LOCAL ITEMS.

ORIENTAL is the best in the market. Tuesday was cloudy with inclination to snow. The Oak Hall postoffice will be kept in Korman's new store.

Judge Furst passed the following sentences last week:

John R. Seiler, who was found guilty of assault and battery, was sentenced to pay a fine of \$25 and costs of prosecution. Wm. Nihart pleaded guilty to the charge of bigamy, and the court sentenced him to pay \$100 fine, costs of prosecution and undergo imprisonment in the western penitentiary for the period of one year and four months.

G. H. Leyman, who was convicted of assault and battery, was sentenced to pay a fine of \$100, costs of prosecution, and enter into bonds in the sum of \$500 to keep the peace toward all men, and especially toward Barabas Shoppe.

John Jones, charged with threats, was sentenced to pay the costs of prosecution. Wm. Butler pleaded guilty to furnishing liquor to Barney Morrison, and was sentenced to pay a fine of \$10, costs of prosecution and undergo imprisonment in the county jail for a period of sixty days.

Charles P. Roney pleaded guilty to assault and battery, acknowledged to the court that he was indebted to the commonwealth in the sum of \$500, conditioned that he keep the peace toward all men and especially toward his father-in-law, Uriah Wilson.

All the farmers' boys in this community should know that on the 23d of last June the legislature passed a law for the benefit of agriculture and protection of game, by offering a bounty of two dollars for every wild cat killed, one dollar for every red or gray fox slain, and fifty cents for every mink, weasel, hawk or owl, excepting the screech or barn owl.

Much sympathy was felt in the courthouse last week for a little orphan boy of Millheim, who was prosecuted for taking \$170 from some person in that town, last summer. The boy refunded \$140 of the money and a loving sister made up the balance.

The two new buildings erected over the burnt district at Bellefonte are an improvement and an addition to the business portion of the town. The first floors of the buildings consist of a number of finely finished store rooms which are rapidly being occupied.

The establishment of a post-office at Oak Hall was a proper move and gives that locality needed postal facilities. The only thing we regret is that the opportunity was not embraced to give it another name in order to lessen the ridiculous "Hall" business.

Mr. Robert L. Ream, employed in the Government Department, and an uncle of Mr. John Kishel, of this place, died in Washington City, on 21st ult., of heart disease. He was the father of Missie Ream who drew the prize for the best statue of Abraham Lincoln.

Miss Mary Kreisher, who had her home for many years with the family of Wm. Wolf, of this place, has made her home in Kent, Stephenson county, Ill. Mary had many friends here, and the REPORTER knows she will gain as many in her new home.

Rev. J. S. McMurray, Presiding Elder of (Methodist) Juniata Valley district, died at Matland, Millifield county, on 23d ult., of heart disease. He was well known to citizens in those parts, and is the owner of a farm near the Union church.

RESIGNATION OF REV. MILLER.

At the annual meeting of the Joint Consistory of Rebersburg Reformed church the resignation of Rev. N. J. Miller, pastor of the charge, was accepted.

A committee appointed by the Joint Consistory to draft appropriate resolutions, reported as follows: Whereas, It is with great reluctance that we unite with Rev. N. J. Miller in petitioning the Consistory to sever the existing pastoral relation in which we are bound so closely together by affectionate ties, during his pastorate among us by his Christian department and earnest exposition of the Word of God, therefore, be it resolved—

That we bow to the will of the Great Head of the Church who in his infinite wisdom rules over the hearts and minds of men for the welfare of His kingdom upon earth.

That we, the people of the Rebersburg charge, with one voice express our sincere regret to part with our beloved pastor; but, owing to his family not becoming reconciled to living at a distance from the parental home at Lancaster, we have accepted his resignation.

That we assure our pastor that our best wishes will accompany him to his future field of labor and our prayer that it may yield an abundant harvest of souls for eternity.

A GLANCING BULLET

Terribly Wounds a Young Hunter in Black Log Mountain. Millertown, Pa., Nov. 27.—A gunning accident occurred on the Black Log Mts yesterday, which in all probability will prove fatal. Jonathan Coffman and a Wm. Musselman started early this morning to hunt wild turkeys.

It has been reported to us that unfounded reports have been circulated in regard to the Centre Hall roller mill, and that they might leave a false impression with some, we deem it best to contradict the following:

1. That only 24 lbs. of flour are given in exchange. The mill gives 33 lbs. for white wheat, and 40 lbs. for red wheat. 2. That for chopping the 8th is taken; this is not true, chopping is done for the 10th as in all other mills.

These are solid facts. The best blood purifier and system regulator ever placed within the reach of suffering humanity truly is Electric Bitter. Its activity of the liver, biliousness, jaundice, rheumatism, kidney disease, or any disease of the urinary organs, or whoever requires an appetizer, tonic or mild stimulant, will always find Electric Bitter the best and only cure known.

Wm. H. Hartner, of Hartison, writes the REPORTER Nov. 25: Four bears were killed in Hartley town, less than two weeks. Mr. David Dorman, the expert trapper, steps to the front and leads off with a monster safely housed in comfortable quarters on Jack's mountain, on 23d instant, that dressed 335 pounds, of which I send you a sample.

Through our luxuriant and perverted modes of living, and from a severe of causes besides, diseases of the kidneys and urinary organs are now among the most common and fatal in this country. Men suffer from them most frequently and intensely. Their victims are being exhausted by the waste of life every day.

Men, when their actions succeed not as they would, are always ready to impute the blame thereof unto the heavens, in so doing to excuse their own follies.

THE DELIRIUM OF COCAINE.

Cocaine, the new anesthetic, which, as a cure for hay fever and similar troubles, promises to become a familiar antidote, carries with it evils as great as opium or alcohol when the habit of its use becomes fixed. A Rochester physician describes its peculiar effects upon the system that is addicted to it: While a person in normal health is exhilarated by the use of the drug to such an extent that natural cowardice is supplanted by the greatest daring, the slave to the drug, though previous to his enthrallment one of the bravest of men, becomes the most arrant coward. He will not sleep, except at long intervals, but never loses his appetite, eating heartily as soon as the nausea induced by the injection has passed off.

Most of these hair preparations don't work," writes Mr. J. S. Bordin, of St. Louis, "but Parker's Hair Balsam is an honorable exception. My hair was thin and prematurely gray. The Balsam made it brown again and soft as in my boyhood."

How often do we hear of the sudden fatal termination of a case of crup, when a young life might have been saved by the prompt use of Ayer's Cherry Pectoral. Be wise in time, and keep a bottle of it on hand, ready for instant use.

When Dr. Richmond's Samaritan Nervine shall have become the standard medicine of the civilized world, as it is already of America, all ailments arising from the blood will be universally regarded as transient evils. \$1.50.

Aches and pains long borne make even the young feel old. The true remedy is Parker's Tonic. It purifies the blood, sends in order the liver and kidneys, banishes pain and builds up the system. Be wise in time, and keep a bottle of it on hand, ready for instant use.

Quincy troubled me for twenty years. Since I started using Dr. Thomas' Electric Oil, I have not had an attack. The Oil cures sore throat at once." Mrs. Letta Conard, Standish, Mich.

Prof. Richard A. Proctor says the moon is the most interesting of all the heavenly bodies. It has been particularly serviceable in the proof it affords of the law of gravitation. It proves, too, what the world has been in remote ages of the past and what it will be in remote ages to come.

Men, when their actions succeed not as they would, are always ready to impute the blame thereof unto the heavens, in so doing to excuse their own follies.
