| AN Indiana farmer finds that it is an advantage to mix bluegrass seed and advantage to mix bluegrass seed and other light grass seed with most sawdust before sowing. He says the grass seed adheres to the sawdust and enables the sower to gpread it evenly. He usee about three bushels of sawdust to one of grass seed. $\qquad$ <br> TIIE chief advantage of incubators consists in the circumstance that eggs may be hatched in them before fowls show a disposition to sit on exgs. The eegrs of dycks, can be batched in incubators to the most advantage, as eariy ducks of improved varieties sell at high ducks of improved var prices in large towns. |  |
