St. Jacobs dirt spots on carpets, which should afterwards be rubbed dry with a piece of soft cloth; oil or grease on corpets may also be rubbed out with I di in meal, the latter being replaced as last as discolored with more meal till the spot has disappeared, tarnished brass candlesticks will shine like new ones if rubbed with a solution of oxalic acid and then polished with the finest emery; whiting and benzine mixed to a paste will remove grease spots from marble; colored matting shows dirt readily, especially in dusty weather, but this and other kind of matting may be wiped clean with a cloth dampened with salt and water; chlorinated soda, which may be procured at any druggist's will remove ink stains on white wash goods without injuring the cloth, the application being by simply pouring a few drops on the stained surface; Benares or any finely etched brass should be cleaned in this way. Wash in pure hot water, rub with a bit of soft cloth dipped in lemon juice, rinse again in hot water and polish with a piece of chamois skin.

TISSUE PAPER MATS.—Open a sheet of tissue paper, fold in centre lengthwise once, then fold the other way twice and cut. There will be six squares. Fold across cornerwise three times, cut deep, round scallop, now un- fair to assume that Hood's Sarsaparilla will cure You have six rounds of eight scallops each. I use four sheets of green tissue, different shades; dark to light is best. Fold and cut each sheet same as first. Take one round of the paper, fold one scallop lengthwise in centre on one wire of a common bairpin, holding the head of the pin in the right hand, press in gathers the paper with the left hand, towards the right, without breaking the paper shirr each scallop in this way, then take one round of each shade from dark to light and some rose-colored paper, red, pink, yellow and cream white, fold and cut in the same way three rounds of each color, size three inches each, and shirr in the same way. Take a piece of yellow paper on a wire for centre of rose, put them on the wire, and you will bave a handsome rose. Place equal distances apart, one of each shade around | this explains the reason why Carboline the mat, and fasten in place. They make pretty mats for fairs.

A DECORATED GOBLET .- An interesting home-made method of natural decoration consists simply of taking a glass or goblet and placing in the interior a little common salt water. In a from art degrades nature. day or so a slight mist will be seen upon the glass—hourly this will grow until in a very short time the glass will present a beautiful appearance, the glass being enlarged to twice its thickness, and covered with beautiful salt crystals, packed one upon another exactly like some peculiar fungus or animal growth. It is necessary to place a dish beneath the glass, as the crystals will run over. The glass can be made additionally beautiful by placing in the salt and water some common red ink; this will be absorbed and the white suron the glass--hourly this will grow unthis will be absorbed, and the white surface covered. No more simple method of producing inexpensive or beautiful ornaments can be imagined, and by using different shapes of vases and shades, an endless variety of beautiful forms can be produced.

SPANISH PUDDING .- Beat to a cream four ounces of butter and the same weight of sugar. Add to it four ounces of bread crumbs, the beaten whites and yelks of four eggs and two ounces of wheat flour. Beat well together and stir in one gill of milk, three ounces of currants and the grated peel of a lemon. Turn the mixture into a buttered pudding mold and tie a cioth over it and put it into a pot of boiling water and let it boil for an hour and a half. Make a sauce of four ounces of white sugar, one glass of brandy or noyeau and the juice of one lemon. Boil till the sugar melts, then put it into the beaten whites of two eggs and turn at once over the pudding in a hot dish or serve it in a sauce boat.

APPLE MINCEMEAT .- One pound tart apples, one pound currants, one pound suet, one pound brown sugar, one-fourth pound raisins, four oranges, two lemons, one tablespoon ground allspice, one teaspoonful ground mace, one wineglassful brandy. Peel and mince the apples, chop the suet fine, stone the raisins and cut them in halves, pick and wash the currants, squeeze and strain the juice of the oranges and lemons (chopping up the rind of one of the lemons), and mix the ingredients together with the sugar, adding the spices and the brandy. When all are thoroughly mixed, cover closely and keep in a cool place.

BUTTER MAYONNAISE - Take a spoonful of flour and beat it up with the yelks of three eggs. Then add about a teaspoonful of mixed mustard, half a saltspoonful of salt, half a teaspoonful of pepper, two table-spoonfuls of vinegar and three tablespoonfuls of water. Then take a couple of slices of bacon, cut them into dice and fry until they begin to be colored. Then, pour in the salad mixture, stirring it over the fire till it becomes thick and smooth. Pour it out into another vessel and continue to stir it until cool, adding a little more vinegar and water if needed to bring it to the proper consistency, which should be like that of custard.

WAFFLES.-Mix one tablespoonful of butter and one of sugar; and add the yolks of three eggs which have been well beaten. Beat thoroughly and mix with one quart of milk, adding flour enough, in which has been put two tablespoonfuls of baking powder, to form a stiff batter. When well mixed add the whites of the eggs, which have been beaten to a stiff froth, and bake in the waffle iron a delicate brown.
