OTICE TO TAX-PAYERS.—Whereas there is a general opinion prevailing among the tax-payers throughout the county that because a collector's warrant is good for two years, they have the same length of time in which to pay the taxes. Tax Collectors frequently complain to us that many persons make this a pretext for refusing to pay their taxes until they are actually forced to go so, and these being gen erally such as are best able to pay. We therefore submit for your information the following Act of Assembly of April 15, 1854, in relation thereto?

"Every collector shail, within three months after receiving the correct duplicate, pay into the hands of the treasurer of the property, county or township as the case may be, the whole amount of the taxes charged and assessed in such duplicate, excepting such sum as the Commissioners, or Supervisors and Overseers, as the case may be, in their discretion, may exhonerate him from, on pain of being auswerathe for and charged with the whole balance remaining so unpaid."

You will readily see by the above act that tax collectors are required to pay in the full amount of their duplicates within three months after the duplicates are piaced in their hands.
