

"What are the churches doing for humanity?" asked Brother Talmage. Funny he does not know; they're getting up fairs.

Friendship between women is only a suspension of hostilities.

A vigorous and healthy growth of hair is maintained by using Hall's Hair Renewer. The value of Ayer's Cherry Pectoral, for colds and coughs, cannot be overestimated.

They that govern must make least noise.

Husbands! take the hint. Your wife or your children are liable to take colds from drafts. Keep on hand Allen's Lung Balm, the best and purest remedy for coughs and colds. It contains no opium, and is harmless. Price, 25c, 50c, and \$1 per bottle, at Druggists.

Any man pays too much for his whistle who wets it fifteen or twenty times a day.

Sick Headache. Thousands who have suffered intensely with sick headache say that Hood's Sarsaparilla has completely cured them. One gentleman thus relieved, writes: "Hood's Sarsaparilla is worth its weight in gold." Sold by all druggists, 100 doses \$1.

He who too much fears hatred is unfit to rule.

DR. WALKER'S VINEGAR BITTERS—a medicine that expels disease without weakening the patient, exhilarates the spirits without the aid of alcoholic poison—cures every phase and consequence of indigestion, restores the shattered nerves, regulates the bowels and the liver, and imparts to the constitution new strength and elasticity. Let the sick rejoice.

Rumor doth double, like the voice and echo.

THE SECRET OF LIVING. SCOVILL'S SARSAPARILLA, OF BLOOD AND LIVER SYRUP, will cure Scrofulous Taint, Rheumatism, White Swelling, Gout, Gravel, Consumption, Bronchitis, Nervous Debility, Malaria, and all diseases arising from an impure condition of the blood. Certificates can be presented from many leading physicians, ministers, and heads of families throughout the land, endorsing it in the highest terms. We are constantly in receipt of certificates of cures from the most reliable sources, and we recommend it as the best known remedy for the cure of the above diseases.

A woman need not always recall her age, but she should not forget it.

In point of medicinal power and excellence Hop Plasters are far ahead of all others. 25c.

Good glue, mixed with about one-quarter its bulk of fine wood ashes, makes a strong cement impervious to oil. Gutta-percha dissolved in bisulphide of carbon makes a strong cement not easily penetrated by oil. Make the cement as thick as treacle. Warm the parts to be cemented, and press together tightly.

According to the British Board of Trade no fewer than 149 ships laden with timber have been totally lost within the last few years. This explodes the theory that a ship loaded with wood cannot sink.

A novel gas light, devised by Dr. Auer, has been in operation in a chemical laboratory in Vienna. A cotton wick, saturated with an incombustible metal solution, is introduced into the flame of an ordinary Bunsen lamp, the result being a light similar to the incandescent electric light.

An account of the "Anemogene," an apparatus for imitating the great movements of the earth's atmosphere, has been given to the French Academy of Sciences. By means of this instrument, which takes the form of a miniature revolving globe, the trade winds, ascending and descending currents, and other normal atmospheric phenomena, are reproduced.

The water in the Gulf of Bothnia is reported to be falling quite rapidly. One proof of this is that a large stone on the Swedish coast now rises three feet above water at mean tide while fifty years ago it was barely visible at lowest tide.

A favorite prehistoric unit of measurement, according to Mr. R. P. Gray, was eleven inches, and may have been derived from the length of the human foot.

"What a lovely head of hair she has!" was said of a certain young lady not long ago, and if she would only tell the world that she used Carboline, the natural Petroleum Hair Renewer, she would confer a great favor to all her sex.

All honest men will bear watching. It is the rascals who cannot stand it.

Wm. Black, Abingdon, Iowa, was cured of cancer of the eye by Dr. Jones' Red Clover Tonic, which cures all blood disorders and diseases of the stomach, liver and kidneys. The best tonic and appetizer known. 50 cents.

In church women think that they receive because they observe, and that they are meditating when they are only holding their tongues.

FOR DYSPEPSIA, INDIGESTION, depression of spirits and general debility in their various forms, also as a preventive against fever and ague and other intermittent fevers, the Ferro-Phosphated-Extract of Calissaya made by Cassell, Hazard & Co., New York, and sold by all Druggists, is the best tonic and for patients recovering from fever or other weakness, it has no equal.

Flameless Cartridges—In some of the English collieries experiments have been made with "water cartridges," in which the gunpowder of the charge is completely surrounded by water. It is stated that no flame followed the explosions, even when heavy blasts were made. The water cartridges and ordinary gunpowder cartridges were fired in bags of coal dust, the dust being ignited by the latter, while the former simply dispersed it in a dark cloud mixed with steam. The new cartridges are expected to render great service in mines where fire-damp is present.

The Milwaukee and St. Paul's Withdrawal. The summary action of the Chicago, Milwaukee and St. Paul in giving notice of withdrawal from the Missouri River passenger pool February 1, leads to the belief that great difficulty will be experienced in effecting a compromise. A careful investigation appears to indicate that, in this threatened trouble, the managers of the Rock Island are primarily responsible. This great corporation has comparatively little interest in the Northwest, but through its "roundabout" connections demands recognition and a large slice of the Northwestern traffic. It is an open secret that while the Rock Island is supposed to be more distinctively than almost any other a Chicago road, its power and influence are being used not only to further the speculative desires of a trusted few in Wall Street, but practically against Chicago's best interests. But leaving aside all discussion of passenger quarrels and Wall Street combinations to fleece the lambs, the freight problem stands locally pre eminent. It is the question in which every one is interested. The fact is not disputed that a steady maintenance of reasonable and just rates inures to the benefit of the entire business community, and yet it can hardly be denied that this so-called Chicago road has been discriminating steadily against the interests of Chicago.

When the fact is taken into consideration that the freight traffic of the Western roads represents 75 per cent of the gross revenue, some estimate may be formed as to the extent of injury to Chicago such a route is capable of doing when administered in the interest of Wall Street. The hope is expressed that the Milwaukee and St. Paul and the Northwestern may join forces long enough to effectually suppress this outside pirating and bring the business back to its legitimate course through Chicago.

A QUESTION ABOUT Brown's Iron Bitters ANSWERED.

The question has probably been asked thousands of times: "How can Brown's Iron Bitters cure everything?" Well, it doesn't. But it does cure many diseases for which a reputable physician would prescribe iron for which a reputable physician would prescribe iron for which a reputable physician would prescribe iron.

Important Caution to Persons Seeking Relief from my World-renowned Remedy.

OWING to my great success in the restoration of sight to the blind, several persons have attempted to place on the market a fraudulent imitation of my wonderful little instrument, persons are therefore warned that every bottle of ACTINA, must bear the imprint in the copper basin of the fine body the words "ACTINA, W. C. WILSON, INVENTOR." Persons writing or ordering on the every day complaining of such frauds, stating their eyes have been injured by these vile imitations, therefore, any person offering to sell an eye restorer under the name of "ACTINA," and not giving my written autograph, so to sell, are guilty of a fraud, and will receive every person's information against such persons in any state, city or village.

Throw away your spectacles. Get rid of your CATARRH, and all diseases of the eye. ACTINA, W. C. WILSON, INVENTOR. 1113 Chestnut Street, Philadelphia. Agents wanted in every City of the Union. \$50 a week may be made.

CAUTION.—The word "ACTINA" is my Trade-mark, registered February 1892. Any person infringing will be prosecuted.

Scrofula of Lungs.

I am now 49 years old, and have suffered for the last fifteen years with a lung trouble. I have spent thousands of dollars to arrest the march of this disease, but temporary relief was all that I obtained. I was until for several years, and I have been greatly benefited by the use of Hood's Sarsaparilla. I feel that I have been cured, and I will give my name to the world as a testimonial. I have been three years since I stopped the use of the medicine, but I have had no return of the disease, and there are no pains or weakness left in my lungs. I feel that I have been cured, and I will give my name to the world as a testimonial. T. J. HOLY, Montgomery, Ala., June 2, 1895.

Vinegar Bitters, a purgative and tonic, purifies the blood, strengthens the liver and kidneys, and restores health, however lost.

Vinegar Bitters is the best remedy discovered for promoting digestion, curing headache and increasing the vital powers.

Vinegar Bitters stimulates the food, regulates the stomach and bowels, giving healthy and natural sleep.

Vinegar Bitters is the great disease preventer and standard for all ailments of the Liver, Kidneys, and a hundred other painful disorders.

Send for either of our valuable reference books for ladies, for farmers, or merchants, our Medical Treatise on Diseases of our Blood, Liver and Kidneys, and a hundred other painful disorders.

Any two of the above books mailed free on receipt of four cents for registration fees.

ELLY'S Cream Balm CATARRH CURE. We have never handled a catarrh remedy that has increased so rapidly in sales as Elly's Cream Balm or that has given such universal satisfaction.

A FACT. A doctor writes: "I cannot make hair grow on a bald spot, nor flesh grow on a wooden leg, but where the eye is not broken up or disintegrated, such can always be restored, even though your oculists and doctors say you are incurable; therefore, if you suffer, see your right."

FARM NOTES.

CHEAP EGG-PRODUCING FOODS.—In the morning, just as the hens come off, is the time to give them the soft food, and it should be warm and stimulating; but do not give them all they can eat, nor feed them on the ground, but rather give only enough to afford them a partial breakfast, and then make them scratch, if necessary, compelling them to go hungry until night, rather than that they should mope around and become lazy and idle.

At night stuff them with all the mixed grain they want. There are many ways of preparing cheap, nourishing foods, which may contain all the elements of the eggs. One of the best is as follows: Take a piece of liver, rough beef, or even blood (about a pound), and boil it in half a gallon of water, adding more when too much has evaporated. While boiling add half a pint of soaked beans, the same of linseed meal. When the whole is cooked add salt to taste and thicken with two parts ground oats, one part corn, one part middlings and one of bran meal. Add the mixed ground grain until the mess has thickened to a stiff dough. If it burns a little no harm will be done. Then stir in half a pint of ground bone. If milk be convenient it may also be added, either as curds, buttermilk or in any other shape.

When boiling add a tablespoonful of bread soda to the water. This food may be cooked in the shape of cakes and crumbled for the fowls or fed in the soft state. A tablespoonful of sufficient for each hen. Just before adding the ground grain chopped clover may be placed in the boiler also. Another good mess is to chop clover very fine and steep it over night in boiling water. In the morning let the water come to a boil, and add a fresh bullock's blood to each gallon of water; thicken with mixed ground grain as before, and feed. Condiments, such as red pepper, ginger, etc. should be fed sparingly. Once or twice a week soft food should be salted to suit the taste, as salt is as essential to poultry as to larger stock.

The dairyman should have his scales and record-book and should weigh and record what he gives his cows, and also what they give him in return, until he knows exactly what each cow is doing. Then his opportunities for weeding out the unprofitable animals will be increased. Cows vary greatly in the amount of food consumed by each, and also in the yields of milk, and the dairyman should familiarize himself with their characteristics during all seasons.

WHENEVER there is any surplus honey comb around at this season, it should be exposed to hard cold, in order that the eggs of the moth or miller may be frozen. Comb should also be kept out of the way of rats and mice, for they are liable to be, will soon devour the comb.

MORE than half of the diseases so prevalent among farm horses are due to improper attention to the common laws of sanitation, and farmers would save many times the expense of a properly constructed stable were they to try the experiment. The animals that are so closely connected with the successful working of the farm assuredly deserve better care and attention than is usually given them. The humane man will therefore see that they have light, roomy, well-ventilated stables, where disease will be far less likely to enter.

It is claimed that larger and surer crops of strawberries are obtained where several varieties are grown together than where but a single variety is grown.

POTATOES which are dug in clear weather and thoroughly dried in the sun will keep in much better condition in the cellar than those put into bins without being sun-dried.

CONSUMPTION CURED. An old physician, retired from practice, having placed in his hands by an East India mission, any the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Coughs, Asthma, and all Throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow-men. It will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. Noves, 145 Foster's Block, Rochester, N. Y.

SHERWOOD HARNESS CO., Syracuse, New York.

March April May

Are the months in which to purify your blood, and for this purpose there is no medicine equal to Hood's Sarsaparilla. It purifies, vitalizes, and enriches the blood, removing all trace of scrofula or other disease. It creates an appetite and imparts new strength and vigor to the whole body. It is the ideal spring medicine. Try it.

"When I began taking Hood's Sarsaparilla I was dizzy in the morning, had a headache, and no appetite, but how I can hardly get enough cooked to eat." EMMA SHEPARD, Worcester, Mass.

Hood's Sarsaparilla. "I take Hood's Sarsaparilla for a spring medicine, and I find it just the thing. It tones up my system and makes me feel like a different man. My wife takes it for dyspepsia, and she derives great benefit from it. She says it is the best medicine she ever took." FRANK C. TURNER, Hook and Ladder No. 1, Boston, Mass.

"I have taken Hood's Sarsaparilla for dyspepsia, which I have had for the last nine or ten years, suffering terribly. It has now entirely cured me." MRS. A. NORTON, Chicopee, Mass.

Hood's Sarsaparilla. Sold by all druggists. \$1.50 for \$5. Prepared by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar.

TOWER'S FISH BRAND SLICKER. The Best Waterproof Coat.

WHEN hens have been laying for quite a while the eggs at the end of the prolific period will not produce as strong chickens as those which were laid at the beginning of that period. It appears as though the strength of the layer begins to diminish by this continued effort, and that the eggs are not sufficiently endowed with vitality near the last of the litter.

In churning should the temperature be too high the butter will either refuse to come or be soft and white, as it is more difficult to free it from the buttermilk. If too high the cream will sometimes foam and increase in bulk. The accepted temperature is about 56 degrees in summer and 62 degrees in winter, as the outside temperature will increase or lower that of the cream in the churn.

PROFESSOR MORROW thinks it would be an excellent plan to have classes in the schools of the rural districts in which matters pertaining to agriculture may be taught. A lecture at least once a week on dairying, analysis of soils, climatic influences on plants and the improvement of stock would impart valuable information, especially to the advanced attendants of the schools.

The most dangerous of all flattery is the very common kind that we bestow upon ourselves.

Decay of the Bones. With some thirly other symptoms, mark the progress of that terrible disease known as catarrh. It advances from stage to stage of fearful annoyance, and if neglected, is certain to end in general debility, and possibly in consumption or insanity. Dr. Sage's Catarrh Remedy will cure it at any stage. This medicine has been long before the public, and thousands have been restored to health by its never-failing virtues.

None but a fool is always right.

A Terrible Fire arouses the apprehensions of a whole city. And yet the wild havoc of disease strikes no one. Sad to relate, women suffer from year to year with chronic diseases and weaknesses peculiar to their sex, knowing that they are growing worse with every day, and still take no measures for their own relief. Dr. Pierce's "Favorite Prescription" is the result of life-long and learned study of female complaints. It is guaranteed to cure.

He that sips many arts, drinks none.

Without the wages of the poor. All plasters are not alike. Hop Plasters afford relief and cure when other kinds are worthless.

To fear the worst, oft cures the worst.
