THE NARROW ESCAPE

Of a Massachusetts Engineer. Sleep after fatigue and health after disease are two of the sweetest experiences known to man, Fourteen years is a long time to suffer, yet Mr. Peter Lawler, of Dalton, Mass., had led a miserable life for that period through the presence of a stone in the bladder. He did obtain temporary relief, but nothing more. Last January he called on Dr. David Kennedy, of Rondout, N. Y., who said, after an examination: "Mr. Lawler. you have stone in the bladder. We will first try Dr. David Kennedy's FAVORITE REMEDY before risking an operation." A few days later the following letter passed through the Rondout post-office:

Dalton, Mass., Feb. 6.

Dear Dr. Kennedy: The day after I came hom
I passed two gravel stones, and am doing nicely.

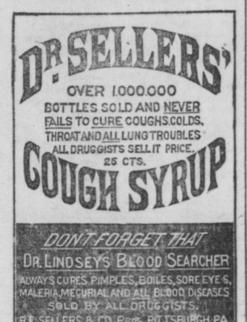

PETER LAWLER. Ir. Ke nody has the stones at his office, and

they are sufficiently formidable to justify the claim that Dr. Kennedy's Favorite Remedy is the leading specific for stone in the bladder. In his letter Mr. Lawler mentions that FAVORITE REMEDY also cured him of rheumatism. The subjoined certificate tells its own story:

Mr. Peter Lawler has been a resident of this town for the past 17 years, and in our employ for 15 years, and in all these years he has been a good and respected citizen of this town. He has had some chronic disease to our knowledge for most of the time, but now claims to be, and is, in apparent good health. CHAS. O. BROWN, Prest. St bottle, six for 85. All druggists. Dr. David Kennedy's "Favorite Remedy" (of Rondout, N. Y.)—It is not a mere soother, temporarily, of pain, but by its alterative action purifies the blood, restores a healthful condition to the diseased organs, and even dissolves and causes the expulsion of gravel and stone from the kidneys and bladder. The testimony of hundreds who have been cured by it youches for this.

## ATER'S SARSAPARILLA has demonstrated its power of cure for all discusses of the blood.

The Marpooner's Ctory.

New Bedford, June 1, 1833.

Dr. J. C. Aten & Co.—Twenty years ago I was a harpooner in the North Pacific, when five others of the crew and myself were laid up with scurvy. Our bodies were bloated, gums swollen and bleeding, teeth loose, purple blotches all over us, and our breath seemed rotten. Take it by and large we were pretty badly off. All our lime-juice was accidentally destroyed, but the captain had a couple dozen bottles of Aten's Sarsaparilla and gave us that. We recovered on it quicker than I have ever seen men brought about by any other treatment for Scury, and Ive seen a good deal of it. Seeing no mention in your Almanae of your Sarsaparilla being good for scuryy, I thought you ought to know of this, and so send you the facts.

Respectfully yours, Ralphy Windatz. The Marpooner's Story.

Masten, Easutoland (S. Africa, March7, 1883

Dn. J. C. Atrin & Co.—Gentlemen: I have much pleasure to testify to the great value of your Sarsaparilla. We have been stationed here for over two years, during which time we had to live in tents. Being under carvas for such a time brought on what is called in this country "veldt-sores." I had those sores for some time. I was advised to take your Sarsaparilla, two bottles of which made my sores discippear rapidly, and I am now quite well.

Yours truly, T. K. Boden.

JOHN RISHEL, Chief Burgess. HALF-EDUCATION.

A Mune correspondent tells a good deal of truth in relation to the fact of too much teaching of youth; that is, too much half education. The writer's statements remind us of what Daniel Webster once said, namely, that he learned more the first year after he left college than he did the whole time he was there. Here is what the correspon-

"The sickly colleges scattered around the land are responsible for the very large number of failures in life. Boys have been taken from plow, plane and anvil and sent to the great cities to be poor lawyers, miserable doctors and wretched ministers, until failing in these pursuits they degenerate into lightningrod peddlers and book agents, to finally disappear beneath the earth they had encumbered when above it. Wor t of all, it engenders a feeling of public dependence in the minds of youth. It takes away the spur to which we are indebted for most of our great men. A thorough common school education is

ample basis for good citizenship. "Why, my dear sir, we have men in this town (Saco) who think a boy with all the common school education in the world a fool, without a smattering of Greek, Latin, French, German, and particularly botany; and these are the men who would demoralize our country by giving our children a fancy, fashionable education, which unfits at least maidens to get an honest living. It is as plain as the nooaday in this town and Biddeford that the free high school is a curse to the rising generations. It fits nine-tenths of our young men and them only for consumers. Our grammar

## An Efficient Remedy

In all cases of Bronchial and Pulmo-In all cases of Bronchial and Pulmonary Affections is AYER'S CHERRY PECTORAL. As such it is recognized and prescribed by the medical profession, and in many thousands of families, for the past forty years, it has been regarded as an invaluable household remedy. It is a preparation that only requires to be taken in very small quantities, and a few doses of it administered in the early stages of a cold or cough will effect a speedy cure, and may, very possibly, save life. There is no doubt whatever that

Ayer's Cherry Pectoral

Has preserved the lives of great numbers of persons, by arresting the development of Laryngitis, Bronchitis, Pneumonia, and Pulmonary Consumption, and by the cure of those dangerous maladies. It should be kept ready for use in every family where there are children, as it is a medicine far superior to all others in the treatment of Croup, the alleviation of Whooping Cough, and the cure of Colds and Influenza, ailments peculiarly incidental to childhood and youth. Promptitude in dealing with all diseases of this class is of the utmost importance. The loss of a single day may, in many cases, catail fatal consequences. Do not waste precious time in experimenting with medicines of doubtful efficacy, while the malady is constantly gaining a decisor lood, but take at once the speediest and most certain to cure, Laryngitis, Bronchitis, Pneumonia,

"The result of this kind of education in these two towns is that the Yankee is becoming almost helpless in the way of getting an honest livelihood, while the French and Irish are living on what we waste on ornamentation, and laying up half their wages, and becoming possessors of a large amount of our real estate which formerly belonged to native citizens.
