CENTRE HALL, PA., JUNE 2, 1886.

TERMS—\$2 per year in advance. \$2.50 when not in advance. Advertisements 20 cents per line for three insertions. One column per year \$30—1 column \$45.

Chinese! Dry-goods! In Lace! Embroideries! Merchants' Place, Bellefonte. D. GARMAN & SON.

LOCAL ITEMS.

Rails are now being laid on the Buffalo River railroad. Mr. John Emerick, one of our most respected citizens, is seriously ill. J. L. Hamill, son of Rev. Dr. Hamill, was admitted to the bar of this county last week. By the burning of the Curtin house at Milesburg, Ward Rishel, son of John Rishel, of this town, lost furniture and clothing to amount of near \$300. Base balls, at all prices from 5c to \$1.25 at Murray's drug store. Blank tax receipts and tax notices to be had at Reporter's office. Revs. J. M. King, W. E. Fischer, and Messrs. Jas. Lohr and C. Dingus are delegates to the Grand Lodge of Good Templars in session at Williamsport. The State College boys were down at Lewisburg, one day last week, to play the University base ball club. The State College boys came out far ahead. The license of Wm. S. Musser, for a hotel at Millheim, was granted last week, having been deferred at April term. Jacob McCool's saw mill, in Pine Creek hollow, was destroyed by fire a short time ago. The fire broke out while the hands were at supper. The mill was not insured. Fire was caused by the engine it is supposed. Rev. Wm. McCool, and mother, paid our sanction a visit on Monday. Mr. McCool will leave for Nebraska, next week, where he will join his family, who went thither some time ago. Judge Orvis, of the Phoenix Colliery, near Osceola, posted a notice that on Monday his men must return to work at the old prices or the mines will be closed. About 500 men employed by Berwind, White & Co. threaten to stop work. We observe that Mr. Sell is shipping considerable quantities of his patent wire flat fence to parties outside this county. He has induced the patentees of the fence to come here and have their machines manufactured in this place. All kinds of men's wear at the Philad. Branch. Neckties, dusters, cuffs, collars, hats, hose, and anything to rig out a man or boy for church, wedding, or common labor. Bargains in every thing to astonish you. Try Lewins. The largest trade in boots and shoes, done in this county, is at A. C. Mingle's, in the Brockerhoff house block, because all know that the largest and finest stock is always on hand there. Prices are low and all goods guaranteed. Food for the brain and nerves that will invigorate the body without intoxicating, is what we need in these days of rush and worry. Parker's Tonic restores the vital energies, soothes the nerves and brings good health quicker than anything you can get. The Williamsport Gaz. & Bul. gives a glowing account of the Hill-Packer wedding in that city, a few days ago. Among list of guests we observe the name of Charles Kurtz, of Centre Hall. It was the society event of the season in that city. Editor Ulrich, late of the Selinogrove Times, is spending a short vacation with his father-in-law, Maj. J. B. Fisher, at Penn Hall. The Times was quite an interesting sheet, and we are sorry to have Mr. Ulrich drop from the editorial tripod. We wish the new managers of the Times success. When persons have to resort to every species of low trickery, for years beforehand, to get an office, it is clear evidence they are possessed of no merit to go on, and in such cases such folk naturally become disgusted with the society they live in and will resort to anything to get out of it—to get an office we mean. One bottle of Keller's Catarrh Remedy possesses more virtue than a half dozen bottles of ordinary patent preparations. It is infallible in the cure of catarrh, malaria and all skin and blood diseases. The boro' school board has voted to have an eight months school term, with three schools as heretofore. The highest grade to be of the academic standard, and open to outside students who pay the usual tuition. The plan is good, and one we always favored. Since our last week's issue we learn that the judgment obtained against J. C. Motz, in U. S. Court, does not stand on equal footing with the judgments confessed by Mr. Motz in favor of parties in this valley, but comes in after those are satisfied. Blank books of every description—Bairfoot & Wetzel, Bellefonte.

LUTHERAN CHURCH DEDICATION.

The Lutheran church, at Centre Hall, will be dedicated on June 20, Dr. Conrad, of Philad., editor of the Luth. Observer, to preach morning and evening. Revs. J. A. Earnest and J. K. Miller will preach Thursday and Friday evenings previous to dedication, June 17th and 18th. All are cordially invited to be present.

There will be preaching at the Union on next Sabbath at 10 a. m., at Georges Valley at 2 p. m., and at Tusseyville at night. W. E. FISCHER.

An endless assortment of seasonable goods can be found at McFarlane's hardware store, Bellefonte. The Vapor Stoves they sell are just the thing for use in hot weather when cooking on a common stove is a burden. They are perfectly safe in every way and any one can use them.

Lewins is selling ready-made clothing in stacks, Customers in Clinton, Clearfield and other counties go there for suits, besides nearly everybody in our own county. His stock is simply unsurpassed, and prices so low that all competition has been distanced and given up the chase.

In furniture the establishment of McCormick Brothers, Centre Hall, offers inducements that no competition can duplicate. They keep a large stock of all kinds of furniture on hand, and manufacture any thing wanted to order on short notice. Their goods compare with the best and prices are low to suit the times.

Any kind of labor is honorable, farmer, carpenter, shoemaker, wood-chopper, etc., still persons will get so lofty, that after being reared in any of these, they get disgusted and turn up their noses to find a higher order of beings.

Shoemakers—I can supply you with rubber cement for mending gum boots, etc.—J. D. Murray.

Care for Croup—Use Dr. Thomas' Eclectic Oil according to directions. It is the best remedy for all sudden attacks of colds, pain and inflammation, and for injuries.

Prof. S. C. Stover is home from Franklin and Marshall Seminary at Lancaster, and will preach at Spring Mills at 10:30 a. m., and at the Union at 2:30 p. m., next Sabbath, filling the appointments of Rev. Lan.

Graham & Son have just received another lot of ladies' fine soft lace shoes, made on the "common sense" plan. Ladies wearing these shoes will find the breaking in process entirely done away with, as these shoes fit from the first—no more corns or bunions by wearing the common sense shoes.

Local news are scarce this week—there are few happenings of note—except that Bohemian notes are making things brisk in the banks and many fellows are in a sweat.

The first regular meeting of the Women's Christian Temperance Union will be held in the Evau. church on Wednesday, 2 p. m., June 16. All who are interested in this work are invited to attend.

We direct the attention of our readers to the advertisement of Kennedy & Shires, who have a new fence machine, which has many points of merit, and will supply a long felt want.

Get your ready-made clothing at the Philad. Branch and save money.

Landlord Bibby is arranging to erect a distillery at Spring Mills, and Mr. Van Valin a similar institution at Coburn. Happy localities.

Weather evenings and mornings is cool.

Instead of glycerine, bay rum, etc., for hands, use Dr. Smith's Salve. It is better and cheaper. At druggists.

Bairfoot & Wetzel are agents for rubber stamps.

For wall-paper go to Bairfoot & Wetzel's, Bellefonte.

Fine stationery a specialty—Bairfoot & Wetzel, Bellefonte.

Pictures and picture frames—Bairfoot & Wetzel, Bellefonte.

A reputable citizen of Harris gives it as a fact that a candidate for Prothonotary has gone into that township and sought the aid of temperance men because he was one to and also went to the opposite element and sought support leaving the impression he was an anti-temperance man, and even brought a bottle of whisky into the township. If the intelligent citizens of that township do not rebuke such an insult to their temper. We know it as a positive fact that the candidate has played a similar discreditable game in other parts.

Amos Gift residing four miles west of Middleburg last week found a land turtle on his farm that his father's name, Jacob Gift (now deceased) inscribed on it with the year 1833. The turtle has remained the farm ever since this is the first since Mr. Gift has seen it last. This makes the creature 53 years old to a certainty, to say nothing of its age before Mr. Gift's father found it.—Post.

Whisky and the Weed.—When it becomes clearly understood that Dr. Richmond's Samaritan Nervine is not only a specific for epilepsy, nervous diseases, liver and kidney disease, scrofula, and host of other disorders, but also for inebriety, thousands will rise up and call the discovery blessed. \$1.50 at druggists.

SCOTT'S EMULSION OF PURE COD LIVER OIL, WITH HYPOPHOSPHITES is more reliable as an agent in the cure of Consumption, Chronic Coughs and Emaciation, than any remedy known to medical science. It is so prepared that the potency of these two most valuable specifics is largely increased. It is also very palatable.

DR. NEVIN DEAD.

The Distinguished Theologian and Educator Passes Away at Lancaster.

Rev. John Williamson Nevin, D. D., LL. D., the President of Franklin and Marshall College and a noted Reformed church theologian, died at his home, Caernarvon Place, Lancaster, this evening at 8 o'clock, in the eighty-fourth year of his age. He had been ill about ten days.

ACTORS BEFORE THE CAMERA.

Some of Them Obliging and Some of Otherwise.

John McCullough, genial John, was one of the best of men to be photographed; he was always obliging. He was the best of gentlemen; his manners were the best. We were taking him in a large number of costumes one Sunday—oh, yes, that's the only day we can get for these people—and had come to Spartacus. We had chosen the position, and it was one where he held his arm high above his head. After John had placed the ideal of gentlemanly conduct in the time I went with Forrest to have the same thing done, and in this same position, and the tears came into his eyes. I tell you, John loved his master, Forrest, as few are loved. Charles H. Thorne, Jr.'s, picture always had an immense sale, particularly at the time of the great run of the "Banker's" picture. I went upon the principle that he was a public servant, and owed that much to it.

Lester Wallace was a charming subject. We took him as Dazle in "London Assurance," and he kept us in the best of humor, with his wit and grilles. The other hand, was as sedate and stately as he always is. He regarded it as an unpleasant duty, a sort of rehearsal. "Sam'l of Posen" Curtis was a peculiar one. He is a great talker and is always wanting to tell you what he paid for each and every actor that I ever met was Sam'l Rossi, the Italian. He played a great trick on our waiting maid, a darky, by suddenly and unexpectedly appearing in costume before her and acting a bit for her sole benefit. She was so scared that she thought the great Rossi was crazy.

Edwin Booth is one of the most difficult subjects; he abominates such things and refuses to sit under any circumstances. When he did for us he was unmanageable and wanted his own way, which more than once resulted in a poor picture. Mr. Boucicault always assists an artist by his humor, and his wit is not kept for the stage alone, but he is also wonderfully amiable under such circumstances. He came in and we took him in street costume once, and to our thanks he said, "not at all; if I had more time you should have me in all my costumes." William Warren is another man of men; he is the actor, and gave us a never fails of getting a good picture. Handsome George Rignold of Henry VIII fame was an erratic fellow; he said he had rather go through a whole performance than sit for a picture; but his native vanity—you remember he was a good-looking fellow—always brought him round, and we took some fine photographs of him. Another of the same style was Harry Montague—whose death, it was said, threw thirty-two New York women into mourning. His pictures and Rignold's had a great sale, particularly among the fair sex. Mr. Irving is the only actor who ever ignored our request for a sitting, but Miss Terry and gave us a fine picture. Nat Goodwin is always too busy; Nat Raymond is the liveliest of the lively, and when giving us a sitting as Col. Mulberry Sellers, kept up a running fire of pleasantries.—Boston Times.

A Way Out of the Difficulty. Old Dr. Hewson was distinguished for philanthropy. In one instance the doctor had a case of malignant typhoid fever. He prescribed rest and nourishment for his patient. "Give Dan plenty of chicken. He must have more nourishment." "Shall I kill a chicken?" "Yes, you'd better kill a young rooster; broil it well and add gravy as a sauce. It will do him good, and give him plenty of gray." Dan's wife killed, dressed and cooked a fine chicken. "That's about right," said the doctor, who was superintending the job, as he anxiously eyed the chicken. "Dan, how're you feeling?" "First rate, doctor, first rate." "Let me feel your pulse." Dan extended his arm and hand. "You are more feverish than usual. I just ordered your wife to broil a chicken, but you can't eat it; you're too feverish." "What shall we do doctor?" inquired the wife. "I see no way out of the difficulty but to eat the chicken ourselves. I once suffered from typhoid fever myself, madam!" —Troy Telegraph.

A Great Desire for Information. The passion for statistics has broken out in a new form. A London "intelligence" collector has been employed, probably at a fair compensation, to secure data upon which to base a calculation of the causes of failure in life, business and professional. The following circular was sent to a large number of men over the age of 35:

To what causes do you attribute your failure in life? 1. Of profession. 2. Of business. 3. Of general life. 4. Drinking (say what drink). 5. Gambling (turf, cards, or what). 6. Dishonesty. 7. Unfortunate acquaintances. 8. Marriage. 9. Single life. 10. Disinclination to work. 11. Lending or borrowing (say which). 12. Unpopular views (political); unpopular views (religious). 13. Tobacco in what form. 14. General incapacity. 15. Other causes; general remarks.

The responses to this comprehensive list of interrogatories will be most interesting. The plan may work in England, where men are presumably frank and willing to admit failure prior to the death-gasp, but it would never do in this country. The chances of picking up a profitable job are too good here to confess loss of the game before it is finished.—Chicago News.

The Progress Made in Base Ball. The game of base ball is now wonderfully perfect, and I never tire of looking at it, or thinking of the extraordinary strides it has taken in fifteen or twenty years. Why, when the old Empire and Union used to play it was considered a wonderful performance for a man to catch a ball on the bound. I remember what astonishment it created at the base ball convention in 1869 when somebody proposed to abolish the first bound and maid catching, but by catches in what form. 11. General incapacity. 12. Other causes; general remarks.

One Way of Utilizing It. Young playwright—Well, Mr. Buncomb, have you read my comedy? Buncomb—Yes, and I find I shall be unable to use it. It has some good points, my dear boy, but it's crude—dem crude. Young playwright—Then you couldn't think of putting it on the stage? Buncomb—Well, I didn't mean to say that I could have it ground up and use it for a snow-storm, if you would care to have it put on that way.—Chicago Rambler.

An address by a converted dude was the feature of a meeting of the Salvation army the other night in Washington.

White our stock is up to the usual standard we wish to call your attention to but two departments this week. We have just received a large invoice of Johnson's Square Granite Ware, giving you a chance to select a set of dishes and at lower prices than ever known in this country.

We have also a lot of sample pieces of beautiful Ingrain Carpets we will keep for two or three weeks. If in need of a carpet it will pay you to see these at once. Very respectfully yours, Wm. Wolf & Son.

A DISASTROUS FIRE.

Lebanon, Pa., June 6.—The works of the Pennsylvania Bolt and Nut Company, the largest of their kind in the country were destroyed by fire to-day. Four large brick buildings were consumed with all their contents, embracing a large amount of finished stock and valuable machinery. The loss is about \$150,000 and is covered by insurances. About 350 men are thrown out of work. The cause of the fire is unknown.

REWARDS OFFERED FOR INDIANS' HEADS.

Tombstone, Ariz., June 2.—Captain Pierce, of the San Carlos Reservation, has offered the Indians settled in the San Pedro Valley under Eokiminzin a reward of \$50 for the head of each hostile Indian they may kill. This is done to induce them to fight against the hostile instead of joining them as it has been feared they would do.

Alaska Breaker, Mount Carmel, operated by the Philadelphia and Reading Coal and Iron Company, was totally destroyed by fire on Saturday evening. It was valued at one hundred thousand dollars and shipped when running full-handed, twenty-five thousand tons per month. Five hundred hands were employed.

THE IMPROVED HENLEY MONARCH FENCE MACHINE.

COMMON SENSE REASONS WHY THE IMPROVED HENLEY MONARCH FENCE MACHINE IS THE BEST AND HAS NO EQUAL.

- 1 Because the wire is stretched the full length of the field before the weaving is commenced.
2 Because any sized wire can be used, and either 2, 3, 4, or 5 double strands can be used, weaving all with equal facility.
3 Because any size, length, or style of picket, or slat, or board, can be used, weaving fancy iron pickets equally well and solid.
4 Because it will make a fence over rough and uneven ground, or up and down hill alike, making as good a fence as on even, level ground, and the machine being adjustable, the pickets are all woven plumb.
5 Because the Monarch machine stretches the wire tighter, thus making the strongest and best wire and picket fence.
6 Because any one, man or boy, can operate it, and there are no parts to get out of order and repair.
7 Because it is made of the best materials, and, with proper care, will last a life-time.
8 Because the price is within the reach of every farmer.
9 Because it is the only machine that forces the slat or picket firmly against the wire, thus securing the slat in such a solid and permanent manner that it cannot be pulled out, and breakage is impossible.
10 Because the fence made by this machine will turn all kinds of stock, and is much stronger than any barb wire fence, and completely obviates the danger of injury to stock.
11 Because by weaving past the post, and fastening the wire strands to the posts with staples, and not nailing the slats to posts, thus keeping the wood parts from coming in contact with each other, it will not hold the moisture or rot. This is a very important matter, as all boards in board fences soon rot off at post, and occasion continued expense for repair.
12 Because all kinds of old material can be used for making new fence.
13 Because it makes the handiest, best, strongest, and most durable fence, and is the only first-class practical fence machine in the world.

For prices of machines, fence material, or territory, address SHIRES & KENNEDY, Sole Agents for Penn'a., CENTRE HALL, PA.
