DROPPED DEAD," The Fate that Overcame "Little Mac" and live other Governors.

Apropos of the sudden death of Gen, Geo. B. McClellan, we note that the New York Sun, points out the singular fact that Governor DeWitt Clinton, Governor Silas Wright, Governor William L. Marcy, Governor and Chief Justice Sanford E. Church, and Governor R. E. Fenton, all of New York State, dropped dead of heart disease, and under quite identical circumstances-each of them dying while reading a letter except Marcy, who was perusing Cowper's

Hold your hand against the ribs on your left side, front,—the regular, steady beating of the great "force pump" of the system, run by an unknown and mysterious Engineer, is awful in its impressiveness!

Few persons like to count their own pulse beats, and fewer persons still enjoy marking the "thub-thub" of their own heart.

"What if it should skip a beat!" As a matter of fact the heart is the least susceptible to primary disease of any of our vital organs. It is, however, very much injured by certain long-continued congestions of the vital organs, like the kidneys, liver and stomach. Moreover, blood filled with uric acid produces a rheumatic tendency, and is very injurious to healthful heart action,-it often proves fatal, and of course, the uric acid comes from impaired kidney action,

Roberts, the great English authority, says that heart disease is chiefly secondary to some more fatal malady in the blood or other vital organs. That is, it is not the original source of the fatal malady.

The work of the heart is to force blood into every part of the system. If the organs are sound it is an easy task, If they are at all diseased, it is a very, very hard task. Take as an Illustration: The kidneys are very subject to congestion and yet, being deficient in the nerves of sensation, this congested condition is not indicated by pain. It may exist for years, unknown even to physicians, and if it does not result in complete destruction of the kidneys, the extra work which is forced upon the heart weakens it every year, and-a " mysterious" sudden death claims another victim!

This is the true history of "heart disease," -so called, which in reality is chiefly a secondary effect of Bright's disease of the kidneys, and indicates the universal need of that renowned specific Warner's safe cure.

B. F. Larrabee, Esq., of Boston, who was by it so wonderfully cured of Bright's disease, in 1879, says that with its disappearance went the distresing heart disorder, which he then discovered was only secondary to the renal

trouble. There is a general impression that the medical profession is not at fault if | all cases of Catarrh, Hay Fever, Colds it frankly admits that heart disease is in the Head, Headache and Deafness. the cause of death. In other words, It is doing wonderful work. Do not a cure of heart disease is not expected fail to procure a bottle, as in it lies the

down, worn out, apoplectic heart, but druggists. 60 cents by mail. Ely Bros., there is a help for the kidney disorder Owego, N. Y. which in most cases is responsible for the heart trouble, and if its use put money and fame into the treasury of the profession instead of into the hands of an independent investigator, every graduated doctor in the world would exclaim of it, as one, nobler and less prejudiced than his fellows, once exclaimed: "It is a God-send to human-

What therefore must be the public estimate of that bigotry and want of frankness which forbids in such cases (because for sooth it is a proprietary article,) the use of the one effective remedial agency of the age ?"

"Heart disease," indeed! Why not call such things by their right names? Why not?

"Dead without a moment's warning." This likewise is an untruth! Warnings are given by the thousand. Physicians are "not surprised." They "expected it !" They know what the end will be, but the victim ?- "oh no. he musn't be told, you know, it would only frighten him, for there is no help, you know, for it!"

The fate that attended "Little Mac" and the five governors is not a royal and exclusive one-it threatens every one who fails to heed the warnings of nature as set forth above.

HOUSEHOLD.

BULGARIAN chair covers are now adopted as short curtain blinds to dining room or bedroom windows. They ere run on a string, and either looped back or left to hang down, according to taste. Occasionally they are fantastically caught up with loops of ribbon or fans; they are also used in very dainty bedrooms as washstand splashers, festooned down one side and across the top of a piece of gold or colored American cloth. The beautiful silk embroidery on these Bulgarian and Turkish chair backs is often carefully cut out and appliqued to satin or velvet, and the entire system, and it is "Never known to fall." made up into night-dress cases, glove or handkerchief sachets or album covers. Austrian blankets with their bright colored striping, are often to be seen over beds. Genoese coverlets, more quaint than beautiful, and also Japanese covers, are favorites just at present. For a very smart quilt, cream-colored lace with a broad plush insertion, and a center to match, is fashionable, and is often given as a wedding *present. Lace festooned over colored siik is one of the last things in lamp shades. It looks light and pretty, and is often finished off with a bunch of fruit near the flounce.

WRAPS FOR BABY'S CARRIAGE .-Lovely little wraps for the baby carriage are made of two pieces of flannel -one, for instance, of blue, and one of white; pink the edges of both. If the blue is to serve for a lining, put a pretty design in outline stitch on it, and then catch the blue and white together with a row of feather stitching about two inches from the edge. If you wish to make it still more ornamental, a handsome bow of blue satin ribbon just above the embroidery is handsome. How long it will remain so depends on how well behaved the baby is,

ORNAMENTAL LAMPS.-Nuremburg amps, in dusky-green dull glass, resting in twisted iron stand, and Nuremburg candlesticks, consisting of a length of curled iron rising like a snake from a shamrock-shaped base, are among the rococo novelties. Dull-green glass with a well-simulated look of age about it, figures in quaint-shaped glasses, water and wine jugs, on well-appointed tables. A hall lamp of novel shape, looks very much like a halfopened parasol of rich painted glass, handle upward, with framework of castiron. Another style of a lamp is that supported on the back of a flying bird-to be seen usually in dining-rooms or libraries. A parrot, seagull, or indeed any bird, can be thus mounted, so that this may be a suggestion to any one with ornithological specimens at their command. Even the bird without the lamp is to be seen suspended by broad ribbon, from some post of van-

WIPING OIL CLOTH -Oil cloth must be wiped perfectly dry as it is washed. Use little soap, and this in tepid water. Change often. A good brush and a piece of dry flannel will make oil cloth look like new, especially if linseed oil or skim milk be well rubbed in after washing. If in addition to these precautions they are varnished annually they are almost indestructible.

An Architect's Opinion. Mr. Edward Sidel was the chi

sistant to the architect for the Exposi tion Buildings at New Orleans, He writes that he used St. Jacob's Oil with the best effects in a severe case of rheumatism, and recommends it to all similarly afflicted as the quickest and most certain remedy.

The face is the index of the mind.

Catarrh and Deafness. I HAVE been deaf in one ear ten years, and partially deaf in the other for two months; have been treated by ear specialty doctors and received no benefit. Having used Ely's Cream Balm for about a month I find myself greatly improved, and can hear well and consider it a most valuable remedy. I also had nasal catarrh, with dropping of mucus into my throat and pain over my eyes, which troubles also have entirely disappeared .- D. B. Yates, Lisle, Broom Co., N. Y.

OILING A CRANK .- The palatial steamer Albany was on her daily trip up the Hudson. A number of the passengers had gathered around the open door of the engine room, looking with interest at the movements of the ponderous machinery. Among the passengers was Sam Foster, a New York gentlemen, who is a practical joker. He is a young man of means and was elegantly dressed. He is moreover a very good amateur ventriloquist.
"Now, boys," said Foster, "let us

WARTER A. FOGELER CO., BALTIMORE, MI

have some fun with the engineer." A creaking, squeaking noise was heard among the machinery. The engineer was somewhat startled, and he lubricated various and sundry parts of maturing and developing into women. The the machinery with great industry and an oil can. The latter contained half a

pint of oil. Foster nudged one of his boon companions in the ribs, and pretty soon the machinery squeaked again. Once more the engineer calmed down a suspected piston by anointing it with his alleviator. The squeaking still continued, and Foster pointed out the place that needed oiling. Once more the engineer took his alleviator, and removing the cork, poured the contents down the back of the festive Foster, and over his \$40 suit of clothes.

"There," said the engineer, "I don't think that crank will squeak again in a hurry."

A NICE BREAKFAST DISH .- A Very good dish for breakfast may be made of cold beef, mutton or veal, Mince your cold meat very fine, take some state bread equal in quantity to the meat, break it in small pieces and soak in milk. Put the minced meat and soaked bread in a deep dish or tin pan, lay-Our pleasures have a higher relish er about, having first seasoned to taste and added a small quantity of chopped parsley. Sprinkle the top layer with fine dry crumbs and add small pieces of butter. A soupcon of onion may be added, but it should be cooked before being mixed with the chopped meat, as this dish does not require more than half an hour to brown in a hot oven. This may be either served in the dish in which it is baked, or turned out in a meat dish, and surrounded by er been used by the people and not a brown gravy made of the soup stock a word of complaint. Verily actions that good cooks always have on hand, and thickened with a dash of browned

ANTIDOTE FOR POISON.-A very effective and instantaneous remedy in almost all cases of poisoning is a heaping teaspoonful of common salt and as much ground mustard stirred rapidly in a teacup of tepid water. It is scarcely down before it begins to come up, bringing with it the remaining contents of the stomach, and lest there be pound of butter, half a pound of sifted any remnant of poison, however small, let the white of an egg, sweet oil or beaten fine in a mortar or grated; two eggs and the grated rind of a half a swallowed immediately after vomiting.

"How DOES this weather affect you, "Doesn't affect me at all. I am used

to all extremes." When the paste is made roll it out "You are lucky." "Lucky? ha ha! List thee, Algernon, while I make clear this thing to thee. The bond of wedlock holds me fast to this. Between my wife and me exists an icy coolness, which is why she ofttimes makes it hot for me. Perceivest thou now?"

No other medicine known so effectually urges the blood of deep-scated diseases.

No other medicine known so effectually purges the blood of deep-seated diseases.

Millions bear testimony to its wonders ful curative effects.

It is a purely Vegetable Preparation, made from the native heris and roots of California, the medicinal properties of which are extracted therefrom without the use of Alcohol.

It removes the cause of disease, and the patient recovers his health.

It is the great Bilood Purifier and Lifegiving Principle; a Genile Purgative and Tonic; a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Vinedas Bitters in healthing the sick of every disease man is heir to.

The Alterative, Aperient, Disapheretic, Carminative, Nutritious, Lazative, Sedative, Counter-Irritant, Sudorific, Anti-Billous, Solvent, Diuretic and Tonic properties of Vinedas Bywens exceed those of any other medicine in the world.

No person can take the Bitters according

world.

No person can take the Brrrass according to directions and remain long unwell, provided their bones are not destroyed by mineral pelson or other meens, and the vital organs wasted be-

or other means, and the vital organs wasted beyond the point of repair.

Billious, Hemittent, Intermittent and Maiarial Fevers, are prevalent throughout the United States, particularly in the valleys of our great rivers and their vast tributaries during the Summer and Autumn. especially during seasons of unusual heat and dryness.

These Fevers are invariably accompanied by extensive derangements of the stomach, liver and bowels. In their treatment, a purgative, exerting a powerful influence upon these organs, is absolutely necessary.

erting a powerful influence upon these organs, is absolutely necessary.

There is no cathartic for the purpose equal to Dr. J. Walker's Virman Bryenes, as it will speedily remove the dark-colored viscid matter with which the bowels are loaded, as the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purfying all its fluids with Virman Bryenes. No epidemic can take hold of a system time foregrand.

rying an ic all take hold of a system time forearmed.

It Invigorates the Stomach and stimulates the torpid Liver and Bowels, which render
it of unequaled efficiency in cleaning the blood
of all impurities, impuriting new life and vigor to
the frame, and carrying off without the aid of
Calomel, or other mineral medicine, every paricle of poisonous matter from the system.

Dyspepsia or Indigestion, Headache,
Paln in the Shouldera, Coughs, Tightness of the
Chest, Diziness, Bour Stomach, Bad Taste in the
Mouth, Billous Attacks, Palpitation of the Heart,
Inflammation of the Langs, Pain in the region of
the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

Scrofulan, or King's Evil, White Swellings, Ulcers, Erystpelas, Swelled Neck, Golfre,
Scrofulous or Indoesst Inflammations, Hercarial
Affections, Old Scree, Eruptions of the Skin, Sore
Ryes, etc. In these, as in all other constitutional
Discases, Walker's Versoak Barrans has shown
their great curstive powers in the most obstinate and intractable cases.

For Inflammas tory and Chronic Rheumstism, Gout, Billous, Remittent and Intermittent
Fevers, Discases of the Blood, Liver, Kidneys and
Badder, the Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Bissenses, Persons engaged
in Paints and Minerals, such as Flumbers, Typesetters, Gold-beaters, and Minera, as they advance in life, are subject to paralysis of the
Bowels. To guard against this, take a dose of
Walker's Versoak Berress.

For Skin Discases, Eruptions, Tetter,
Sak Rheum, Blotches, Spots, Phaples, Pustukes,
Bolls, Carbuncles, Ring-worms, Scald-head, Sore
Eyes, Erystpelas, Itch, Scurfs, Discolorations,
Humors and discases of the Skin of whatever
name or nature, are literally dug up and carried
out of the system in a short time by the use of
the Bitters.

Pin, Tape, and other Worms, lurking
in the system of so many thousands, are effect
the Bitters.

out of the system in a short time by the use of the Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. So system of medicine, no vermituges, no antheiminica, will free the system from worms like the Bitters.

For Fernale Complaints, in young or old, married or single, at the dawn of woman-hood, or the turn of life, this Bitters has no equal. Cleanse the Vitiated Bleod whenever you find its impurities bursting through the stin in Pimples, Eruptions, or Sores; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

In conclusion: Give the Bitters a trial. It will speak for itself. One bottle is a better guarantee of its merits than a lengthy advertisement. Around each bottle are full directions printed in different languages.
