Prejudice is hard to combat. It cannot be overcome in a day. More than likely it wasn't formed hastily. Indeed it may have been gradually strengthening its hold for years. For instance, some folks believe Rheumatism cannot be cured. Their fathers believed so before them. So did their grandfathers:

Now, RHEUMATISM CAN BE CURED, notwithstanding this prejudice, but the trouble is to make people think so. The only way we know to meet popular unbelief is to state the PLAIN FACTS, and then present the POSITIVE PROOFS ey are facts. It is a fact that the RUSSIAN RHEUMATISM CURE not only relieves but banishes Rheumatic Pain. There is positive proof of it too. It comes from those who have suffered untold agony with Rheumatism and have been completely cured by this remedy. All who have tried it have had this experience. Some of them permit us to print their testimony. It makes quite a little book, which we send free to any who are interested enough to ask for it.

A complete Russian Rheumatism Cure, costs \$2.50. If mailed, Ioc. additional. If registered, 10c. more. You'll never need but one, so the price isn't high. Who wouldn't

give \$2.50 to get rid of Rheumatism ? As yet it cannot be found at the stores, but can be had only by enclosing the amount as above, and addressing the American Proprietors,

and that he should commit the unpardonable act with which he is charged is something difficult to believe. It is to be hoped that it is not true, but if it is true Mr. Sedgwick will be recalled at once." Mr. Bayard thinks that if the story were true Minister Jackson would certainly have informed the state department at once.

Assistant Secretary of State Porter was much astonished and distressed by the infornation. He declared that he has heard othing about the matter, except what he had gathered from the newspaper story. state department," he continued, 'The 'would not get any information except by nail, and that would be some time later. am sorry to hear this and hope it may not be true. It is very strange that some men will behave well enough at home, but when they get away take advantage of their opportunity to make fools of themselves"

"I don't see that any shing can be done," the reply. "". michal of the grow of so this He is simand a report. I is unfortunate for him that he could not behave properly. But I do not see that there is anything to do about it only to stand it."

Inquiry at the hotel where Mr. Sedgwick as always stayed while liere, and where he lived for some months during the session of the Forty-eighth congress, when he was here league, developed the fact that the special envoy was in the limbit of gazing upon wine when it all stages of color. His wine

would run up into the hun-dreds of dollars almost every week. He was especially fond of the class of women who predominate in a certain part of the city known as Looker's Division, and on more than one occasion he has been known o paint parts of the city a beautiful Swiss inset color, and to carry on much in the ime sivie as he is said to have carried on in livilo's capital. He was given to hack dding, and on two or three occasions he made ali-night trips to the Cabin John bridge, a omewhat famous suburban resort.

There are few persons here who ever knew im. His associates on his numerous escapades were generally young congressmen and lobby-ists like himself. All of those who have said anything upon the subject are pronounced in their opinion of Sedgwick and look upon the matter as a national disgrace. They express great surprise that the secretary of state should have selected a man with Sedgwick's alleged habits. Mr. Bayard is severely ensured for having selected a person for so delicate and important a mission without knowing more of him.

yesterday afternoon, where he was formally welcomed by M. Stambouloff, the head of the provisional government, in the name of the people of Bulgaria. M. Stambouloff then restored to Prince Alexander the reins of power, and declared him once more upon the o throne of Bulgaria.

Prince Alexander was much moved, and declared, in reply to the address of M. Stambouloff, that he would sacrifice his life for the people. The popular enthusiasm over the return of Alexander was unbounded. People ran hither and thither, cheering, laughing and weeping for joy, and the appearance of the prince in public was the signal for shouts of welcome and affection.
