedy, which is only twenty-five cents a bottle, "Birdie has a sweet, endearing sound

RAPID BLISTER .-- It is sometimes desirable to produce a small blister quickly. For this purpose nothing is better than concentrated water of ammonia (Aqua ammonics fortior). Put a few drops of it in a watch-crystal or any reseptacle of the sort, cover it with a pledget of absorbent cotton, invert on the spot to be blistered and press closely. In half a minute or so a red sircle will appear on the skin around the edge of the confining vessel. It is an evidence that vessication has taken place, and the blistering material can be removed. The blister should be treated in the same manner as one obtained from cantharides.
